

**CONFIDENTIAL:** Last updated: 10/30/2023

Jackson Mechanical Service Inc. became incorporated on March 8, 2012, in the State of Oklahoma. JMS is fully bonded, licensed, and insured.

Jackson Mechanical Service Inc. purchased Jackson Boiler & Tank Co. on April 11, 2012. Jackson Boiler & Tank Co was founded in 1957 by Kenneth Jackson. It primarily operates in the Oklahoma City metro servicing, repairing, and installing boilers and heating and chilled water systems for commercial customers. JMS also has branches in Tulsa and Ponca City and services customers throughout the entire state of Oklahoma.

Jackson Mechanical Service Inc. has expanded its service and mechanical abilities to a full Chiller / HVAC, Plumbing, Electrical, and Boiler service company and provides customers with a single point service company. **Currently, JMS has more than 60 techs in the field who provide the following services:**

- Steam and Hot water boilers to 1000 HP

- Preventative maintenance service
- Generator Installation
- Remodels
- Parking lot lighting

## **Certifications**

We have service copies of factory certifications for our technicians.

*\*\*Please be aware: The factories do not always hand out certifications, even though the technician attended factory classes.* We feel it is important for you to know that our technicians have worked for OEM factories.

## *Senior Management of Jackson Mechanical Service Inc.*

### **Scott Fuksa – President for Jackson Mechanical Service.**

Scott joined the Jackson team in 2013 as our Field Foreman and was promoted to president in 2023. He is responsible for growing Jackson Mechanical, as well as company performance. Scott brings to the team more than 20+ years of technical knowledge in the industry and is OSHA trained and certified.

### **John Birdsong – Vice-President for Jackson Mechanical Service, Inc.**

John has more than 20 years of HVAC experience in the trade. He joined Jackson Mechanical in the summer of 2016. He has a wealth of knowledge on all brands of HVAC systems, including all types of package systems, heat pumps, piping, and controls. John manages the day-to-day operations for all Jackson offices.

### **Travis Fuksa – Tulsa Branch Manager for Jackson Mechanical Service, Inc.**

Travis joined the Jackson team in the winter of 2018 and brings with him 20+ years in the HVAC industry. He oversees day-to-day operations for the Tulsa region.

### **Jimmy Wood – Estimating Manager for Jackson Mechanical Service Inc.**

Jimmy joined the Jackson team in 2019 as one of our service sales executives. He manages the project sales team for the company as well as following up with customers after the sale and maintenance contract performance. Jimmy brings to the team more than 25+ years of equipment and refrigeration service knowledge.

### **Austin Jameson – Service Manager for Jackson Mechanical Service Inc.**

Austin joined the Jackson team in 2016 with 13 years of field service experience. Austin has attended multiple factory training courses on boilers, chillers, and VRF systems. He oversees all service technicians and service projects for the OKC branch.

### **Greg Manhalter – Tulsa Service Manager for Jackson Mechanical Service Inc.**

Greg has more than 38 years of experience in the HVAC trade. Greg joined the Jackson team in 2014 as the scheduling and dispatching manager. Previously, he worked for the YORK manufacturing plant in Norman, Okla. as a technical support person for national accounts, helping contractors all over the country troubleshoot problems with equipment. Before transferring to the YORK plant, Greg worked in the field as a YORK technician responsible for installation and control integration between YORK chillers and building controls. Greg also has more than 20 years of experience with large chiller and boiler plants. He was the lead technician for such companies as Sears and Wiggins Properties.

**Kelli Mussett – Vice President of Finance for Jackson Mechanical Service Inc.**

Kelli joined the Jackson Mechanical team in 2017. With more than 20+ years of experience in dispatch, bookkeeping, accounting, invoicing of service business documents, budgeting, and financial statement preparation and reporting.
