

DYNAMIC SAFETY SOLUTIONS LLC

CAPABILITY STATEMENT

SERVICE-DISABLED VETERAN-OWNED SMALL BUSINESS

Safety | Environmental Compliance | Quality Management

DSS supports government agencies, prime contractors, and commercial employers with practical safety, environmental, and quality consulting. Based in Gulfport, Mississippi, we serve the Mississippi, Alabama, and Louisiana Gulf Coast.

CORE COMPETENCIES

Safety & Federal Project Support: EM 385-1-1 support, OSHA programs and inspections, risk assessments, incident investigation, site safety plans, and AHA/JHA development.

Environmental Compliance: EPA/RCRA hazardous waste programs, waste determinations, TRI reporting, environmental audits, and regulatory documentation.

Quality Management: ISO 9001:2015 preparation, gap analysis, internal audit support, corrective action assistance, and continuous improvement.

Workforce Training: HazCom, PPE, hazardous waste, fire prevention, emergency response planning, and respirator fit testing.

LEADERSHIP & DIFFERENTIATORS

Led by Travis Girley, a retired U.S. Air Force fire protection professional with 25+ years of combined military and industrial experience. DSS brings integrated safety, environmental, and quality support; practical field knowledge; project-specific documentation; and Gulf Coast availability.

Selected owner qualifications: Fire Officer III; Fire Inspector III; Fire Instructor III; Hazardous Materials Incident Commander; OSHA 30-Hour General Industry; Hazardous Waste Management (RCRA); HAZWOPER; Hazardous Materials Ground Shipper.

RELEVANT LEADERSHIP EXPERIENCE

Experience below was gained by Travis Girley in prior employment and military service; it is not presented as DSS corporate contract performance.

Multi-facility marine manufacturing operation | EHS Manager

- Led EHS programs for a multi-facility marine manufacturing operation supporting 350+ personnel across composite fabrication, painting, welding, machining, and assembly.
- Conducted 50-75 safety and compliance inspections monthly; investigated incidents and tracked corrective actions following internal audits and regulatory inspections.
- Administered LQG hazardous waste activities, including accumulation areas, waste characterization, manifests, and disposal coordination; coordinated TRI reporting and EPA/MDEQ activities.

United States Air Force | Fire Protection Leadership & Rescue Instruction

- Led emergency response, hazardous materials response, fire prevention inspections, and technical training at military installations; served as Rescue Technician Instructor and NCOIC of rescue training.
