

It is the adoption by the business, the processes and – more importantly – the people that bring the value.”

NICHOLAS DEVENEY
DIRECTOR OF DATA & CONSULTING

UNLOCKING VALUE

DATA INSIGHTS

As a smaller, more agile alternative to traditional consultancies, we embed within your team to co-create meaningful, lasting transformation.

Our areas of expertise

- Data Architecture & Engineering
- Data Management & Data Quality
- BI & Analytics
- Data Science, AI & Machine Learning
- Data Culture & Change

We avoid long, disruptive change cycles, delivering smart, adaptable data strategies for faster progress and lasting impact.

Our people-first, knowledge-transfer approach builds internal capability, empowering your teams for sustainable growth.

SMALLER. FASTER. FOCUSED ON YOU.

- **Agility over bureaucracy:** We flex with your needs, moving faster than large consultancies.
- **Business-Aligned, Outcome-Focused:** We align data solutions with your commercial goals to unlock actionable insights and measurable value.
- **Hybrid knowledge model:** Deep industry expertise + cross-sector insights = smarter solutions.
- **Embedded partnership approach:** We work with your teams to build capability & create practical, adopted solutions.
- **People-focussed exit strategy built-in:** From day one, we set you up for independence and lasting capability.
