

ELITE

SAFETY, TRAINING & RESCUE

Delivering Quality Services
to **Safety Critical Environments**

About Us

Elite Safety, Training & Rescue is not simply a company name, it's, more importantly, an absolute ethos. Elite was founded by experienced and qualified sector experts that have a passion for delivering the absolute best Training, Safety & Rescue services possible

Elite will provide your company with a fully quality assured solution to your safety critical need, whether that be Training, Safety or Rescue Services. Elite Safety, Training & Rescue are recognised industry leaders and sector experts with not only the qualifications and competency, also a wealth of over 20 years of operational experience, in both Industry & emergency services, planned work and training environments

Our Services

Elite Safety, Training & Rescue are an Approved Training Organisation (ATO) for many of the awarding bodies including CITB, City & Guilds & Qualsafe Awards and consistently deliver occupational qualifications to the highest possible standards with integrity. Elite adopt a partnership approach and work with our clients to satisfy their exact requirements, rather than off the shelf products only.

We are able to offer and directly provide accredited and in house training courses from our centres, or other

venues based on your needs. We are sector competent, experienced specialist training providers.

Provision of sector specific consultancy services is

something Elite are very well equipped for, our experienced & qualified consultants offer a wide range of quality services to safety critical environments, backed not just by qualification but with a wealth of experience to add value and peace of mind.

Our Safety & Rescue Teams provide on-site services where that extra level of provision is required to satisfy legislation and safe systems of work. We add value to this role by playing a pro-active part in the planning & management of the project to ensure their professional rescue services remain available but rarely required.

We don't just teach it, we actually do it, our Trainers, Consultants, AP's and Safety & Rescue teams support our multi sector clients on a daily basis.
