A Family Company.

sempre vicini a te

Proprio come una famiglia accudisce i suoi membri con amore e dedizione, così Colombo Design cura i suoi prodotti, con gli stessi valori e le medesime tradizioni, per fare di ogni ambiente una casa, senza scendere mai a compromessi sull'autenticità. Un manifesto contemporaneo dell'essere creativi, curiosi e sperimentali.

handles with care

Just like a family that handles its members with love and care, Colombo Design cares about its family of products and its production with the same values and traditions to make of any place a home, never accepting any compromise to quality and function, individuality and authenticity. Bonding heritage with creativity, curiosity and innovation.

Mission.

la qualità sensibile

Intraprendere un'impresa nel terzo millennio.

Infondere entusiasmo ai collaboratori, convinti che il fattore umano sia condizione essenziale al progresso aziendale.

Produrre secondo criteri di eccellenza nelle varie fasi di lavorazione per offrire prodotti garantiti.

Rinnovare costantemente impianti e procedure per precedere i rischi dell'obsolescenza. Questi i requisiti di Colombo Design, leader mondiale nella produzione di maniglie, presente in 93 paesi nel mondo attraverso una fitta rete di agenti e distributori. Una realtà solida, nata nel 1991, che si estende su una superficie di 100.000 mq, di cui 25.000 mq coperti, a Terno d'Isola in provincia di Bergamo.

discerning quality

Creating a business in the third millenium.

Motivating staff by recognising that human resources are essential to the company development.

Achieving manufacturing excellence at every stage of production so that products may be guaranteed.

Continuously updating machinery and manufacturing procedures in order to maintain quality levels in harmony with our environment. These are core principles of Colombo Design, world leader in the production of door handles, present in 93 countries worldwide through an extensive network of agents and distributors. A solid reality, founded in 1991, based in Terno d'Isola, in the province of Bergamo, with an area of 100,000 square meters, of which 25,000 sqm are covered.

Environmental approach.

Lo sviluppo è sostenibile se soddisfa i bisogni delle generazioni presenti senza compromettere le possibilità per le generazioni future di soddisfare i propri bisogni.

(Brundtland Report, United Nations, 1987)

è tempo di green made

Green Made significa pensare, progettare e produrre in armonia con l'ambiente.

Green Made: perché In una economia globale assume un ruolo sempre più importante la protezione delle risorse disponibili ed in particolare lo studio degli aspetti ambientali legati alle diverse attività produttive. L'aumento dei consumi delle risorse non rinnovabili (i minerali ed i metalli come pure i combustibili fossili), dovuto alla costante crescita della popolazione mondiale, impone standards di produzione che privilegino la conservazione delle risorse disponibili. I nostri processi produttivi sono frutto di una globale attenzione alla tutela dell'ambiente. La gestione accurata di questi processi ha portato, tra le altre cose, all'ottenimento della certificazione UNI EN ISO 14001 «Sistema di gestione ambientale certificato».

Green Made: il valore Ogni singola fase di progettazione e produzione è attentamente analizzata sotto il profilo dell'impatto ambientale ed ogni scelta successiva dettata dal raggiungimento degli obiettivi di eco compatibilità. Così durante la produzione vera e propria, saranno le più avanzate tecnologie appositamente sviluppate ed i più severi controlli, effettuati da personale qualificato, a garantire Green Made by Colombo Design: un prodotto nato con il pensiero costantemente rivolto all'ambiente.

Sustainable development is development that meets the needs of the present without compromising the ability of future generations to meet their own needs.

(Brundtland Report, United Nations, 1987)

it's green made time

«Green made» means thinking, developing and manufacturing in harmony with our environment.

Green Made: why Protecting our resources is more and more important in a global economy, and in particular paying attention to reflections of manufacturing onto the environment. Increase of consumptions of non-renewable resources (minerals, metals and fossil combustibles) due to increase of population, imposes manufacturing standards which privilege conservation of the available resources and raw materials. Our production processes are the result of a total attention to environmental protection. By the accurate management of these processes we obtained the UNI EN ISO 14001 certification «Certified environmental management system».

Green Made: values Each design and production step is carefully checked with regards to the environmental impact and each following decision is taken if our eco-compatibility objectives are fully reached. This means that when we manufacture our products, the Green Made concept by Colombo Design will be guaranteed by the advanced technologies and very strict controls carried out by a very highly qualified personnel, generating a product conceived constantly thinking of the environment.

Colombo Design achieved, for all of its models, excellent results between which the most significant is the "Grade 4" for the category of use: synonym of absolute quality and resistance.

Warranties.

trattamento di protezione garantito 30 anni

Quello utilizzato da Colombo Design è un processo di finitura mutuato dal settore dell'utensileria, in cui caratteristiche fisiche e meccaniche sono studiate per garantire prestazioni eccezionali di resistenza all'usura meccanica e al decadimento dovuto ad agenti ambientali e chimici. Il processo è stato messo a punto per garantire un notevole aspetto estetico, trasparenza e lucentezza, che fanno risaltare il design del prodotto. Tutti i prodotti trattati con il processo PVD, vengono preventivamente rivestiti con strati di rame, nichel e cromo per garantire un perfetto isolamento della materia prima sottostante. Trattamento con la garanzia di "30 anni" sulle finiture **Zirconium Gold, Oromat, Zirconium Stainless-Steel, Vintage, Vintage Mat, Grafite e Grafite Mat.**

trattamento di protezione garantito 10 anni

La lunga esperienza maturata nel settore dei trattamenti galvanici e PVD, unita alla scelta di prestare particolare attenzione alla qualità nei processi produttivi, consentono a Colombo Design di garantire le finiture dei suoi prodotti oltre la normale copertura prevista dalla legge. È quindi con particolare orgoglio che offriamo ai nostri utenti la garanzia di "10 anni" sulle finiture **Oroplus, Cromo, Cromat, Biancomat e Neromat.** Questo impegno di durata nel tempo del prodotto è la nostra forte ed alternativa risposta al consumismo «usa e getta», sinonimo di spreco ambientale e nemico della memoria collettiva, irrinunciabile valore di tutte le società.

treatment protection guaranteed 30 years

Colombo Design uses a finishing process borrowed from the tools industry, where physical and mechanic features have to guarantee a very high performance as far as mechanic wear and decay due to environmental and chemical agents are concerned. This finishing process also guarantees a high level of design where transparency and brightness allow the product to reveal. All PVD-treated products with High Protection System finishing are previously coated with layers of copper, nickel and chrome in order to guarantee the perfect insulation of the underlying raw material. Treatment with warranty of "30 years" on **HPS Zirconium Gold, Matt Gold, HPS/I Zirconium Stainless-Steel, Vintage, Vintage Mat, Graphite and Matt Graphite** finishing.

treatment protection guaranteed 10 years

The long experience in the field of galvanic treatments, combined with the choice to pay special attention to the quality in production processes, enable Colombo Design to ensure the finishes of its products beyond the normal warranty provided by law. It is therefore with great pleasure, we offer to our end-users the warranty of "10 years" on **Oroplus, Chrome, Matt chrome, Matt white and Matt black** finishings. This commitment of product durability is our strong and alternative response to consumerism «disposable», synonymous with environmental waste and enemy of collective memory, an essential value of all societies.

PVD treatment.

Trattamento Pvd, ispirato dai nuovi colori di tendenza.

Il trattamento PVD (Physical Vapor Deposition) è un processo di altissimo livello tecnologico che, mediante deposizione fisica da vapore di una sottile pellicola di straordinaria durezza, permette di ottenere un rivestimento superficiale dalle eccezionali caratteristiche estetiche e tecniche. Una tecnologia utilizzata per offrire tonalità cromatiche stabili nel tempo e per garantire prodotti con elevata durezza superficiale, inalterabilità ai raggi UV, resistenza all'usura, all'abrasione e alla corrosione. Garantito 30 anni e realizzato internamente negli stabilimenti produttivi Colombo Design mediante l'utilizzo di una speciale macchina, il trattamento PVD è disponibile nelle finiture Oromat, Zirconium Gold, Zirconium stainless-steel, Vintage, Vintage Mat, Grafite e Grafite Mat.

Pvd treatment, be inspired by new trending colors.

PVD (Physical Vapor Deposition) treatment is a process of the highest technological level which allows to obtain a surface coating with exceptional aesthetic and technical characteristics through physical vapor deposition of a thin film of extraordinary hardness. A technology used to offer stable color tones over time and to guarantee products with high surface hardness, inalterability against UV rays, resistance to wear and corrosion. 30 years warranted and obtained internally in the Colombo Design production plants using a special machine, the PVD treatment is available in Oromat, Zirconium Gold, Zirconium stainless-steel, Vintage, Vintage Mat, Graphite and Matt Graphite finishes.

Colombo Design apre all'arte, alla storia e alla cultura unendo alla tradizione ciò che più le appartiene: il design. Il connubio con Accademia Carrara ha lo scopo di diffondere la bellezza della creatività italiana in tutto il mondo, offrendo un incontro di valori che stabilisce una forte connessione tra emozioni e comunicazione, tra talento e abilità, tra interpretazione e comprensione del sentiment di artisti e designers. OPEN ART racconta l'arte e il design con le maniglie di Colombo Design.

Colombo Design opens the door to art, history and culture by linking tradition with what most belongs to it: design. The partnership with Accademia Carrara aims to spread the beauty of Italian creativity around the world, offering a meeting of values that establishes a strong connection between emotions and communication, between talent and skill, between interpretation and understanding of the sentiment of artists and designers. OPEN ART talks about art and design with handles by Colombo Design.

"One" e "OneQ" sono i primi
due modelli della collezione,
progettati da Colombo Design.

Maniglie dalle linee morbide e pulite, che
ben si prestano ad essere declinate in tutte
le varianti cromatiche RAL.

Nessun limite quindi alla creatività:
"ne facciamo di tutti i colori"!

"One" and "OneQ" are the first two models
of the collection, designed by Colombo Design.

Handles with soft and clean lines, which can be
easily declined in all RAL color variants.

So there is no limit to creativity:
"we are up to all sorts of things ... and colors"!

12 colori per 12 tappe significative di un viaggio lungo 30 anni e proiettato verso il futuro. Riperkorrendo la storia di Colombo Design dal 1990 al 2020, sono stati individuati gli anni che hanno segnato in modo determinante lo sviluppo aziendale, associando ad ognuno di essi un colore tra quelli proposti.

Dalla passione, competenza ed esperienza della famiglia Colombo nasce Colombo Design, un'azienda che pone al centro dei suoi prodotti qualità, estetica e funzionalità. Una family-company che infonde ai propri prodotti i valori e le tradizioni del saper fare italiano. Colombo Design was born from passion, competence and experience of the Colombo family, a company that puts quality, beauty and functionality at the center of its products. A family-company that creates its products with values and traditions of Italian know-how.

12 colors for 12 significant stages of a 30-year journey projected towards the future. Tracing the history of Colombo Design from 1990 to 2020, we have identified the years that have decisively marked our company's development, associating each of them with one color from those proposed.

LIME GREEN
LEMON YELLOW
CAPRI BLUE

A disposizione una gamma di 12 colori, accuratamente selezionati per poter definire il *mood* di una stanza, così come lo stile di una porta o di un serramento attraverso accostamenti tono su tono o in contrasto.

A range of 12 colors is available, carefully selected to define the mood of an environment, as well as the style of a door or window through tone-on-tone or contrasting combinations.

OCEAN BLUE
STRAWBERRY RED
SUNSET ORANGE

MOOD Collection di Colombo Design dà spazio al colore e alla creatività. Un nuovo modo di presentare e interpretare la maniglia.

Protagonista è il colore, con la sua capacità di esprimere il *sentiment* di chi lo sceglie e di plasmare l'ambiente, arricchendolo di stimoli visivi che parlino delle persone che lo vivono.

Colombo Design's MOOD Collection gives space to color and creativity. A new way of presenting and conceiving the handle.

Color is the protagonist, with its ability to express the sentiment of those who choose it and to shape the environment, enriching it with visual stimulations from the people who live in this environment.

L'elevata qualità del materiale e l'utilizzo di vernici di ultima generazione sono espressione di un rinnovato impegno verso la tutela dell'ambiente e la riduzione dello spreco delle risorse, fattori che consentono di estendere la garanzia di questa collezione a 10 anni.

La gestione accurata dei processi produttivi è confermata dalla certificazione UNI EN ISO 14001 «Sistema di gestione ambientale certificato».

The high quality of the material and the use of latest generation paints are the expression of a renewed commitment to protecting the environment and reducing the waste of resources, factors that allow the warranty of this collection to be extended to 10 years.

The careful management of production processes is confirmed by the UNI EN ISO 14001 "Certified environmental management system" certification.

L'ignoranza è la ragione di uno degli utilizzi più avidi del nostro liquido più prezioso. Al giorno d'oggi, per esempio, più dell'ottante per cento del consumo d'acqua negli Stati Uniti è imputato all'agricoltura. La scelta di convertire terre scongelate ma aride in zone di coltivazione intensa ha inevitabilmente provocato un impoverimento delle risorse d'acqua, che purtroppo non è compensato dal ciclo naturale di ripristino delle precipitazioni e dalle piogge. La situazione in California è particolarmente grave per la siccità che non dà segni di remissione e per la lunga storia di approvvigionamento continuo e scriteriato nei decenni passati. L'Imperial Valley, vasta regione agricola attraversata dall'All-American Canal, seguita ad attingere da questo canale artificiale per un'irrigazione a getto dei campi sconfinati.

È borchia di Borjovsky è andato a fotografare anche un altro tipo d'innaffiamento molto fotografico per gli incredibili disegni che si creano nel paesaggio e particolarmente utilizzato in Texas. È l'irrigazione a pivot centrale, che riduce lo spreco d'acqua per la sua estrema precisione e delinea cerchi magici sul terreno. Ma c'è un altro tipo di irrigazione, praticata in poche zone, nella regione di Los Monegros, che richiede massima protezione dell'alternanza di coltivazioni. Un (Argentino) luogo in cui la borchia per legge.

Gli schizzi di Angelo Mangiarotti sorpresero: all'origine di ogni progetto di design o un'opera di scultura – la traccia precoce delle sue prime imprese a qualunque genere di realizzazione perfettamente congruenti con le volte ancora più che le fotografie dei schizzi a rivelare fedelmente l'afflato con il quale ha ispirato l'idea stessa dell'opera. Fatalmente, nel corso della sua realizzazione, una serie di modifiche attribuite a committenza, a motivi economici o a una gestione stessa. Com'è ovvio, non a questa norma molte opere di Angelo Mangiarotti subirono modifiche in fase di realizzazione, ma la stretta vicinanza tra le prime intuizioni abbozzate negli schizzi e le opere realizzate non può non essere ascritto all'eccezionale volta, in ogni situazione, Mangiarotti prevedendo chiaramente un profilo di sviluppo per non snaturare il progetto originario. Gli schizzi dei progetti architettonici, i disegni, ma rivelano altresì un'attenzione per i dettagli strutturali e per le modalità di costruzione della fabbrica. In ogni occasione, a ogni fase, dedicava la propria attenzione in maniera concreta con la maggiore esattezza possibile, in mente per realizzarlo compiutamente. Una linea curva, tracciata con apparente noncuranza, gli schizzi degli oggetti di design e delle opere d'arte, rivelano una padronanza e una realtà tecnicamente possibile la loro realizzazione all'atto pratico eseguita con tutta la cura e la precisione dei materiali adoperati. Si tratta di una logica si giustifica anche in termini di comprensione come egli abbozzasse i suoi progetti e calcolando all'istante, in modo tale da poter realizzare la sua opera un'identità unica. Per Angelo Mangiarotti gli schizzi erano o

CONMICO

Ma non è solo questo. Nel trionfo del registro comico, l'umorismo ambrosiano - paradossale e spianato - risulta sfavorito: e meno immediato di quello napoletano o romano, il suo stesso dialetto - «l'epoca poco considerato dagli stessi milanesi» - è meno comprensibile all'uditorio nazionale e internazionale. Sarà per questo che le commedie di maggior successo nazionale raccontano di trasferirsi a Milano napoletani come Eduardo Gattorno?

La trasformazione dal "hum" delle bombe al boom del "cane" a delle macerie ai grattacieli. Il 1953 è l'anno dell'arrivo dei migranti. In "Napoletani a Milano" di Eduardo De Filippo e Siano tutti milanesi di Mario Landi.

Le implementazioni di collaboration sono sempre più orientate verso un modo da favorire un'esperienza esautiva e multicanale.

I trend di mercato

Michele Dalmazzoni, Collaboration & Industry Italia, ci aiuta a fotografare il mercato e a tracciare una panoramica del trend in atto. Osservando lo scenario delle comunicazioni aziendali è possibile identificare diversi macrotrend che in questo momento riguardano in particolare i modelli di consumo, con una netta predilezione verso le architetture Cloud e ibride. Le aziende si stanno avvalendo di soluzioni di collaboration in misura crescente di deployment, la facilità di eseguire aggiornamenti, l'agilità e la semplicità di gestione del servizio. Sono molto diffusi anche modelli ibridi, in particolare nei casi in cui sono necessarie integrazioni con infrastrutture legacy o vi siano esigenze di business.

Carlo Achilli, Business Manager Cisco, Divisione Advanced Solutions Data Italia, sottolinea lo spostamento in Cloud di buona parte dei servizi di collaboration.

QUALE STRATEGIA DEVONO METTERE IN ATTO LE IMPRESE PER PROTEGGERSI AL MEGLIO?

L'evoluzione digitale richiede un nuovo approccio alla sicurezza. Serve un cambio di passo, che deve essere sposato sia dal management che dai dipendenti. Per riuscire a contrastare gli sforzi continui dei criminali informatici, le organizzazioni devono includere le strategie di sicurezza nei loro sforzi di digital transformation. Devono inserirla nei piani di sviluppo e di crescita e comprendere che non si tratta di un costo, ma di un investimento.

che nel cloud. Questo approccio di condividere una threat intelligence utilizzabile in modo rapido riduce le finestre di rilevamento e fornisce una risoluzione necessaria per gli exploit di oggi. Consente quindi più soluzioni per reagire all'unisono alla minaccia. La velocità, integrazione fondamentale per la per questo Fortinet rivolge alle imprese dimensioni, dalle difese, le differenze di investimento

La prima è la scala. L'intelligence avanzata correlata e condivisa tra tutti gli elementi di sicurezza deve essere automatizzata per ridurre le finestre di rilevamento necessarie e fornire una soluzione rapida. L'integrazione dei singoli prodotti attraverso la rete distribuita, combinata alla segmentazione strategica, contribuirà in modo significativo a combattere la natura sempre più intelligente e automatizzata degli attacchi. I dispositivi di sicurezza di legacy e isolati e una scarsa considerazione della sicurezza continuano a rappresentare un pericolo e aumentano il rischio nel panorama delle minacce odierne, poiché non forniscono visibilità o controllo adeguati. Invece, un "security fabric", un tessuto di sicurezza che copra tutto l'ambiente di rete esteso e integrato tra ogni elemento, è vitale per comprendere il panorama odierno e la sua continua crescita e per ridurre la superficie di attacco in

Colombo Design reserves the right to modify parts of its collection range whenever necessary without previous notice.

This catalogue is protected by the Italian copyright laws. No part of this catalogue may be reproduced in any form or by any means.

The price-list has a printing frequency higher than the general catalogue, therefore it is the most up-dated consulting tool.

The textures and colours of materials and finishes are not binding as they depend on printing colour tolerances.

All measures mentioned herein are stated in millimeters, if not differently specified.
