COMPANY PROFILE

COMPANY PROFILE

QUALITÀ DEI PRODOTTI, PROFESSIONALITÀ ED ESPERIENZA DEL NOSTRO PERSONALE:
LA MIGLIORE SOLUZIONE ALLE VOSTRE ESIGENZE

QUALITY PRODUCTS, PROFESSIONAL AND EXPERIENCE OF OUR STAFF:
THE BEST SOLUTION TO YOUR NEEDS

“**Il Forgiato**” è il marchio ormai identificato da oltre 20 anni come la linea di prodotti ideale quando ci si approccia ad una ristrutturazione, quando si rinnovano o si sostituiscono gli infissi e i loro componenti, dalla maniglia, al piccolo particolare, sino alla ferramenta completa. Grazie ai nostri metodi produttivi che uniscono alcuni processi meccanici alle tradizionali lavorazioni manuali del ferro battuto alla forgia, possiamo ricreare maniglie, cerniere ed accessori con lo stesso sapore di un tempo. Ciò ci permette di riprodurre in fedeltà gli articoli che si possono vedere in questo catalogo e quelli che ci vengono richiesti speciali e che realizziamo “**su misura**” da disegno, foto o da campione autentico.

La nostra ormai rinomata finitura “**Ruggine**” è un particolare processo, affinato negli anni che ci permette di ottenere un invecchiamento del ferro in modo del tutto naturale, senza l'utilizzo di vernici colorate e/o prodotti a base di cera colorata. Quindi il risultato finale visivo e tattile è in tutto e per tutto simile ad un pezzo realmente antico, tanto che è stata riconosciuta dai nostri clienti come la finitura ideale e che meglio riproduce l'aspetto di un vero particolare antico ed autentico.

Con questo nuovo catalogo 2015 abbiamo il piacere di introdurre tre nuove particolari finiture: “**Argento Antico**” elegante argento invecchiato che si esalta in qualsiasi situazione, “**Oro antico**” sorprendente e particolare tonalità di oro invecchiato, “**Nero Italiano**” è un nero opaco con base anticorrosione e un procedimento di invecchiamento che rende questa finitura veramente unica.

Con la nostra ampia scelta articoli avremo il piacere di decorare le vostre dimore, creando armonia ed esaltando ciò che vi circonda. Riprodurre ciò che di bello era già stato creato è la nostra filosofia.

“**The Forgiato**” is an over 20 years identified brand, that is seen as the perfect product line when you have to make a renovation, when you have to renew or replace the frames and other components, from the handle to the small details.

Thanks to our production methods, that combine some mechanical processes to traditional manual processes, we can recreate handles, hinges and accessories with the same taste of a time. This allows us to reproduce faithfully the items that you can see in this catalog and those that we can recreate from a drawing, from a picture or from the authentic sample.

With our now famous “**Rust**” finish that we have improved over the years, we obtain a natural aging process of the iron without the use of colored paints and/or the use of colored waxes. The visual and tactile result is a faithful reproduction of an antique item, so that this finish has been recognized from our customers as the perfect finish that best reproduces the look of an authentic antique piece.

We are pleased to introduce with our new catalog 2015 three new special finishes: **Antique silver**, an elegant antique silver which is enhanced in any situation; **Antique gold**, a surprising and particular shade of aged gold; **Italian Black**, a mate black finish with an anti-corrosion base and an aging process that makes the finish truly unique.

With our wide selection of items we will have the pleasure to decorate your homes, creating harmony and emphasizing that what surrounds you. Reproducing everything that was already beautiful is our philosophy.

PERSONALIZZAZIONI

PERSONALIZATIONS

PERSONALIZZAZIONI, SOLUZIONI SU MISURA PER LE VOSTRE ESIGENZE

PERSONALIZATIONS, MADE-TO-MEASURE SOLUTIONS FOR YOUR REQUIREMENTS

I nostri tecnici sono in grado, grazie alla capacità creativa e progettuale, di risolvere ogni tipo di particolare richiesta. L'utilizzo di software 3D di ultima generazione e la consolidata esperienza artigianale ci permettono di creare oggetti su misura da disegni e/o campioni. I nostri fabbri, seguendo le indicazioni dell'ufficio tecnico, creano e modellano con sapienza e maestria pezzi unici, fatti a mano, con tecniche tradizionali.

Our technical team are, thanks to their creative and design abilities, able to fulfill any special requirements. The use of latest generation 3D software together with our long technical experience allows us to create made-to-measure objects, from drawings and/or samples. Our craftsmen, following the technical department's instructions, can create and form unique, hand made pieces with skill and mastery, using traditional techniques.

LE NOSTRE FINITURE

OUR FINISHINGS

RUGGINE - È un particolare e lungo processo, affinato negli anni che ci permette di ottenere un invecchiamento del ferro in modo del tutto naturale, senza l'utilizzo di vernici colorate e/o prodotti a base di cera colorata. Quindi il risultato finale visivo e tattile è del tutto simile ad un originale. La naturalezza, le sfumature e la grana di questa finitura è differente in ogni singolo pezzo. Questo è dovuto ad un invecchiamento naturale del ferro e dalla ruggine vera presente anche a pezzo finito. E' come avere un autentico pezzo antico in mano e se ne consiglia la manutenzione. Per uso interno.

NERO ITALIANO - È una piacevole finitura nera seguita da particolari processi di invecchiamento. Con questa finitura riusciamo ad ottenere l'aspetto e il sapore di antico, di vecchio, di usura del tempo anche ad un articolo con la classica verniciatura nera. Ogni pezzo potrà avere un livello di invecchiamento diverso e anche punti di usura differenti, frutto del processo di invecchiamento. La verniciatura di colore nero non copre le porosità del materiale o la particolare superficie smartellata frutto della lavorazione alla forgia e ogni particolare che potrebbe sembrare un difetto è in realtà il suo pregio. La finitura perfetta per chi ama gli articoli forgiati neri, ma sempre con il sapore di antico. Gli articoli di questa finitura sono trattati con un fondo anticorrosione per una buona protezione alla ruggine. Prestare attenzione nella cura e manutenzione delle parti in attrito. Per uso interno/esterno.

ORO ANTICO - Finitura ottenuta con processi galvanici e diverse lavorazioni di invecchiamento rende al pezzo una particolare tonalità di oro vecchio, molto elegante che dà un carattere molto particolare all'infisso. I chiaroscuri che si evidenziano nelle porosità della superficie e nelle forme, spiccano nelle parti forgiate a mano. L'infisso antico di aspetto è la sua naturale destinazione, ma ha un sorprendente resa anche in particolari contrasti cromatici. Eventuali differenze di tonalità e/o contrasto colore sono un pregio distintivo dei nostri processi di invecchiamento. Per uso interno.

ARGENTO ANTICO - Questa finitura, ottenuta con processi galvanici e procedure di invecchiamento, dona al metallo un particolare aspetto di argento con la classica ma particolare tonalità antica. I chiaroscuri che si alternano nelle porosità della superficie o nelle forme delle lavorazioni, si esaltano nelle parti forgiate a mano. È una finitura indicata in moltissimi abbinamenti di sfondo colore, riuscendo a esaltare e dare personalità anche in infissi molto chiari. Come tutte le nostre finiture, eventuali differenze di tonalità e/o contrasto colore sono un pregio distintivo dei nostri processi di invecchiamento. Per uso interno.

Tutte le informazioni su www.ilforgiato.com

RUST - Rust is a particularly long process, that has been refined over the years. It allows us to get an aging of the iron in a completely natural way without the use of colored paints and/or the use of colored waxes. The visual and tactile result is a faithful reproduction of an antique item. The naturalness, the shades and the texture of this finish are different in each item. This is due to a natural aging of the iron and the real rust that is also present in the finished piece. It's like having a genuine antique piece in its hands and we recommend you for the maintenance. For internal use.

ITALIAN BLACK - It's a particularly nice black finish created by a special aging process. With this finish we can get a taste of something antique, old and used even with a classic black painted item. Each piece will have a different level of aging and also different abrasion points, which are the results of the aging process. The black painting doesn't cover up the porosity of the material or the surface. Each detail that might seem to be a defect is in fact the real privilege. The perfect finish for those who loves black forged articles but always with the flavor of something old. The items with this finish are treated with an anti-corrosions base for a good rust protection. Handle with care and maintenance. For internal and external use.

ANTIQUE GOLD - This finish is obtained with galvanic processes and aging procedures, that gives the item a particular shade of gold, which is very elegant and gives the frame a special character. The light and dark shades you can see in the porosity of the surface and in the forms are enhanced in the hand forged parts. The frames with an antique look is the perfect combination with this color, but it fits well with other colors too. The differences that you can see in the tone and/or in the color contrast are a distinctive advantage of our aging process. For internal use.

ANTIQUE SILVER - This finish is obtained with galvanic processes and aging procedures, that gives the metal a particular aspect of silver with a classic but old tone. The light and dark shades you can see in the porosity of the surface or in the forms of the work are enhanced in the hand forged parts. This finish is particularly indicated in many colored background combinations, which can exalt and give personality even in very light fixtures. Like all our finishes, the differences in tone and/or in the color contrast are a distinctive advantages of our aging process. For internal use.

CONDIZIONI DI VENDITA

CONDITION OF SALES

Le caratteristiche, le forme, le misure, i colori degli articoli illustrati nel presente catalogo sono da considerarsi indicativi; eventuali variazioni nel colore o nella forma sono dovute all'artigianalità del prodotto e non ne pregiudicano le sue caratteristiche essenziali. Utensil Legno Srl si riserva di apportare migliorie e/o cambiamenti senza alcun obbligo di comunicazione preventiva. Gli ordini vengono evasi esclusivamente con clausola “salvo approvazione della casa” secondo disponibilità di magazzino senza obbligo di saldo. Eventuali rimanenze, sarà nostra premura, inviarle il più rapidamente possibile. I termini di consegna non possono essere in alcun modo vincolanti, ed eventuali ritardi non possono generare l'annullamento dell'ordine, né indennizzi di sorta. Accettando l'ordine si dichiara di aver letto, compreso ed accettate tutte le condizioni di vendita, consegna, pagamento e tutte le informazioni su finitura e manutenzione disponibili su www.ilforgiato.com o richiedibili in azienda. I reclami possono essere fatti entro e non oltre 10 giorni dal ricevimento della merce. Non sono accettati resi non concordati e approvati dalla nostra Azienda. L'eventuale reso autorizzato accompagnato da documento di trasporto dovrà contenere tutti i riferimenti della fornitura e dei documenti legati alla spedizione secondo le Vigenti Disposizioni. Per qualsiasi controversia il Foro competente è quello della sede legale di Utensil Legno Srl. I prezzi sono contenuti nel Listino prezzi in vigore.

The characteristics, shapes, measurements and colours of the items illustrated in this catalogue are only indicative; possible variations in the colour or shape are due to the artisan nature of the product and do not affect its essential characteristics. Utensil Legno Srl reserves the right to carry out improvements and/or changes without any obligation of prior communication. Orders are carried out exclusively under the terms “subject to the acceptance by the company”, depending on warehouse availability, without obligation to complete the order. We will endeavour to consign any shortfall in the order as quickly as possible. Delivery terms cannot in any way be binding and any delays cannot be grounds for cancellation of order or compensation arising. By ordering the good, you confirm that you have read, understood and accepted all the conditions of sale, delivery, payment and all information on the finishes and maintenance available on our website www.ilforgiato.com and in our company. Complaints can be made within and not more than 10 days from receipt of goods. Returns are not accepted unless agreed and approved by our Company. Any authorised return accompanied by transport document must contain all supply references and documents connected to the shipment according to current regulations. For any disagreement, the court having jurisdiction is that where the legal office of Utensil Legno Srl is situated. Prices are shown on the current Price List. Indoor items with daily use will always maintain the antique character that distinguishes them.
