

CARING FOR YOUR NEW CABINETRY

A little care goes a long way. These simple tips will help protect your investment and keep your cabinetry looking beautiful for years to come.

EVERYDAY CLEANING

- Wipe with a soft microfiber cloth.
- Clean with mild dish soap and warm water as needed.
- Dry surfaces immediately after cleaning.
- Wipe up spills promptly to prevent moisture damage.

DO NOT USE:

- Abrasive pads or steel wool
- Bleach or ammonia-based cleaners
- Waxes, silicone polishes, or oil soaps
- Magic Erasers or abrasive sponges

KNOW YOUR CABINETRY

Painted Cabinetry

Casa • Summit • Revive

- Protect painted finishes from prolonged moisture.
- Avoid impacts that can chip painted surfaces.
- Clean using only gentle cleaners and soft cloths.

Natural Wood Cabinetry

Signature • Luxe

- Natural hardwood expands and contracts with seasonal humidity.
- Slight color variation and wood movement are completely normal.
- Keep indoor humidity as consistent as possible throughout the year.
