

THE CHAPEL

Step into timeless romance with our enchanting Chapel – the very first building ever constructed on the Riverside Castle property and a space that holds deep sentimental value, as the owner himself was married here. With its ivy-draped exterior, open windows, and old-world charm, it feels like a fairy-tale castle chapel, perfect for a grand occasion. Seating up to 150 guests on elegant wooden and steel benches, it's the ideal place to say "I do."

As the first building your guests see upon arrival, it never fails to leave a lasting impression. It's more than just a ceremony space, it's the beginning of your forever in a place everyone adores.
