

Recycling Packaging

Packaging is a major waste source within the cannabis industry. To address this concern and help customers properly dispose of packaging we offer packaging recollection bins at all our retail stores for flower drams, edible drams, chocolate boxes, and pre-roll tubes.

Although this is what we collect that is not all that can be recycled. Below is a guideline for what packaging can be recycled. **Please note for all recycling at home or in our collection bins, all packaging should be clean of any cannabis.**

Flower

Drams: Plastic #1 (PET) are fully **recyclable**.

Pre-Rolls

Pre-roll tubes: Plastic #1 (PET) are fully **recyclable**.

Garden Pack: Cardboard is fully **recyclable**, but the plastic buttons are **not** (they are too small for the recycling).

Pocket Pack: Aluminum container with a mix of metal and plastic buttons with cardboard insert is **recyclable**.

Vapes

*Vape cartridges are **not** recyclable yet; however, batteries can be **recycled** in electronic recycling

Large Box: Cardboard is **recyclable**; the foam inserts and plastic buttons are **not**.

Small Box: Cardboard is **recyclable**, but the plastic buttons are **not** (they are too small for the recycling).

High Flavor Vapes and Cured Resin Vapes: Plastic #1 (PET) and fully **recyclable**.

Edibles

Lotus: **Not** recyclable packaging.

Chews: Plastic #1 (PET) and fully **recyclable**.

Chocolate Bars: Cardboard and plastic #1 (PET) insert are fully **recyclable**.

G-caps: Plastic #1 (PET) and fully **recyclable**.

Seconds

Seconds Chocolate: Mylar bag is **not** recyclable.

Seconds Suckers and Pre-ground: Plastic #1 (PET) are fully **recyclable**.

Concentrates

Rosin/Live Rosin: Cardboard is **recyclable**, the glass and caps are **not**.

Kief/Bubble Hash/Cosmic Caviar: Cardboard is **recyclable**, the glass and caps are **not**.

Full Spectrum/RSO darts: Cardboard is **recyclable**.
The dart, foam insert, and plastic #1 (PET) buttons are **not** recyclable.
