# Project: Cherry Orchard Equine Centre

On This project we completed the restoration of 60 large top hung aluminum windows back to draught and noise free to reduce heat loss and save energy on heating this large centre.

Above is a photo of some of our team educating homeowners at the ideal home show. Here we were explaining and showing the general public that most PVC windows can be easily repaired back to draught and noise free by replacing the moving parts.

# Project: Intercontinental Hotel Ballsbridge

Above Is the replacement glass in a hotel in Dublin that required a quick turnaround as the suite was required that evening.

## Project: Hotel St George

To the right is a sample of some sliding sash restoration in a Dublin city centre hotel that required new cords and glass fitted to various rooms.

## Project: Linder's of Chapelized

To the right is a job in a garage where we had to diagnose the issues with a door that the salesmen could not use.

## Project: Elite Barbershop

To the left is a project where we had to repair 2 Doors to the shop that were not opening, closing or sealing correctly.

## Project: Polish Health Clinic

Here we have another commercial door repair completed this door was 10ft high and a very specialist job.

## **Project: PVC Window restoration tallaght.**

Here is a PVC window repair job that required all the locks, handles and hinges replaced in the whole house

## **Project: Window restoration for a landlord**

Here is another house where 20 year old Munster Joinery Windows brought back to draught and noise free. This can simply be done with new, locks handles and hinges.

# Project: Various Glass Replacements

We can replace all types of glass as seen above no matter how difficult.

# Project: Rationel Window Repair

Above is one of the many Rationel Window repairs we carry out daily. We are one of very few Contractors in Ireland that can repair rationel windows.

Above are a selection of Valfac windows that were repaired on the right and serviced on the left.

## Project: EZ living Furniture.

Here is a live shop where the glass needed to be replaced without disrupting the shop we provide a full service including signs on the glass.

## Project: Bonded Glass replacement

Here we boarded up a broken window and replaced the glass and re bonded the curtain walling on this emergency job

## Project: Benefit Cosmetics

This glass replacement was on a building with a conservation order and was done within hours of getting the call.

# Project: Replace glass in a Homeless Hostel

Glass replacement in a homeless hostel and in a drug detox center. We work in various clinical and care areas and our team are capable of completing any window repair in every clinical setting.

## Project: Stewarts care services

On this job we were required to replace door handles to an isolation wing that had been damaged.

## Project: Happyfeet Creche

This job required glass replaced due to a crack in the glass. We completed this job after hours when the creche was closed.

# Hap Property Inspections

Above are the most common types of non locking restrictors we fit after HAP/Council Inspections.  
(Mainly INSPEX)

Here is a sample of Trickle vents that we can fit to windows and doors to allow ventilation and counteract mold damp and condensation.

To the left is a sash that we fitted fire escape hinges to to allow the window to open 90 degrees to allow fire escape from upstairs.

## Project: Sliding Door Wheel Replacement

## Project: Apartment Block Citywest

This job was replacement glass in an apartment. We can replace glass at any height 24/7 due to continuing to invest in lifting and access equipment.

e have a m  
boarded up  
l. We then  
next day a

Above is some of the repairs we carry out in many Hospitals these pictures are glass replacement and retrofitting sash's into a curtain wall system to allow for ventilation.

## Project: Window repairs in HSE Headquartes

Here we have a window we repaired In The HSE head office. This window could not be opened when we arrived. Due to Covid 19 we had to get the window open and replace the hinges allowing airflow through the building.

## Project: HSE Office Cunningham Rd

To the right we have another emergency job for the HSE Where the hinges were broken on a bathroom window and had to be repaired urgently. We fitted new hinges and got everything working as it should.

# Thank You for reading our Brochure

We are one of very few window companies that are happy to repair windows and not suggest they be replaced. If you have any queries or require a price list please do not hesitate to contact us.

**Have a Great Day**
