## ABOUT US

Waveney Windows Ltd was established in 1977 and has been carrying out installations ever since. As a family-owned business, we are proud to serve East Anglia and beyond with high quality products, honest, knowledgeable staff and exceptional aftersales care. Our committed staff provide excellent customer service, so get in touch to learn more about our products.

In 1996 we joined the Consumer Protection Association (CPA) and became able to provide our customers additional protection in the form of an insurance-backed guarantee on all our products. The CPA is an independent and highly regarded trade body that also provides us with a quarterly report of feedback obtained directly from our customers. By constantly acting on this feedback, to date, we have maintained exemplary grades, which helped us win the CPA National Consumer Protection Award in 1999, and will safeguard our valued reputation into the future.

### ADD VALUE

Replacing your old windows with double glazed windows can add value to your property as well as save you money on your heating bills.

### REDUCE NOISE

When it comes to noise, our windows are the best option – offering sound protection and keeping the street noise where it belongs.

### STAY SECURE

All our windows are built with the latest locking mechanisms and feature industry leading locking technology.

## QUALITY WITHOUT COMPROMISE

The character of a home can be transformed by choosing the right kind of window. At Waveney Windows Ltd, we always consider your requirements for light, temperature, safety and ventilation within your property, we will consider all the little details on your behalf, such as 'have fire regulations been met?' or 'how best should each window open?'

Updated windows can not only reduce your energy bills by the reduced heat loss the windows will provide, they will also be more environmentally friendly, increase the value of your home, make it more 'sellable', or transform your property to become a nicer home to live in if you are looking to stay! Waveney Windows Ltd will do everything we can to make your new windows an investment decision - as well as a luxury purchase.

As a FENSA registered company, we must pass random inspections during and after installation. Inspections cover fire safety, access for people who are disabled and more.

Standard colour ranges are available but we can cater for any colour of your choice.

## DOORS

### SECURE & STYLISH

Bi-folding Doors  
Aluminium and UPVC  
Sliding Patio Doors  
Composite Doors  
UPVC French Doors  
UPVC Front Doors  
UPVC Back Doors  
Hardwood Doors  
Stable Doors

#### TRUSTED SECURITY

Our doors not only keep rain and draughts out but provide exceptional security so that you and your family can feel secure behind your new door.

#### THERMALLY EFFICIENT

At the centre of each door is a high density, closed cell core which provides excellent insulation and is excellent at keeping heat in and cold out.

#### LONG LIFE

Products that last are more environmentally efficient than those which need regular replacement, providing a genuine benefit.

### DESIGN YOUR PERFECT ENTRANCE

When it comes to doors, our specialised team of designers will guide you through a variety of product styles and colour options. Waveney Windows Ltd can supply you from a large range of manufactured composite doors that can be customised to your specific requirements. Security, comfort and style will be a priority when your Waveney designer provides options that consider your lifestyle and any specific needs.

Existing doors and windows may need replacing. Timber may have rotted or need excessive maintenance. Old UPVC windows that have become worn or where promised aftercare has not been delivered can be replaced to look the same but perform much better.

Review ★★★★★

"We are extremely pleased with our new door – it fits in so well with our little house." – R & V Winskill

## CONSERVATORIES

### CONSERVATORIES, ORANGERIES & GARDEN ROOMS

- New Constructions
- Replacement Roofs
- Refurbishment of Existing Conservatories

Edwardian Conservatories  
Victorian Conservatories  
Gable End Conservatories  
Lean-To Conservatories  
Orangeries

P-Shaped Conservatories  
T-Shaped Conservatories  
Solid Roof Conservatories

*Guardian Warm Roof, Solstice Skylights, Ultraframe 380, Lantern Roofs*

### ADD VALUE TO YOUR PROPERTY

A conservatory is an excellent alternative to moving house, as it saves the expenses of moving to a new property whilst adding value at the same time. Whether considering adding a conservatory or orangery – or upgrading your existing one – thorough planning and research is essential before you make final decisions. It's the perfect way to add extra living space for your property all year round. Good insulation and ventilation, along with temperature control systems, provide a comfortable environment for all sorts of uses.

The extra space you create could be used as a place to unwind and relax, a dining room or a lovely area for your children to play and grow up in.

Review ★★★★★

"Top marks all round! We will definitely recommend your company to friends and neighbours." – Mr and Mrs Binns

## CONSERVATORY SOLID ROOFS

### INVEST IN A SOLID ROOF

Waveney Windows offers a wide choice of options to help customers looking to upgrade and improve their existing conservatories. Replacement conservatory roofs are a popular choice with our customers as they look to make their existing conservatory warmer during the winter months and cooler during summer. Replacing and upgrading polycarbonate roofs to glass, high-performance glazing, or one of our solid conservatory roofs are all options available within our range.

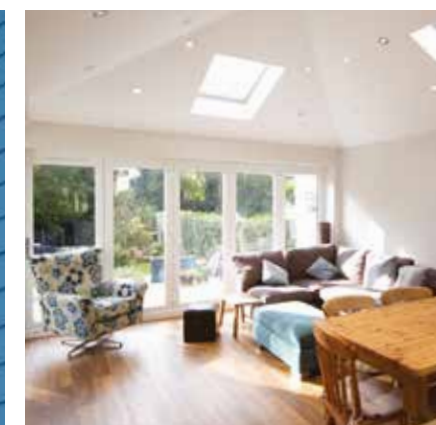

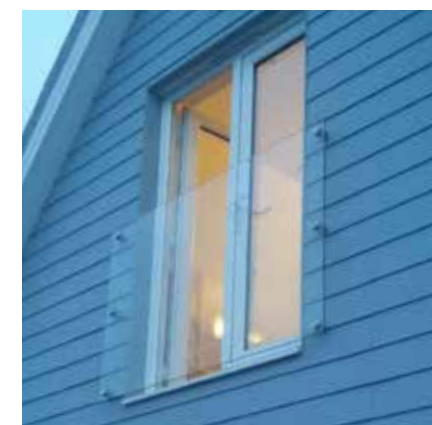

Solid roofs provide excellent levels of thermal performance, block out unwanted noise while also letting in plenty of light. Whatever your requirements, solid roofs are a fantastic product to include with any home looking to be energy efficient, promote comfortable living space while maximising natural light.

### ONLY THE BEST BRANDS

Guardian Warm Roofs, Ultraframe 380 Warm Roof and Icotherm are all recognised high performing solid roofs within our portfolio. These replacement roofs can create the feel of a home extension while avoiding extensive planning procedures involved in a full house extension. High vaulted ceilings, low pitch lean-to's, glazed panels, Velux Windows and Downlighters are just a few of the options available.

Plans for solid roof replacements for conservatories need to be checked to ensure they meet Building Regulations, the experts within the Waveney Windows team take care of this so every customer can have peace of mind everything is done in the correct and orderly way. They will work with you on the designs and liaise with your local authority or another relevant body to get Building Regulations approval.

### OTHER PRODUCTS
