

FIRE LANE EVACUATION PLAN FOR GREAT FALLS ORIGINAL FARMER'S MARKET

**The area of the street as described here is in the block between
Central Ave. and 1st Ave S on the 100 block of Park Drive.**

Make note of the red area on the attached street map. This is the east lane of Park Drive which is the curb side next to the Park Manor and the Downtowner Parking Lot.

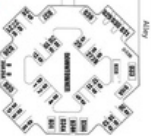

1. At the sounding of the alarm the vendors with vehicles parked in the east lane will immediately get in their vehicles and exit toward Central Ave. and continue to 1st Ave. N where you may turn right and circle back to the Market area by using 1st Ave. S and find parking on the west side of the Market. **[MOVE YOUR VEHICLE IMMEDIATELY! DO NOT ATTEMPT LOADING OR TEARING DOWN YOUR SET-UP!]**
2. If there is more than one helper at your market space that person will begin moving your set-up west **[TOWARD THE CIVIC CENTER, WHITTIER PARK AREA]**, from the lane marked in blue on the map, across the mid-line of the street marked in green on the map. This will clear both lanes for the Fire Dept. Ladder Truck.
3. The vendors moving the set-ups will receive immediate help from the vendors on the west side of the street as well as vendors from the Downtowner Lot and Whittier Park. **NOTE:** All vendors and helpers --- **do not try to pack up anything** --- there will be plenty of help to pick up tables, canopies, boxes, etc. and move them across the center line. **NOTE:** Move things as gently as possible but **QUICKLY** across the center line.
4. Time lines: 2 MINUTES to clear the vehicles from the east {Red Marked} lane.
 3 MINUTES to have both lanes cleared.
