Whole House Water Treatment Softening System

Whole House Water Treatment System Efficient and Cost-effective Dual Stage Water Treatment System

The Hero Water Softener is a powerful carbon and softener combo system, designed to deliver cleaner, softer water throughout your home. It starts with a high-performance carbon filtration stage, which effectively removes chlorine, chloramines, and other impurities, improving taste and eliminating odors. The water then passes through a premium softening bed, reducing hardness minerals like calcium and magnesium to prevent scale buildup on pipes and appliances. With its all-in-one design, the Hero System ensures better water quality, longer-lasting appliances, and a more comfortable home experience—all with minimal maintenance.

- Safety Float in Brine Tank
- No Replacement Cartridges
- Enjoy better-tasting water by removing chlorine and impurities
- Protect and extend the life of your water-using appliances

1 CuFt Hero
 Typical for a family of up to 4 people. Flow rates up to 10 GPM. 32,000 grain capacity.

1.5 CuFt Hero
 Typical for a family of up to 6 people. Flow rates up to 15 GPM. 48,000 grain capacity.

2 CuFt Hero
 Typical for a greater than 5 people. Flow rates up to 20 GPM. 64,000 grain capacity.

**Depends on water usage and water quality conditions. Not intended for micro-biologically unsafe or unknown water quality. Disinfection may be required. This system is intended for treatment of municipal water, any other application requires a water quality analysis for best results.*

Upgrade to the Hero Water System today and enjoy the benefits of cleaner, softer water throughout your home!

Hero

Whole House Water Treatment Softening System

How the Hero Works

The Hero features an all-in-one design where incoming water first flows through granular carbon, effectively removing or significantly reducing chlorine and chloramines. The chlorine-free water then passes through the softening bed, ensuring soft, hardness-free water throughout your home.

Lifetime Warranty

Limited Lifetime Warranty - on brine tank, resin tank, ion exchange resin, and valve body for a lifetime. All other parts (excluding consumables) are covered for 10 years.

System Specs

System	Tank Size	Media Qty Cubic Feet	Width	Depth	Height	Inlet/Outlet
HW100	10" X 54"	1	27"	18"	61"	1"
HW150	12" X 52"	1.5	28"	18"	59"	1"
HW200	13" X 54"	2	29"	18"	61"	1"

Catalytic Carbon

Premium quality HAC carbon reduces remaining chlorine and chloramines, removing taste and odor, giving long lasting fresh water. This media filters a wide range of PH levels and adds a final polish to the filtered water.

Premium Grade Resin

Engineered for high-capacity performance, this premium-grade resin delivers exceptional ion exchange efficiency and long-lasting reliability, making it ideal for all water softening applications.

High Density Garnet Media

High Hardness, high density filter media, effectively filters and provides a high quality media bed for this system.
