IONX5

Premium Water Filtration

The IonX5 treatment system is a powerful solution designed to improve your home's water quality. It works to dissolve and prevent scale, protect plumbing and appliances from corrosion, and reduce chlorine, chloramines, and harmful chlorination by-products—delivering cleaner, safer water throughout your home.

Benefits:

- Eliminates bad taste and smell associated with chlorine by-products.
- No Salt, no chemicals, no on-going consumables
- Eliminates scale buildup from hard water deposits and helps remove existing scale
- The best, premium grade NSF certified medias
- Five level filtering leaves you with clean water, for peace of mind

1 CuFt

Delivers up to 1,000,000 gallons with a 6 GPM flow rate—perfect for a family of four. The media lasts approximately 10 years for long-term performance.

1.5 CuFt

Delivers up to 1,500,000 gallons with a 8 GPM flow rate—perfect for a family of six. The media lasts approximately 10 years for long-term performance.

2 CuFt

Delivers up to 2,000,000 gallons with a 15 GPM flow rate—perfect for a family of six. The media lasts approximately 10 years for long-term performance.

***Lifetime Warranty**

Depends on water usage and water quality conditions. Not intended for micro-biologically unsafe or unknown water quality. Disinfection may be required. This system is intended for treatment of municipal water, any other application requires a water quality analysis for best results.

System Specifications

3/4" - 1.5" Inlet/Outlet sizes also available by request.

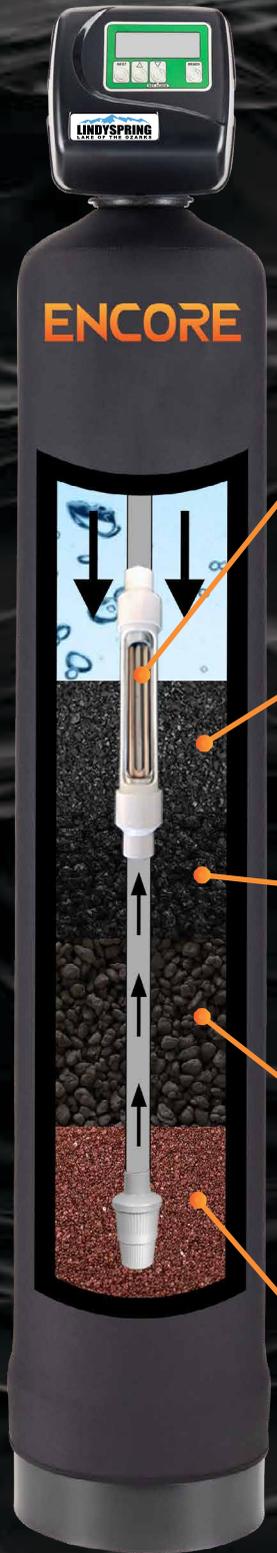

Tank Size	Weight	Width	Depth	Height	Inlet/Outlet
9" X 48"	75lbs	9"	18"	55"	1"
10" X 54"	100lbs	10"	18"	61"	1"
12" X 52"	125lbs	12"	18"	59"	1"

*Recommended PSI usage is 80 psi. Intended for residential use only.
Lifetime warranty excludes medias and consumable parts.

IONX5

Water the way Nature Intended

The IonX5 features a Clack metered control valve that efficiently reduces wastewater by up to 30%, delivering reliable, clean water with less waste.

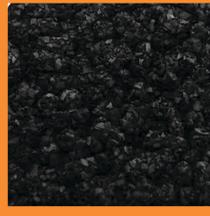

Multi-field Core Chamber

NSF approved magnetic water conditioner prevents lime scale build-up and inhibits corrosion without chemicals making it eco-friendly.

Granular Carbon

This NSF Certified acid washed GAC removes chlorine, gases, heavy metals, odors, tastes, dyes, fuels, pollutants, disinfectants, pesticides, TTHM, sodium chloride, and volatile organic contaminants (VOC)

Catalytic Carbon

Premium quality HAC carbon reduces remaining chlorine and chloramines, removing taste and odor, giving long lasting fresh water. This media filters a wide range of PH levels and adds a final polish to the filtered water.

Katalox Light

A light weight media that removes iron, lead, manganese, arsenic, hydrogen sulfide, and heavy metals. Also filters out particles as small as 3 microns and saves on backwash water.

High Density Garnet Media

High Hardness, high density filter media, effectively filters and provides a high quality media bed for this system.

The IonX5 is an eco-friendly whole-house water treatment system that uses reversing polarity and magnetic fields to alter the ionic charge of calcium and magnesium, keeping them suspended in water to prevent scale buildup. This "conditioned effect" lasts 24 to 36 hours, offering lasting protection without chemicals.
