Reveal

Premium Water Filtration

The **Reveal** Premium Water System is the ideal whole-house solution for softening and conditioning. It removes common household contaminants to deliver soft, silky water—free from hardness and chlorine. Powered by NSF-approved media, it offers performance and benefits that go far beyond traditional water treatment systems.

Benefits:

- Chlorine and chloramine free water
- Soft, silky, hardness free water
- Bacteria, heavy metals, and algae free water

1 CuFt

Perfect for families of up to four, the system offers flow rates up to 10 GPM and features a 32,000 grain capacity for efficient and reliable water softening.

1.5 CuFt

Perfect for families of up to six, the system offers flow rates up to 15 GPM and features a 48,000 grain capacity for efficient and reliable water softening.

2 CuFt

Perfect for families greater than 5 people, the system offers flow rates up to 20 GPM and features a 64,000 grain capacity for efficient and reliable water softening.

Depends on water usage and water quality conditions. Not intended for micro-biologically unsafe or unknown water quality. Disinfection may be required. This system is intended for treatment of municipal water, any other application requires a water quality analysis for best results.

***Lifetime Warranty**

System Specifications

3/4" - 1.5" Inlet/Outlet sizes also available by request.

Tank Size	Weight	Width	Depth	Height	Inlet/Outlet
10" X 54"	115lbs	28"	18"	61"	1"
12" X 52"	150lbs	30"	18"	59"	1"
13" X 54"	190lbs	32"	18"	61"	1"

Recommended PSI usage is 80 psi. Intended for residential use only.

**Lifetime warranty excludes medias and consumable parts.*

Reveal

Water the way Nature Intended

The **Reveal** features a Clack metered control valve that efficiently reduces wastewater by up to 30%, delivering reliable, clean water with less waste.

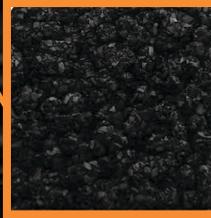

Benefits of a Vortech™ Mid-Plated Tank

- Mid-plate design allows multiple media types in one tank, eliminating the need for a second tank.
- Simplifies plumbing setup by combining stages into a single unit.
- Enhances media bed fluidity for smoother, more efficient flow.
- Extends contaminant removal capacity by optimizing bed performance.
- Improves media utilization, reducing waste and boosting effectiveness.
- Supports advanced filtration configurations without additional equipment.

KDF Media

Designed for removing and reducing chlorine, bacteria, and soluble heavy metals. It also helps control scale and algae growth, and performs well even in high-temperature or hot water applications for added versatility and protection.

Catalytic Carbon

Premium quality HAC carbon reduces remaining chlorine and chloramines, removing taste and odor, giving long lasting fresh water. This media filters a wide range of PH levels and adds a final polish to the filtered water.

Premium Grade Resin

Engineered for high-capacity performance, this premium grade resin delivers exceptional ion exchange efficiency and long-lasting reliability, making it ideal for all water softening applications.
