

**Maintenance-Free Five
Level Conditioner**

Whole House Water Conditioning System

Featuring five stages of filtration, it effectively removes impurities and contaminants

The Supernova treatment system effectively prevents scale buildup, helping to preserve the efficiency and lifespan of your plumbing and appliances. It also protects your pipes and fixtures by reducing corrosion within your water system. In addition, the system significantly lowers chlorine, chloramines, and chlorination by-products in your household water, providing cleaner, healthier water with improved taste and safety while minimizing potential harmful effects.

- Removes unwanted tastes and odors linked to chlorine by-products.
- Salt-free and chemical-free, with no ongoing consumables required.
- Helps prevent scale buildup from hard water and reduces existing scale.
- Features only the highest-quality, premium-grade filtration media.
- Five-layer filtration system delivers clear, purified water.

1 CuFt Supernova

1,000,000 gallons lifetime capacity for a family of up to four. The media will last approx. 7-10 years.

1.5 CuFt Supernova

1,500,000 gallons lifetime capacity for a family of up to six. The media will last approx. 7-10 years.

2 CuFt Supernova

2,000,000 gallons lifetime capacity for a family of six or more. The media will last approx. 7-10 years.

**Depends on water usage and water quality conditions. Not intended for micro-biologically unsafe or unknown water quality. Disinfection may be required. This system is intended for treatment of municipal water, any other application requires a water quality analysis for best results.*

**Upgrade to the Supernova
and experience the difference
of premium water quality in
your home!**

Maintenance-Free Five Level Conditioner

Supernova Features:

The Supernova water treatment system efficiently prevents scale buildup, enhancing the longevity and performance of your plumbing and appliances. It also safeguards your water system by reducing corrosion, lowering the risk of damage to pipes and fixtures. Additionally, the system effectively removes chlorine, chloramines, and chlorination by-products, ensuring cleaner, safer water throughout your home.

System Specs

System	Tank Size	Weight	Height	Width	Depth	Inlet/Outlet
SN100	9" X 48"	74lbs	55"	9"	9"	1"
SN150	10" X 54"	93lbs	61"	10"	10"	1"
SN200	12" X 52"	121lbs	59"	12"	12"	1"

Multi-field Core Chamber

NSF approved magnetic water conditioner prevents lime scale build-up and inhibits corrosion without chemicals making it eco-friendly.

Granular Carbon

This NSF Certified acid washed GAC removes chlorine, gases, heavy metals, odors, tastes, dyes, fuels, pollutants, disinfectants, pesticides, TTHM, sodium chloride, and volatile organic contaminants (VOC)

Catalytic Carbon

Premium quality HAC carbon reduces remaining chlorine and chloramines, removing taste and odor, giving long lasting fresh water. This media filters a wide range of PH levels and adds a final polish to the filtered water.

Katalox Light

A light weight media that removes iron, lead, manganese, arsenic, hydrogen sulfide, and heavy metals. Also filters out particles as small as 3 microns and saves on backwash water.

High Density Garnet Media

High Hardness, high density filter media, effectively filters and provides a high quality media bed for this system.

Chamber Interior:
