

WATCHMAN

Maintenance-Free Five Level Conditioner

Whole House Water Treatment System Multi-layer Salt and Chemical Free Water Conditioner

The Watchman treatment system effectively prevents scale buildup, helping to extend the life and efficiency of your plumbing and appliances. It also protects your water system by inhibiting corrosion, reducing the risk of damage to pipes and fixtures. In addition, the system significantly reduces chlorine, chloramines, and chlorination by-products, delivering cleaner, safer water throughout your home. This not only improves water quality and taste but also minimizes potential health concerns linked to these chemicals.

- Removes unwanted tastes and odors linked to chlorine by-products.
- Salt-free and chemical-free, with no ongoing consumables required.
- Helps prevent scale buildup from hard water and reduces existing scale.
- Features only the highest-quality, premium-grade filtration media.
- Five-layer filtration system delivers clear, purified water.

1 CuFt Watchman

1,000,000 gallons lifetime capacity for a family of up to four. The media will last approx. 7-10 years.

1.5 CuFt Watchman

1,500,000 gallons lifetime capacity for a family of up to six. The media will last approx. 7-10 years.

2 CuFt Watchman

2,000,000 gallons lifetime capacity for a family of six or more. The media will last approx. 7-10 years.

**Depends on water usage and water quality conditions. Not intended for micro-biologically unsafe or unknown water quality. Disinfection may be required. This system is intended for treatment of municipal water, any other application requires a water quality analysis for best results.*

Upgrade to the Watchman today and experience the benefits of its 5-layer filtration system for cleaner, purer water in your home!

WATCHMAN

Maintenance-Free Five Level Conditioner

Watchman Features:

The Watchman treatment system effectively prevents scale buildup, helping to extend the life and efficiency of your plumbing and appliances. It also protects your water system by inhibiting corrosion, reducing the risk of damage to pipes and fixtures. In addition, the system significantly reduces chlorine, chloramines, and chlorination by-products, delivering cleaner, safer water throughout your home. This not only improves water quality and taste but also minimizes potential health concerns linked to these chemicals.

System Specs

System	Tank Size	Media Qty Cubic Feet	Width	Depth	Height	Inlet/Outlet
WM100	9" X 48"	1	9"	9"	55"	1"
WM150	10" X 54"	1.5	10"	10"	61"	1"
WM200	12" X 52"	2	12"	12"	59"	1"

Granular Carbon

This NSF Certified acid washed GAC removes chlorine, gases, heavy metals, odors, tastes, dyes, fuels, pollutants, disinfectants, pesticides, TTHM, sodium chloride, and volatile organic contaminants (VOC)

Catalytic Carbon

Premium quality HAC carbon reduces remaining chlorine and chloramines, removing taste and odor, giving long lasting fresh water. This media filters a wide range of PH levels and adds a final polish to the filtered water.

Filter-Ag Plus

All natural, environmentally friendly, Filter-Ag Plus has a large, micro-porous surface area that minimizes suspended contaminants and turbidity. Highly efficient filtering down to 5 microns or less.

High Density Garnet Media

High Hardness, high density filter media, effectively filters and provides a high quality media bed for this system.

GreenGuard Anti-Scale Chamber

Environmentally friendly way to control scale without salt. Transforms hardness minerals into crystal particles using template assisted crystallization (TAC) technology so hardness by-products are easily washed/wiped away.
