SUBJECT LINE: CHW State Certification Extension

Dear (name of the CHW),

We are currently initiating a rule change to extend the Community Health Worker (CHW) state certification for an additional year for the first cohort of certified CHWs. In the interim, we are also extending certifications for an additional six months for CHWs certified between December 2023 and December 2024, which you are part of.

In your case, your certification was originally due on (Date); It is now extended to (Date). Once the rule change is approved (in process) your current certification will extend until (Date).

We are working with partners to develop the necessary continuing education units (CEUs) and will notify you as soon as they become available. These updates are intended to ensure compliance with **R380-350-6** and **Section 26-69-107**.

If you have any questions regarding this extension or the recertification requirements please contact us at chwcert@utah.gov.

Thank you,

CHW State Certification Processing Team
