Outer Burial Container Price List

Effective July 1, 2026

An **outer burial container** is a receptacle that encloses the casket in the grave and prevents the grave from settling. It is required by most cemeteries. Types of containers include concrete boxes (grave liners) and burial vaults designed to protect from underground water. Vaults may be made of cement, ABS plastic, or steel.

In most areas of the country, no state or local law makes you buy a container to surround the casket in the grave. However, many cemeteries ask that you have such a container so that the grave will not sink in. Either a burial vault or grave liner will satisfy these requirements.

Grave Markers

Grave markers may be made of bronze or stone, such as granite. Raised monuments are generally made of stone. Since each marker is custom made, the design and price will vary depending on your personal choices. In addition to the cost of the marker, there will be a fee to install it at the grave.

Bronze Markers

Bronze markers are flat bronze plates which are normally installed in a concrete base and set at ground level.

Single size - 24 x 12 inches \$ 1200

Double Size - 36 x 12 inches \$ 1800

Granite Markers

Granite markers are available in a variety of sizes, designs, and colors. These can be purchased through local monument companies.

Engraving - Last Dates \$ 300

*Sales tax is applicable *only* on grave markers and scroll plates.
