

Stronger Suction. Lightweight and Agile. Cord-Free.

Most cordless robotic pool cleaners promise freedom. The Madimack GT Freedom PLUS i5.5 and i8.0 is built to make that freedom feel real.

With 4x suction power compared with entry-level cordless models, up to 8 hours runtime in floor mode, and a lightweight compact body, it brings together the things pool owners actually want from a cordless cleaner: power, endurance, easy handling, and simple control.

No cord across the pool. No heavy cleaner to wrestle after every cycle. No complicated routine to manage.

Charge it, choose your cleaning mode, place it in the pool, and let it get to work. From everyday dust and leaves to heavier debris after wind or weather, the GT Freedom PLUS gives you cordless cleaning with the confidence of Madimack performance.

Designed for the Way Pool Owners Actually Clean

Cordless cleaning should feel easy from start to finish. The GT Freedom PLUS is designed to remove the usual friction from pool maintenance, from setup and cleaning through to lift-out, rinsing, and storage.

It is not just about how the cleaner performs in the water. It is about how easy the whole process feels before and after the clean. Select the cycle, place it in the pool, let it work, then lift it out, empty the basket, and store it without fighting cables or unnecessary weight.

The result is not just a cordless cleaner. It is a more practical routine: easier to start, easier to retrieve, easier to clean, and easier to live with.

Benefits

Intelligent Navigation System

Plans its movement more efficiently for more thorough, organised pool coverage.

Up to 8 Hours Cordless Cleaning

Extended floor cleaning cycles with fewer recharges for more consistent pool care.

3.2L Top-Load Basket

Large debris capacity with easy top access for quick emptying and rinsing.

3-in-1 Cleaning

Cleans floors, walls, and waterline in one cordless cleaner.

LCD Touchscreen

Easy on-unit control for modes, runtime, and scheduling.

Lightweight Compact Body

At approximately 8.2kg, it is easier to lift, handle, rinse, and store after use.

Turbo Power Mode

Extra suction helps tackle heavier debris loads more effectively when the pool needs a stronger clean.

Auto Cycles & AI Timers

Schedule cleaning every 24, 48, or 72 hours for more consistent upkeep with less hands-on effort.

Key Features

- **4x Suction Power**

The GT Freedom PLUS sets a stronger standard for cordless cleaning, with up to 4x the suction strength of entry-level cordless models. It gives the robot the power needed to collect common pool debris more effectively while still keeping the freedom of battery operation.

gt freedom PLUS

4X Suction Power

Trusted by
POOL PROFESSIONALS

*Maximum suction strength measured against entry-level cordless models; actual results may vary.

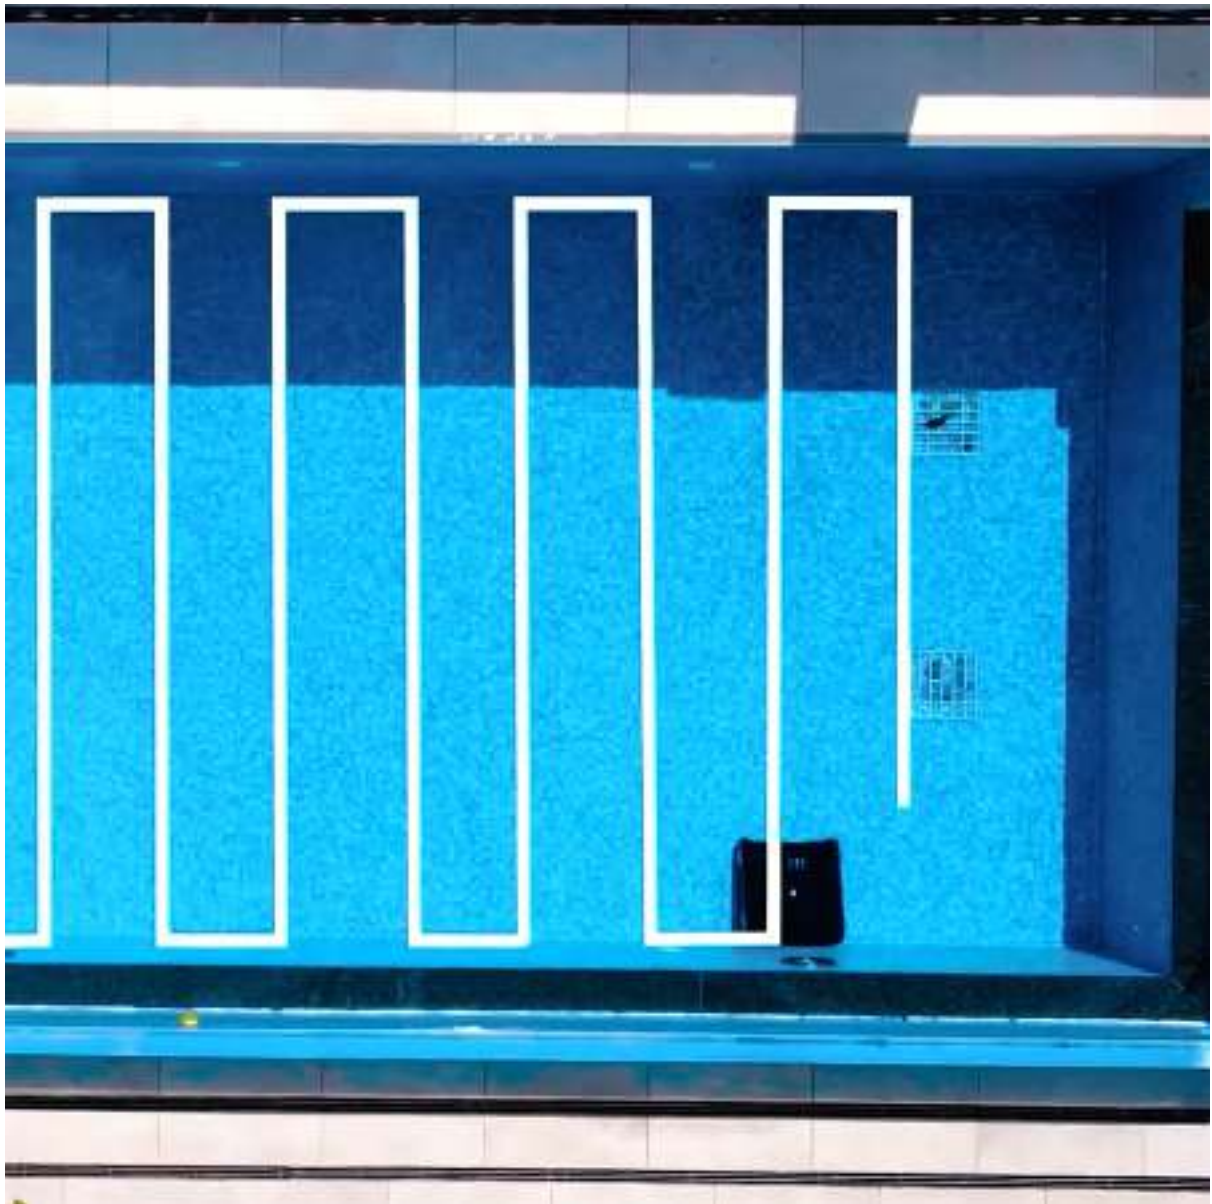

- **Turbo Power Mode for Heavier Debris**

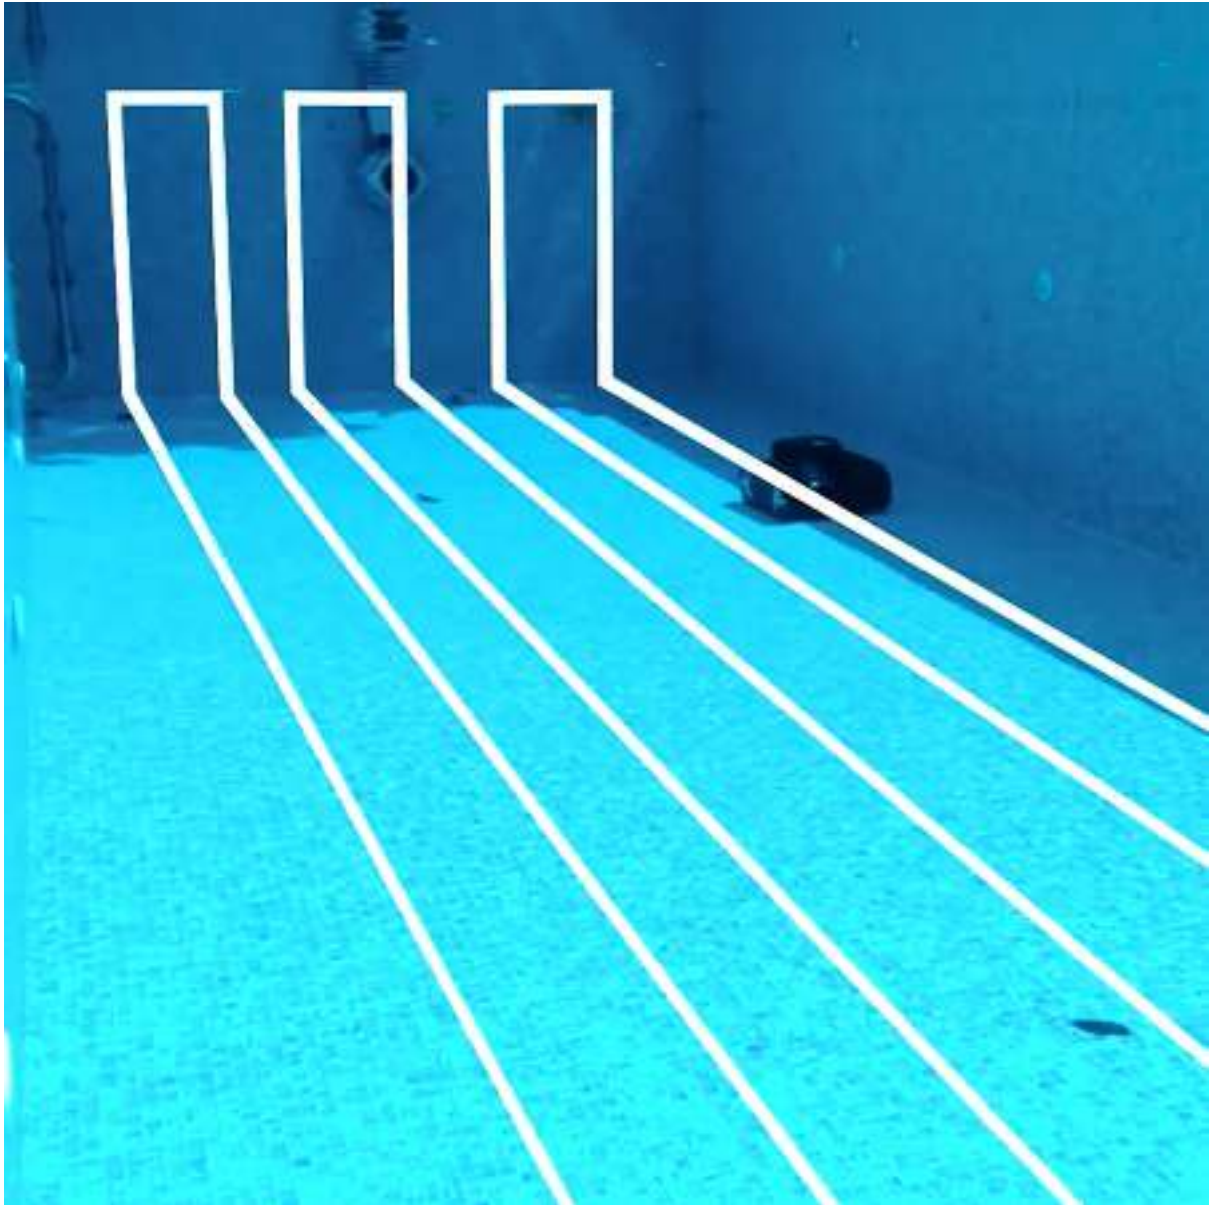

When the pool needs more than a light maintenance clean, Turbo Power Mode increases suction performance to help move through heavier debris faster. It is ideal after windy days, increased leaf fall, or when the pool has had a little more use than usual.

- **Floor, Wall, and Waterline Cleaning**

The GT Freedom PLUS is made for full pool coverage. Choose from floor, wall and waterline, walls then floor, or floor and wall cleaning modes to suit the way your pool needs to be cleaned.

- **Long Runtime for Everyday Pool Care**
With up to 8 hours runtime in floor mode and up to 2.5 hours in floor, wall, and waterline mode gives pool owners strong cordless cleaning performance for regular pool maintenance.

- **Large 3.2L Top-Load Basket**
A larger basket means fewer stops, less emptying, and easier clean-up after the cycle. The top-load design makes it simple to remove, empty, rinse, and place back into the cleaner.

- **LCD Touchscreen Control**

The built-in LCD touchscreen keeps operation clear and intuitive. Select your runtime, cleaning mode, Turbo Mode, or schedule directly from the cleaner before placing it into the pool.

- **Smart Auto Scheduling**

Choose 24, 48, or 72 hour auto cycles to help maintain the pool on a regular routine. This makes the GT Freedom PLUS especially useful for ongoing pool care, helping prevent debris from building up between full cleans.

- **Lightweight, Compact, and Easy to Handle**

Power matters, but so does the experience after the clean. At approximately 8.2kg, the GT Freedom PLUS is easier to lift from the pool edge, easier to carry, and easier to store than many heavier robotic cleaners.

The Madimack Advantage, Now Cord-Free

Madimack pool equipment is built around a simple idea: pool care should be smarter, easier, and more enjoyable to live with.

The GT Freedom PLUS brings that thinking into cordless robotic cleaning. It combines powerful suction, intelligent coverage, strong battery performance, and practical handling in one compact cleaner, giving pool owners more control with less effort.

For everyday pool maintenance, it means fewer cords, fewer interruptions, and a cleaner pool with a routine that feels easier to keep. For long-term ownership, it means the confidence of a premium Madimack cleaner backed by a 3-year limited domestic warranty.

Stronger cleaning. Smarter control. Cord-free convenience.

Make it a Madimack.

Technical Specifications

Model	GT Freedom PLUS i5.5	GT Freedom PLUS i7
Endurance Time: Floor Mode	Up to 5.5 hours	Up to 8 hours
Endurance Time: Floor / Wall / Waterline Mode	Up to 2.5 hours	Up to 4 hours
Charging Time	5 hours	6 hours
Battery	7.5Ah (192Wh)	10.4Ah (260Wh)
Pool Size	Up to 6 x 12m	Up to 6 x 12m
Optimum Pool Temperature	4°C to 35°C	4°C to 35°C
Cleaning Modes	Floor, Wall + Waterline, Walls then Floor, Floor then Walls	Floor, Wall + Waterline, Walls then Floor, Floor then Walls
Turbo Mode	Yes	Yes
Run Time Options	1hr / 1.5hr / 2hr / Max	1hr / 1.5hr / 2hr / Max
Auto Scheduler	24hr / 48hr / 72hr	24hr / 48hr / 72hr

Filter Capacity	3.2L
Filtration Accuracy	Single-layer 180 micron
Pump Flow Rate	250 to 334L/min
Running Power	20 to 100W
Moving Speed	10 to 12m/min
Number of Motors	3
Charger Input	100 to 240VAC, 50/60Hz
Running Voltage / Current	DC 25.5V / 1A
Warranty	3-year limited domestic warranty
