About Us

The Tasmanian Public Finance Corporation (TASCORP or the Corporation) was established under the *Tasmanian Public Finance Corporation Act 1985*. The functions and powers of TASCORP are detailed in Section 11 of the *Tasmanian Public Finance Corporation Act 1985*, as follows:

“To develop and implement borrowing and investment programmes for the benefit of participating authorities; and ... to engage in such other activities relating to the finances of the Government of the State or participating authorities as are contemplated by this Act or approved by the Treasurer.”

In addition, the Corporation may with the approval of the Treasurer:

- Borrow money within or outside Australia;
- Lend money to participating authorities;
- Accept money on deposit or loan from the Treasurer or a participating authority;
- Place on deposit with the Treasurer, a bank, or an authorised deposit-taking institution money held by the Corporation;
- Invest money held by the Corporation;
- Issue, sell, purchase, pay off, repurchase, redeem, convert or otherwise deal in or with securities;
- Appoint an authorised deposit-taking institution, or other person to act as underwriter, manager, trustee, or agent in connection with any transaction within or outside Australia;
- Enter into contracts of guarantee;
- Enter into any agreement or arrangement for the purpose of returning a gain, avoiding a loss, or with a view to avoiding a loss by reference to currency obligations, currency exchange rate movement or interest rate movement;
- Enter into any agreement or arrangement for the purposes of managing or varying financial returns or financial or currency risks (including but not limited to risks arising from currency exchange rates or interest rates);
- Enter into any agreement or arrangement of a kind not previously mentioned or acquire or incur any other rights or liabilities.

Statement of Corporate Intent

2024-25 to 2027-28

Introduction

This Statement of Corporate Intent (SCI) is a summary of the 2024-25 to 2027-28 Corporate Plan of the Tasmanian Public Finance Corporation (TASCORP) and includes a performance agreement between the Board of TASCORP and the Treasurer.

The performance agreement details the key financial and non-financial targets for TASCORP for 2024-25, as agreed between the Board and the Treasurer through the 2024 Corporate Planning process. It also includes financial and non-financial estimates for the following three years.

The SCI has been prepared pursuant to Section 41 of the *Government Business Enterprises Act 1995* and in accordance with the Ministerial Charter for TASCORP.

Principal Purpose

As outlined in its Ministerial Charter, the principal purpose of TASCORP is to develop and implement borrowing and investment programs for the benefit of the State.

Core Business

In accordance with its Act and the Ministerial Charter, and subject to the priorities and expectations of the Treasurer as advised from time to time, the core business of TASCORP is to:

- Raise funds in domestic and offshore capital markets;
- Lend the proceeds to its public sector clients;
- Offer deposit facilities to assist its public sector clients with their cash management activities;
- Provide financial risk management advisory services to its public sector clients and the State Government;
- Reinvest surplus funds in financial assets so as to achieve an acceptable risk/reward outcome; and
- Provide fund management services to the State of Tasmania.

Key Business Strategies

For the period 2024-25 to 2027-28, key business strategies for TASCORP are to:

- Provide high quality borrowing, investment and advisory services to our clients and deliver interest rates, terms and conditions more favourable than our clients can achieve themselves;
- Effectively manage liquidity and our debt outstanding, to ensure that our clients’ current and future cash and liability management needs are met;
- Manage risks prudently by operating profitably within the agreed capital-at-risk limits and always overlaying a whole of State risk perspective on all strategies;
- Prudently manage the Mersey Community Hospital Fund on behalf of the State of Tasmania;
- Review TASCORP’s ability to provide more competitive deposit products to its broader client base as the wholesale investment market normalises; and
- Achieve and maintain high levels of employee engagement.

Key Limitations

- TASCORP’s cost of borrowing, and its access to debt capital markets, depends on the State’s credit rating over which the Corporation has no control;
- TASCORP’s economies of scale relative to other Australian States can also impact on its cost of borrowing and TASCORP has to maintain a high standard of communication about Tasmania’s and TASCORP’s market and funding activities; and
- TASCORP’s inability to compete with banks on client deposits. Unlike banks, client deposits are not the most economical source of funding to Central Financing Authorities.

Performance Agreement

This Performance Agreement sets out the key financial and non-financial targets for the 2024-25 financial year. The tables below report TASCORP’s performance against its targets.

Financial Returns to Government	Target 2024-25	Actual
TREASURY ACTIVITY		
Dividends Paid (\$m)	18.9	18.9
Tax Equivalents Paid (\$m)	8.1	8.1

Chair and CEO's Report

On behalf of the Tasmanian Public Finance Corporation (TASCORP), we are pleased to present our Annual Report for the 2024-25 financial year.

This past year was shaped by global economic uncertainty and geopolitical tensions, contributing to ongoing volatility in financial markets. Despite these challenges, Australia continued to be viewed as a relatively stable market for both domestic and offshore bond investors, and this confidence was reflected in the strong demand for TASCORP bonds.

In alignment with our long-term funding strategy, TASCORP successfully issued an additional \$3.39 billion in term debt during the year. This funding has supported the Tasmanian Government and its entities in delivering essential community services and investing in critical infrastructure projects. This was achieved while delivering an operating profit after tax of \$34.1 million.

Looking ahead, TASCORP's balance sheet is expected to continue growing. With a small, skilled team of dedicated professionals, we are well positioned to provide high-quality funding and financial risk management services to Tasmanian Government entities.

Chair and CEO's Report

(continued)

Operating results

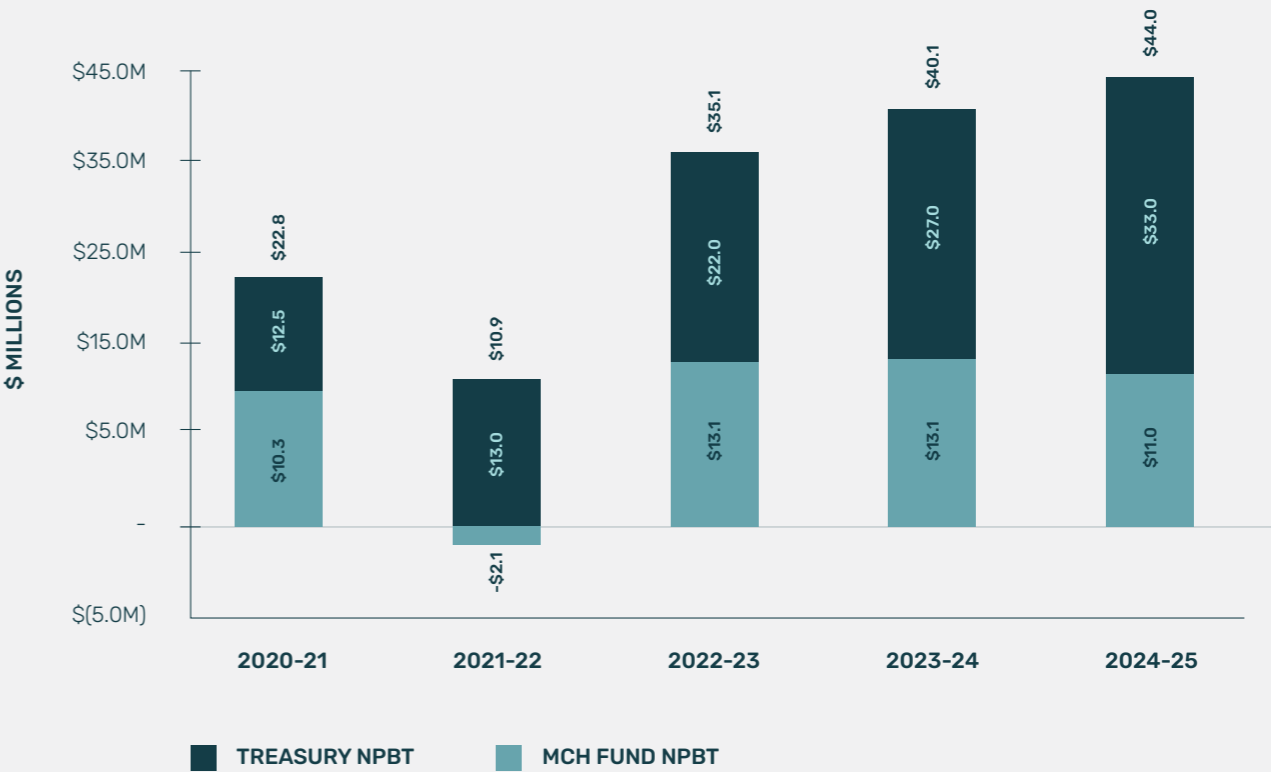

TASCORP's core purpose is to develop, implement, and manage borrowing and investment programs that deliver long-term benefits to the people of Tasmania. To continue providing these services to a high standard, we have embedded a culture of continuous improvement across the organisation. This commitment is supported by targeted strategies to strengthen employee engagement, invest in modern technology, enhance risk management practices, and modernise our internal policies. These initiatives ensure TASCORP remains agile, resilient, and aligned with its strategic objectives.

In 2024-25, TASCORP reported an operating profit before tax of \$44.0 million (2023-24: \$40.1 million) underpinned by prudent liquidity management delivered through timely market access and ensuring sufficient funding was available ahead of client requirements. TASCORP's Treasury operations contributed \$33.0 million, and the Mersey Community Hospital Fund \$11.0 million towards the operating profit before tax result. Both these results compare favourably against the agreed Statement of Corporate Intent targets of \$12.9 million and \$9.5 million, respectively.

NET PROFIT BEFORE TAX (\$M)

Chair and CEO's Report

(continued)

Operating results (continued)

The favourable operating result in TASCORP's Treasury operations was driven by above target margin income in short-end liquidity management activities, and market value gains in longer-end liquidity management activities. The market value gains are primarily due to hedge positions on TASCORP bonds issued in advance of client requirements and invested in other peer bonds. TASCORP bonds underperformed relative to peers in 2024-25, as indicated by TASCORP spreads detailed in the chart below.

Chair and CEO's Report

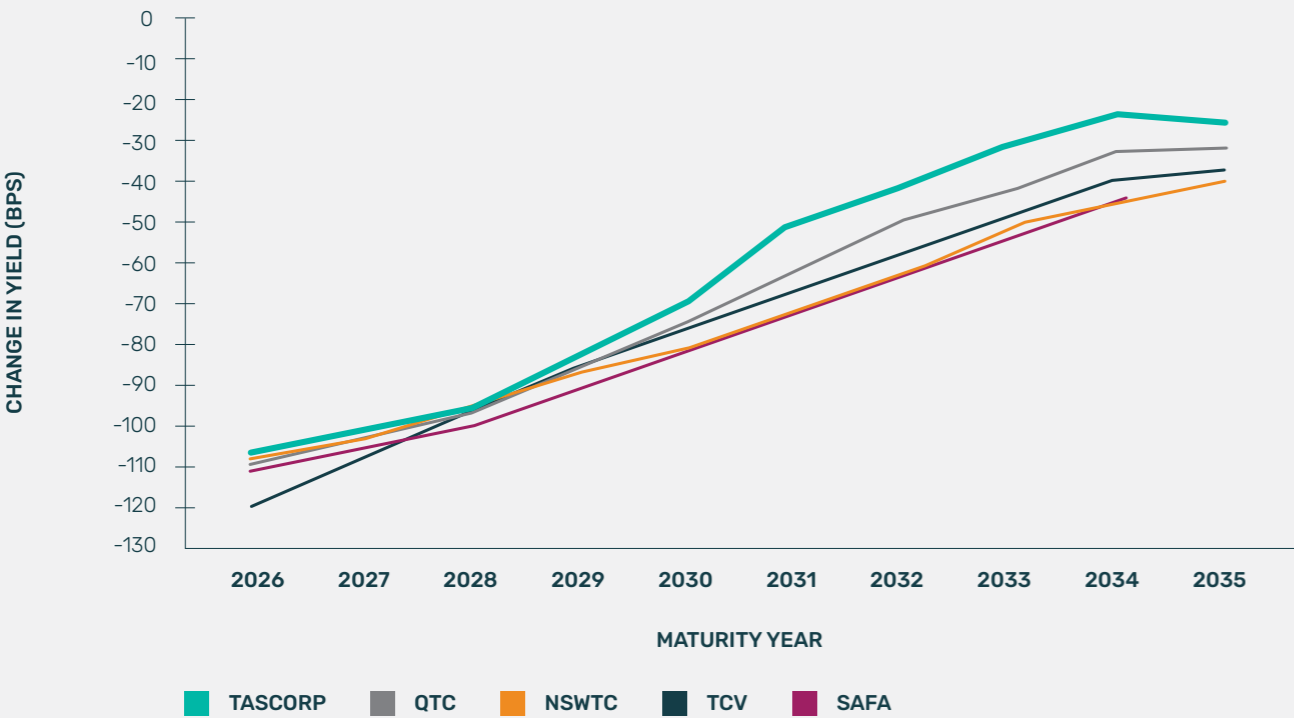

(continued)

Investment approach

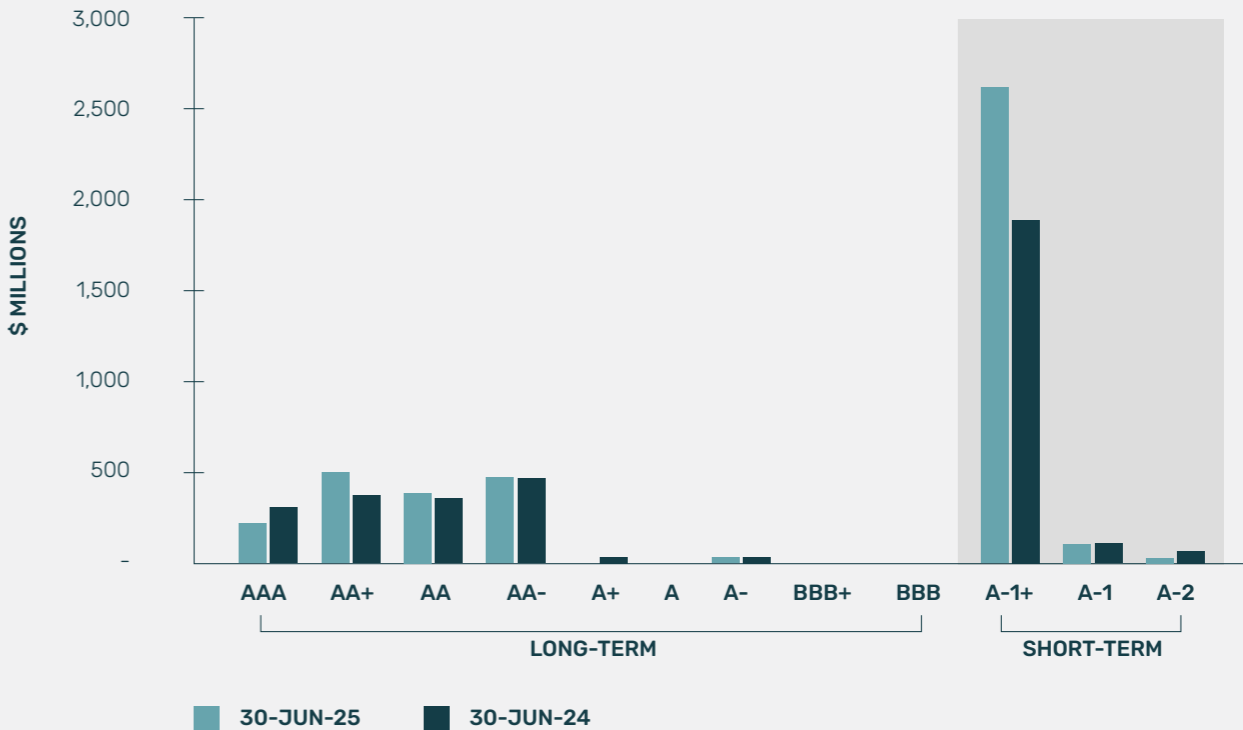

TASCORP's financial outcomes for the year were positive, reflecting a prudent risk management approach of maintaining high credit quality and a low-risk balance sheet. To manage credit risk, TASCORP continues to invest in high-quality liquid assets at or above a BBB credit rating, as shown in the chart below.

YEAR-ON-YEAR CHANGE IN YIELD CURVE

30 JUNE 2024 TO JUNE 2025

INVESTMENT PORTFOLIO BY CREDIT RATING

Chair and CEO's Report

(continued)

Funding outcomes

Throughout 2024–25, TASCORP maintained a strong liquidity position and executed its term debt issuance program effectively. As in previous years, the strength of our liquidity profile was recognised by credit rating agencies in their assessment of Tasmania’s creditworthiness.

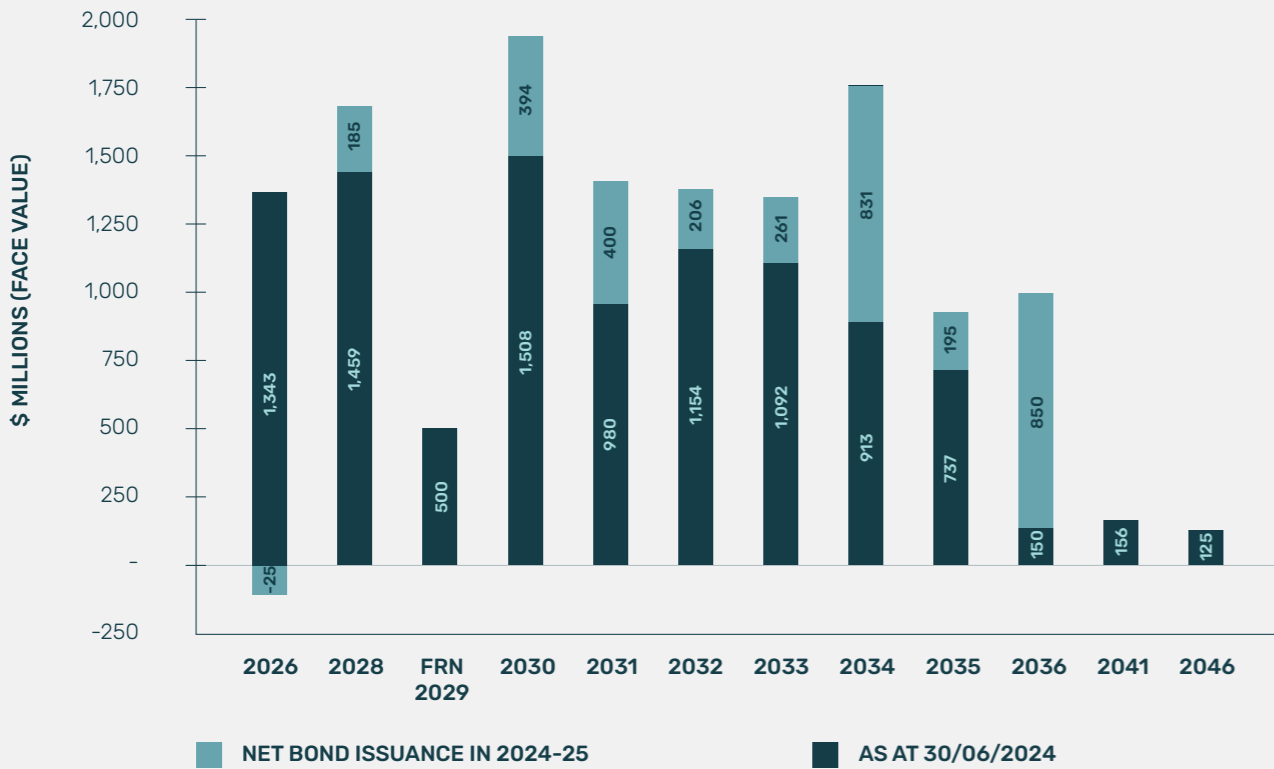

TASCORP successfully completed its 2024–25 issuance target of \$3.39 billion, which included:

- A new \$850 million benchmark bond maturing in 2036, extending the yield curve;
- A \$600 million increase to the existing 2034 benchmark bond; and
- \$1,940 million of increases of various other existing benchmark bonds.

Both the benchmark 2034 and 2036 bond issuances were executed through syndicated deals, as TASCORP continues to access the market via both public and private trades to enhance liquidity support across its bond lines.

TASCORP’s full issuance profile is outlined in the chart below.

TERM ISSUANCE OUTSTANDING BY MATURITY DATE

TASCORP undertook its largest issuance of bonds into the debt capital markets in the 2024–25 financial year. In total, TASCORP successfully issued \$3.39 billion of new bonds to support client borrowing requirements.

Chair and CEO's Report

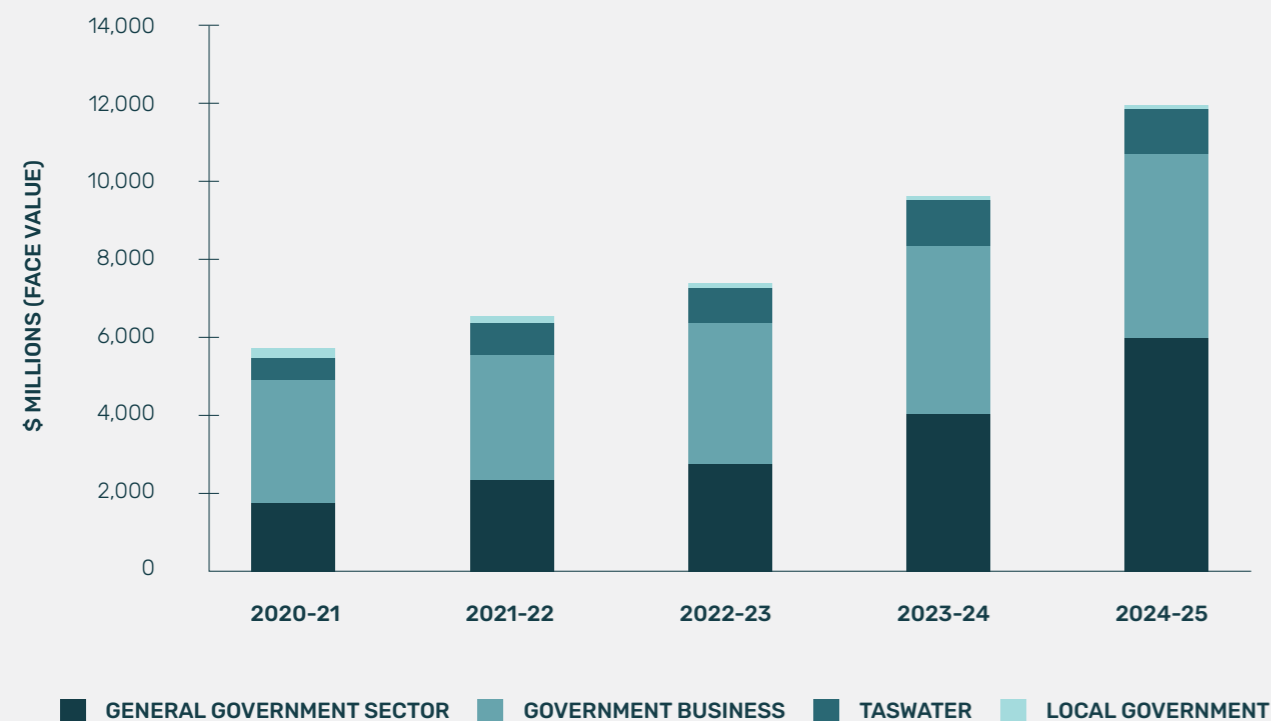

(continued)

Client outcomes

TASCORP's total assets increased by \$3.7 billion to \$16.2 billion by financial year end, underpinned by new client lending (including re-financing activity) of \$3.05 billion.

Similar to the 2023-24 financial year, the majority of new client advances were made to the General Government Sector with these advances rising by \$1.7 billion to \$6.0 billion during the year.

TASCORP CLIENT ADVANCES BY SECTOR

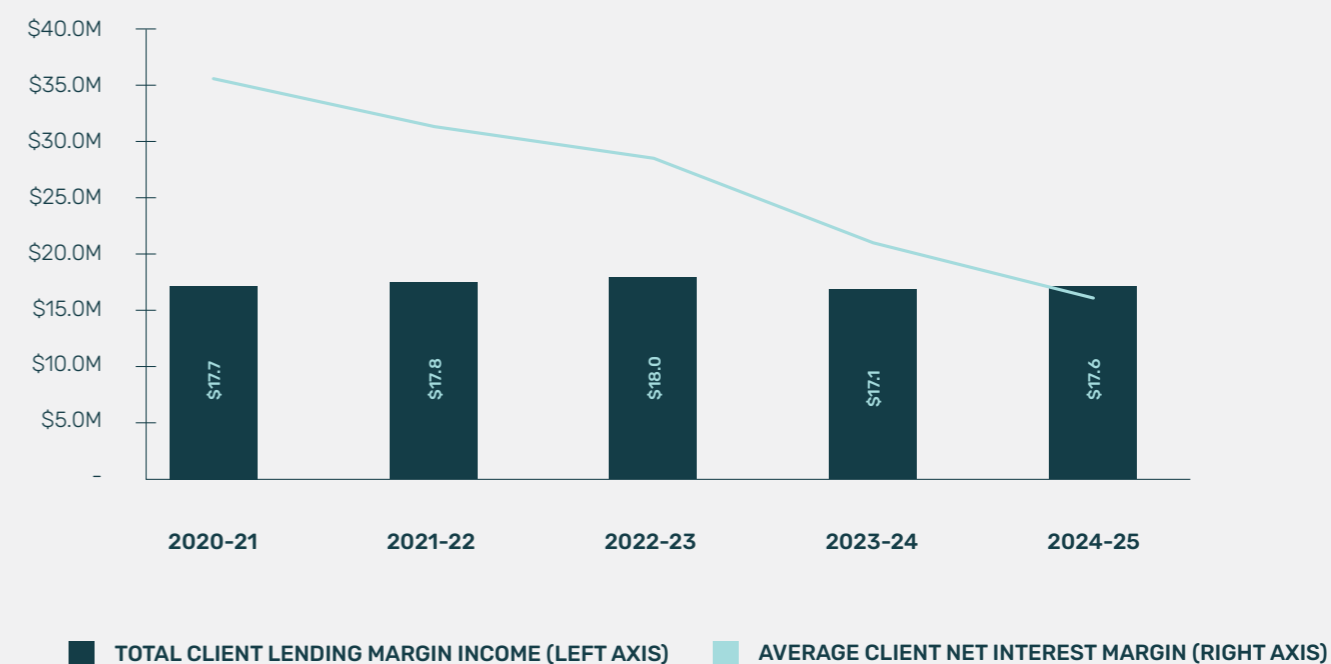

Chair and CEO's Report

(continued)

Client outcomes (continued)

Margin income from our client on-lending activities landed broadly in line with expectations. TASCORP's growing balance sheet has meant that we have been able to leverage the efficiencies of scale and provide our clients with a lower cost of borrowing, as demonstrated in the below chart, highlighting a stable return in absolute dollar terms, but a lowering of net interest margin over the past five years.

CLIENT LENDING PORTFOLIO NET INTEREST MARGIN

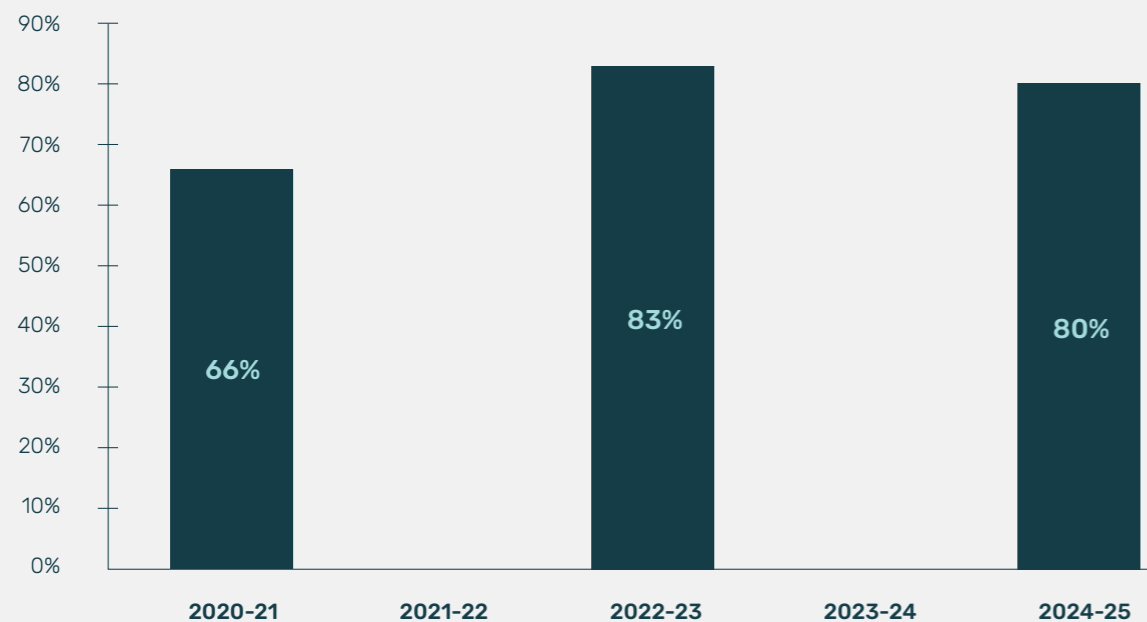

Chair and CEO's Report

(continued)

Employee outcomes

Our team of highly capable people who have deep subject matter expertise are instrumental in the way we continue to deliver value to our clients, especially in periods of significant balance sheet growth, high job demand and ever evolving market conditions. Pleasingly our employee engagement survey results were positive again in 2025, reflecting the strength of our workplace culture and practice, including teamwork, integrity, respect and excellence.

EMPLOYEE ENGAGEMENT SCORE

Chair and CEO's Report

(continued)

Looking ahead

As we look to the future, TASCORP remains committed to delivering cost-effective funding and investment services that meet the evolving needs of Tasmanian Government entities. Maintaining investor confidence and a strong organisational culture will remain central to our strategy.

This year also marks a significant leadership transition as Tony Ferrall, our long-standing Chair, retired from the Board. On behalf of the team, we extend our sincere thanks for his unwavering commitment and leadership. Tony's contribution has been instrumental in shaping TASCORP's success and positioning the organisation for continued growth.

We also thank our stakeholders, investors, and staff for their ongoing support and dedication. Together, we look forward to another year of strong performance and meaningful impact.

The TASCORP Board

Mr Gary Swain

Chair and Audit
Committee Member

Gary Swain was appointed a Director of TASCORP on 1 July 2024 and Chair on 3 June 2025. Gary was appointed as Secretary of the Department of Treasury and Finance in January 2024. Other previous appointments include a decade as Deputy Secretary, Transport and Infrastructure within the Tasmanian Government. Gary's diverse Executive and Senior Management roles have involved public policy and regulatory functions, service delivery including major capital project delivery, and business improvement across a range of functional responsibilities. His professional training is in Economics and Asian Studies and he is a graduate of the University of Tasmania.

Mrs Sandra Birkenleigh

Director and Audit
Committee Chair

Sandra Birkenleigh was appointed Director of TASCORP on 30 September 2017. Formerly a partner of PricewaterhouseCoopers for 16 years, she has extensive experience as a Non-Executive Director. Currently her Board memberships include: MyState Limited and its subsidiaries (Chair), Horizon Oil Limited, Adore Beauty Limited, BBO Investments Pty Ltd (Chair), and Channel Investment Management Pty Ltd (Chair). Sandra is also currently the Deputy Chancellor of the University of the Sunshine Coast's Council and Chair of its Audit and Risk Committee.

Ms Sally Collier

Director and Audit
Committee Member

Sally Collier was appointed Director of TASCORP on 21 September 2021. Sally is an experienced Director with 20 years of investment banking and 10 years of asset management Executive experience. Formerly Executive Director of HSBC Investment Bank and Lehman Brothers, Sally has direct experience in the capital markets across Europe and Asia. Sally's Non-Executive Director experience includes strategy reviews, equity and debt financing, membership of Remuneration, Audit and Risk, ESG and Investor Relations Committees. Sally is a current Director of Utilities of Australia Pty Ltd and is a Graduate of the Australian Institute of Company Directors.

Mr David Sietsma

Director and Audit
Committee Member

David Sietsma was appointed Director of TASCORP on 20 May 2019. Formerly a General Manager in Group Treasury at the Commonwealth Bank of Australia, he has extensive banking experience in financial markets and investment management. He is a Graduate of the Australian Institute of Company Directors and provides treasury advice to large corporations. David is a current Director of Uniting Financial Services and Specialist Advisor (Investments) for the Superannuation Commission.

Corporate Governance Standards

The Board of TASCORP and its senior management have a continuing commitment to improving core Board processes as outlined in the following statement of Corporate Governance Standards.

Board's Responsibilities

The Board's role is to provide leadership and strategic guidance, to oversee TASCORP's sound and prudent management, and the achievement of TASCORP's objectives. The Board's responsibilities include:

- Approving TASCORP's policies, annual report and financial statements;
- Overseeing organisational culture, values and behaviours;
- Overseeing risk management by ensuring that internal controls and reporting mechanisms are in place and approving the Enterprise-wide Risk Management Framework and associated risk policies;
- Assessing and determining whether to accept risks beyond the approval discretion given to management;
- Ensuring compliance with legal, tax and regulatory obligations;
- Approving the Statement of Corporate Intent, Corporate Plan and Business plan;
- Reviewing the Board and Audit Committee performance on an annual basis in accordance with the relevant Government Business guideline, with the last review completed in October 2024; and
- Annually, reviewing the CEO's performance, with the last review completed in September 2024.

Annually the Directors review and acknowledge the TASCORP Code of Conduct and Workplace Behaviour policies. There were no departures from these policies in 2024-25.

Directors update the Register of Interests maintained by the Corporate Secretary as necessary. Where a Director has an interest that is deemed to be relevant to Board matters, it is declared, minuted and the Director takes no part in discussions on the issue.

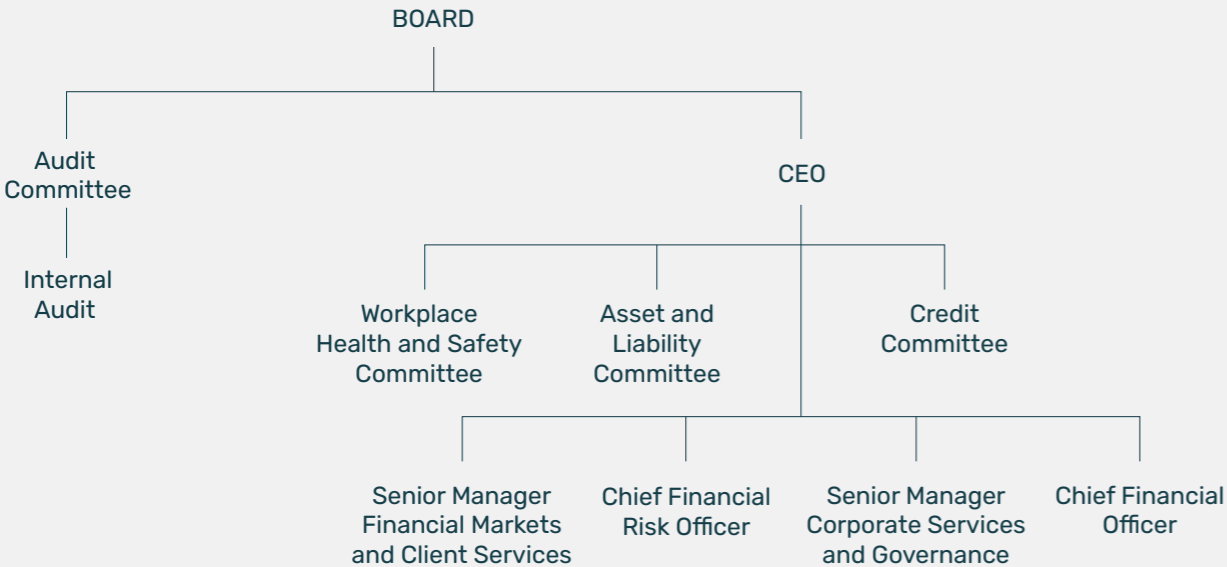

Audit Committee

The Audit Committee comprises all the Non-Executive Directors and is chaired by Mrs S Birkenleigh. The Audit Committee meets as required and its objective is to provide assurance to the Board on TASCORP's risk, control and compliance framework and, its external accountabilities.

Corporate Governance Principles

The Board has also reviewed the ASX Corporate Governance Council Principles and Recommendations, as well as the Government's Guidelines for Tasmanian Government Businesses on the same and confirm that TASCORP does not depart from the ASX Principles.

Governance Structure

DIRECTOR	Board Meetings		Audit Committee Meetings	
	Held	Attended	Held	Attended
Tony Ferrall	11	11	6	5
Sandra Birkenleigh	12	12	6	6
Sally Collier	12	12	6	6
David Sietsma	12	12	6	6
Gary Swain	12	10	6	5

Board Tenures

The Directors of TASCORP during the financial year 2024-25 and details of their tenures are listed below:

Director	Appointment	Re-Appointment	Term Expiration
Tony Ferrall	27 June 2013	4 June 2024	2 June 2025
Sandra Birkenleigh	30 September 2017	30 September 2023	30 September 2026
Sally Collier	21 September 2021	20 September 2024	20 September 2027
David Sietsma	20 May 2019	26 May 2025	26 May 2028
Gary Swain	1 July 2024	3 June 2025*	3 June 2028

*Gary Swain was appointed as Chair on 3 June 2025 for a term of 3 years following the retirement of Tony Ferrall.

Health, Safety, and Wellbeing of Our Employees

At TASCORP, we support and develop our people to thrive in a changing work environment. We strive to create a culture where everyone feels safe, respected and valued.

OUR PEOPLE

OUR VALUES

CULTURE & ENGAGEMENT

HEALTH, SAFETY & WELLBEING

DIVERSITY, EQUITY & INCLUSION (DE&I)

Our People and Culture strategy is centred on fostering an engaged and inclusive workplace, where the unique talents of our people are harnessed to achieve the Corporation’s purpose and strategic objectives. The strategy inspires high performance and supports continuous learning and development. There are opportunities for our people to take part in future study, mentoring, attending industry conferences and webinars, cross training internally and we provide a suite of online learning programs.

At TASCORP, we live by our values which are: integrity, teamwork, excellence and respect. These values are embedded in our policies, practices and culture, underpinning all of our dealings and interactions.

Culture is important to us at TASCORP. Engagement surveys are undertaken every two years, with the most recent survey conducted in May 2025.

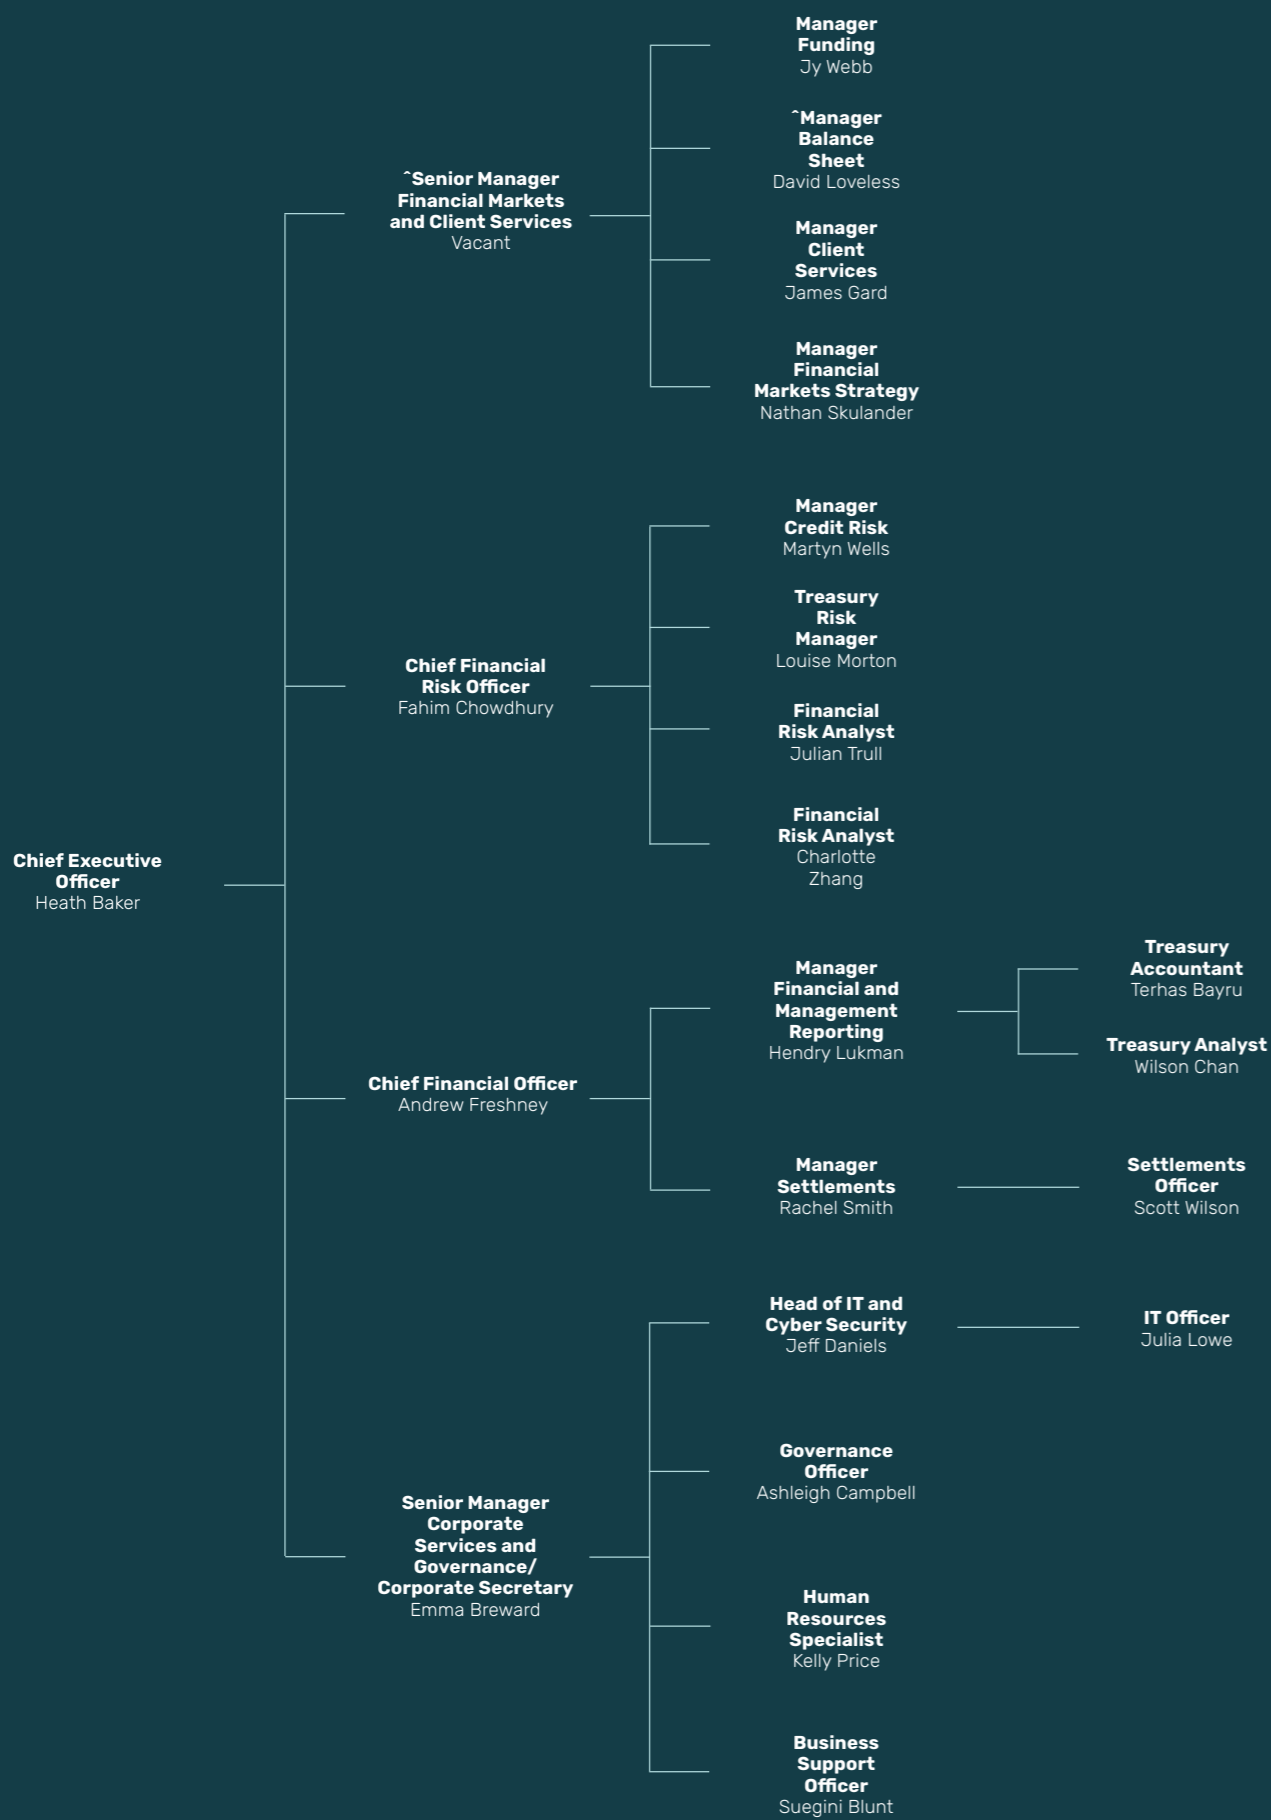

Overall, the 2025 employee engagement result was 80 percent, compared to 83 percent in 2023 and 66 percent in 2021. The continuation of a high engagement score reflects the success of a range of strategies and initiatives implemented at TASCORP over the last 4 years.

The health, safety and wellbeing of our people is a priority. We are committed to providing all employees with resources such as an employee assistance program and various culture, health, safety, and wellbeing initiatives. We also proactively manage and mitigate psychosocial hazards as well as fully supporting flexible working arrangements.

TASCORP is committed to building a diverse, equitable and inclusive workplace where everyone feels valued and respected. TASCORP has policies and initiatives in place to support this, including but not limited to, fair and equitable recruitment practices, flexible working arrangements, generous parental leave entitlements, DE&I awareness training, cultural awareness events, an employee feedback survey regarding DE&I, and regular gender pay gap analysis.

Legislative and Tasmanian Government Reporting Requirements

Treasurer’s Instruction GBE 13-114-11 – Buy Local

Wherever possible TASCORP supports Tasmanian businesses by sourcing goods and services from local suppliers. The table below details TASCORP’s use of Tasmanian businesses and use of consultants for the financial year ended 30 June 2025.

Purchases from Tasmanian businesses	
% of purchases from Tasmanian Businesses	24%
Value of purchases from Tasmanian Businesses	\$1,506,600

CONSULTANCIES VALUED AT MORE THAN \$50 000 (EX GST)				
Name of consultant	Location	Description	Period of engagement	Amount
Deloitte Touche Tohmatsu	Melbourne/VIC	IT Network and Infrastructure Report for Cloud Migration Project	1 July 2024 to Oct 2024	\$79,456
Total				\$79,456
There were 4 consultants engaged for \$50 000 or less totalling				\$58,419
Total Payment to Consultants				\$137,875

Treasurer’s Instruction GBE 13-114-09 – Payment of Accounts

TASCORP has an obligation to report its performance in respect of payment of accounts. The table below details TASCORP’s performance for the financial year ended 30 June 2025.

Payment of Accounts	
Creditor Days	Paid the lesser of due date or 30 days
Number of accounts due for payment	954
Number of accounts paid on time	951
Amount due for payment	\$6,306,937
Amount paid on time	\$6,179,440
Number of payments for interest on overdue accounts	Nil
Interest paid on overdue accounts	Nil

Community Service Obligations (CSO)

TASCORP did not have or contribute to any CSO obligations in 2024-25.

Overseas Travel Guidelines

Heath Baker the CEO and James Millen the Senior Manager Financial Markets and Client Services undertook one international trip to Asia (Singapore and Japan) to promote and market TASCORP bonds and commercial paper to international investors. The total cost was \$23,000.

Executive Remuneration Guidelines

The Corporation has complied with the Guidelines for Tasmanian Government Businesses – Director and Executive Remuneration.

Senior Executive remuneration is detailed in note 22 of the financial statements.

All staff, including Senior Management, undergo annual performance reviews. These include consideration of TASCORP’s overall performance, achievements against the Corporate and Business Plans, key performance indicators for the team and the individual.

Public Interest Disclosures Act 2002 – Section 86 – Reporting Requirements

Procedures to comply with the requirements of the *Public Interest Disclosures Act 2002* have been approved and are disclosed on TASCORP’s website.

There were no reported or reportable disclosures under the Public Interest Disclosures Act during the financial year ended 30 June 2025.

Right To Information Act 2009 – Section 23 – Reporting Requirements

The Corporation did not receive any application for assessed disclosure during the financial year ended 30 June 2025.

Integrity Commission Act 2009

TASCORP is committed to deliver “ethics and integrity in the public sector” and provides on-going training that is aligned to the Commission’s initiatives.

Public Sector Superannuation Reform Act 2016 – Section 55 Superannuation Declaration

The CEO certifies that TASCORP has met its obligations under the Commonwealth’s *Superannuation Guarantee (Administration) Act 1992* in respect of any employee who is a member of a complying superannuation scheme to which TASCORP contributes.

The Corporation retains a General Reserve of \$10.0 million, accumulated retained profits, to partially cover the risks associated with its role as the central financing authority for the State of Tasmania.

On 29 June 2017, the Corporation received \$730.4 million as an equity contribution from the Tasmanian Government for the purposes of establishing the Mersey Community Hospital (MCH) Fund (refer to note 1(d)).

The accompanying notes form an integral part of these financial statements.

Statement of Cash Flows

For the Financial Year Ended 30 June 2025

The accompanying notes form an integral part of these financial statements.

Notes to and Forming Part of the Financial Statements

For the Financial Year Ended 30 June 2025

Note 1: Summary of material accounting policies

The Tasmanian Public Finance Corporation (TASCORP or the Corporation) was established under the *Tasmanian Public Finance Corporation Act 1985*. The Corporation operates in the Tasmanian public sector, providing borrowings; investments; debt and asset management services; and advisory services to the Tasmanian government, government business enterprises, state owned companies, local government councils, and other public entities (together called participating authorities).

The material accounting policies adopted in preparing these general purpose financial statements are stated hereafter to assist in the general understanding of these financial statements. The financial statements for the year ended 30 June 2025 were adopted by the Directors on 6 August 2025.

(a) Basis of preparation and statement of compliance

These general purpose financial statements (referred to throughout this report as the financial statements) have been prepared in accordance with the requirements of the *Government Business Enterprises Act 1995* and subject to compliance with the Treasurer's Instructions, which included a requirement to comply with *AASB 1004 Contributions* rather than *AASB 132 Financial Instruments: Presentation* in relation to the Mersey Community Hospital Fund, comply with Australian Accounting Standards and Australian equivalents of International Financial Reporting Standards (IFRS) that are mandatory for periods beginning 1 July 2024 and other authoritative announcements and mandatory financial reporting requirements. The financial statements have been prepared on an accruals basis under the historical cost convention, with the majority of financial assets and liabilities, including derivative instruments, at fair value through profit and loss (refer notes 1(f) and 1(h)).

(b) Adoption of new and revised accounting standards relevant to TASCORP

The Corporation has applied the required amendments to Standards and Interpretations that are relevant to its operations and effective for the first time for the financial year commencing 1 July 2024. No new or revised accounting standards mandatory for the year ended 30 June 2025 have had a significant impact on the Corporation's financial statements.

(c) Translation of foreign currency transactions

The Corporation has financial assets and liabilities denominated in foreign currencies. It is the Corporation's policy to fully hedge the currency exposure from these types of assets and liabilities by entering into either cross-currency swaps or forward foreign exchange contracts.

Transactions denominated in a foreign currency are converted at the exchange rate at the date of the transaction. Foreign currency receivables and payables at balance date are translated at exchange rates at that date.

All exchange gains and losses are brought to account in the profit or loss.

NOTE 1: Summary of material accounting policies (continued)

(d) Mersey Community Hospital Fund

On 29 June 2017, in accordance with the *Tasmanian Public Finance Corporation Amendment (Mersey Community Hospital) Act 2017* (the Legislation), \$730.4 million was transferred to the Corporation from the Public Account to establish the Mersey Community Hospital Fund (the MCH Fund). Treasurer's Instruction GBE 08-052-09P directs the Corporation to present the transfer as an equity contribution in line with the form in which it was legislated: treat the contribution as a non-reciprocal transfer for the purpose of *AASB 1004 Contributions* and not the definition of a liability in *AASB 132 Financial Instruments: Presentation*.

(e) Lump Sum Dividend and Income Tax Equivalent Regime

Treasurer's Instruction GBE 13-114-06P Lump Sum Dividend and Income Tax Equivalent Regime (LSDITER) states that the Corporation will make its lump sum payment into the Tasmanian Government's Public Account. The lump sum payment each financial year includes: the Corporation's income tax equivalent liability for the preceding financial year; and the Corporation's dividend payment relating to the preceding financial year, as approved by the Treasurer under s.84 of the *Government Business Enterprises Act 1995*. The LSDITER Liability excludes any returns in relation to the MCH Fund.

Income tax

Under the LSDITER, the tax equivalent is calculated by applying the company tax rate, as prescribed by the *Income Tax Rates Act 1986*, to the Corporation's accounting profit before taxation, as determined by the Australian Accounting Standards, excluding any returns from the MCH Fund.

Dividends

The Corporation pays dividends in accordance with the LSDITER whereby the Corporation makes dividend payments equal to the difference between the Corporation's recommended total lump sum liability and its income tax liability for the preceding year. The taxation equivalents and dividends paid under this regime in 2024-25 were \$8.1 million and \$18.9 million respectively (2023-24: \$6.6 million and \$15.4 million).

In addition to the amount paid under the LSDITER, the Corporation, in accordance with the Legislation paid \$99.4 million on 13 June 2025 with respect to the MCH Fund (2023-24: \$96.1 million).

(f) Financial assets and liabilities

Purchases and sales of financial assets and liabilities are recognised on trade date, i.e. the date on which the Corporation commits to purchase or sell the asset or liability with unsettled investments and borrowings recognised on the Statement of Financial Position. However, refinanced Client Advances are only shown on the Statement of Financial Position from date of drawdown.

i) Financial assets and liabilities at amortised cost

The business model is to hold the financial assets in order to collect contractual cash flows and those cash flows represent solely payments of principal and interest. The Corporation includes in this category: investments relating to the MCH Fund (see Note 9), loans to clients funded by equity and the 2046 bond (see Notes 10 and 13).

ii) Financial assets and liabilities at fair value through profit or loss (FVTPL)

The Corporation irrevocably designates all other financial assets and financial liabilities to be at FVTPL where they are managed on a market value basis and where it eliminates or significantly reduces an accounting mismatch. Changes in fair value are taken to the profit or loss.

Transaction costs are recognised as an expense when incurred with the exception of those associated with 2046 funding, which are amortised over the life of the transaction.

(g) Impairment

Financial assets, other than those at fair value through profit or loss, are assessed for impairment with an 'expected credit loss' (ECL) model.

The Corporation accounts for expected credit losses and changes in those credit losses at each reporting date to reflect changes in credit risk since initial recognition of the financial assets. The Corporation measures the loss allowance on a financial instrument at an amount equal to the 12-month ECL. However, if the credit risk on a financial asset has increased significantly since initial recognition, the Corporation measures the loss over the life of the assets' expected credit loss. The ECL is calculated on an individual basis.

The Corporation uses a number of indicators to assess whether there has been a significant increase in credit risk including market conditions, the lifetime expected loss of the whole portfolio of investment class compared to origination and the individual instrument.

The ECL is calculated as below:

$ECL = \text{exposure at default (EAD)} * \text{probability of default (PD)} * \text{loss given default (LGD)}$ where

- EAD – the estimated outstanding amount of credit exposure at the time of default
- PD – the probability a counterparty defaults
- LGD – an estimate of the loss arising on default

Lifetime ECL represents the expected credit loss that will result over the life of the financial asset.

The 12-month ECL is the portion of the Lifetime ECL that is expected to result from default events within 12 months from the reporting date.

Financial assets are assessed for any credit deterioration since origination with any such deterioration assessed as significant or not.

(h) Derivative financial instruments

Derivatives are initially recognised at fair value on the date the transaction is committed to and are subsequently re-measured to their fair value. Any change in fair value is recognised through the profit or loss.

(i) Derecognition of financial assets and liabilities

The Corporation derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers substantially all the risks and rewards of ownership of the asset to another entity. Similarly, the Corporation derecognises financial liabilities when, and only when, the Corporation's obligations are discharged, cancelled or they expire.

(j) Plant and equipment and leasehold improvements

Plant and equipment comprising office furniture and equipment, computer systems, and vehicles are depreciated over their estimated useful lives, ranging from 3 to 10 years, on a straight-line basis. Leasehold improvements are depreciated over the remaining period of the lease.

(k) Right of use assets and lease liabilities

All leases, other than short-term leases of low value assets, are recognised on balance sheet as lease liabilities and right-of-use assets. On initial recognition the carrying amount of the lease liability is measured at the present value of the current leasing commitment. Lease payments are discounted at the rate implicit in the lease or at the entity's incremental borrowing rate.

(l) Employee benefits

Employee entitlements for salary accruals, superannuation, annual and long service leave outstanding at balance date are calculated in accordance with *AASB 119 Employee Benefits*. The Corporation makes contributions on behalf of employees to employee contributory superannuation funds in accordance with the Commonwealth’s *Superannuation Guarantee (Administration) Act 1992*. The Corporation provides for long service leave in respect of all employees, based on the present value of the estimated future cash outflow to be made resulting from employees’ services up to the balance date, and having regard to the probability that employees as a group will remain in the Corporation’s employ for the period of time necessary to qualify for long service leave. The Corporation uses market yields on high quality bonds to discount its long service leave provision as required by AASB 119.

(m) Creditors

Creditors are recognised when the Corporation becomes obliged to make future payments as a result of a purchase of assets or services. The carrying amount approximates the fair value, as creditors are generally settled within thirty days.

(n) Cash flows

For the year ended 30 June 2025, cash equivalents for the purpose of the Statement of Cash Flows comprised operating cash, investments at call and highly liquid short-term securities (original maturity less than 3 months) for the Corporation’s Treasury business.

(o) Revenue recognition

Revenue is recognised to the extent it is probable that economic benefits will flow to the Corporation and the revenue can be reliably measured. The following specific criteria must also be met before revenue is recognised:

Sale of financial instruments

Revenue is recognised when the significant risks and rewards of ownership of the financial instrument have passed to the buyer and can be measured reliably. Risks and rewards are considered passed to the buyer at the time of the conclusion of the trade commitment.

Interest

Revenue and expense is recognised for all financial assets and liabilities as interest accrues using the effective interest method, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument to the net carrying amount of the financial asset or liability.

Derivative interest receipts and payments are accrued on a net basis and classified as interest revenue or interest expense. This includes up front payments/receipts on interest rate swaps and forward points on foreign exchange contracts used to manage the interest rate or currency exposure of the financial assets and liabilities.

Change in market value

The movements in the market value of the fair valued financial assets, liabilities and derivative instruments are recognised as gains or losses in the profit or loss in the period in which the change in market value occurs.

(p) Rounding

All amounts have been rounded to the nearest hundred thousand Australian dollars unless otherwise stated.

(q) New and amended accounting standards issued but not yet effective

AASB 18 Presentation and Disclosure in Financial Statements was issued in June 2024 and replaces *AASB 101 Presentation of Financial Statements* and will be effective for the Corporation from 1 July 2027. AASB 18 introduces enhanced presentation requirements in the financial statements. The Corporation is currently assessing the impact of this new Standard.

There are no other new standards or amendments to existing standards that are not yet effective which are expected to have a material impact on The Corporation’s financial statements. The Corporation has not early adopted any new accounting standards.

(r) Other accounting developments

Australian climate-related financial disclosures legislation received Royal Assent in September 2024, under the *Treasury Laws Amendment (Financial Market Infrastructure and Other Measures) Act 2024* (“Act”). Following the Act’s enactment, the AASB introduced the first set of Australian Sustainability Reporting Standards (ASRS). These standards include:

AASB S1 General Requirements for Disclosure of Sustainability-related Financial Information:

A voluntary standard that provides entities with a framework for disclosing sustainability-related financial information in a consistent and comparable manner.

AASB S2 Climate-related Disclosures:

A mandatory standard requiring entities to disclose detailed information about their governance, strategy, risk management, and metrics and targets related to climate-related risks and opportunities.

The Corporation is currently assessing the impact of adopting these new standards, our requirements to do so, as well as the timing of potential adoption required.

Note 2: Significant accounting judgements and estimations

Financial assets and liabilities measured at fair value

The fair value of financial assets and financial liabilities designated at fair value through the profit or loss is estimated for recognition and measurement purposes or for disclosure purposes.

The fair value of financial instruments traded in active markets is based on quoted market prices at the balance date. The quoted market price used for the Corporation's traded financial assets and financial liabilities is the current market mid price which is the standard pricing convention used by market participants.

The fair value of a financial instrument that is not traded in an active market is determined using the market accepted valuation technique for the instrument concerned, or net present value where no market convention exists. The Corporation uses assumptions that are based on the way the asset or liability was priced when it was acquired and market conditions existing at balance date. These assumptions at balance date were:

- Dealer market quotes for similar instruments or dealer market price assessments were used for valuing long-term illiquid investments. In general, the Corporation eliminates the high and low quote or assessment and averages the remainder to value the instrument. In a small number of cases, there may be fewer than three quotes or assessments available. In such cases all the quotes or assessments received are included in the calculation of the value.
- The fair value of client advances designated at fair value through profit or loss is calculated at a margin relative to the TASCORP yield curve. The margin is the difference between the relevant client loan yield and the TASCORP yield curve at the time the loan was written. The fair value of a swap contract (interest rate or foreign exchange) is calculated using market accepted valuation techniques to discount future cash flows using mid-point market yields and/or exchange rates appropriate to the instrument. The fair value of a forward exchange contract is determined using mid-point forward exchange market rates at the balance date.

The following table provides an analysis of financial instruments that are measured at fair value through the profit or loss, grouped into 3 levels based on the degree to which the fair value is observable.

- Level 1 – derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 – derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (ie. as price) or indirectly (ie. derived from prices).
- Level 3 – derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

*All fixed rate bond fair values are derived from direct quoted prices from active markets with the exception of non benchmark lines.

Note 3: Financial instruments and risk management

The operations of the Corporation give rise to various risks which are generally reflected in the market value of the Corporation's assets and liabilities.

(a) Capital at risk

The Corporation allocates an appropriate level of capital to each identified risk: credit risk, market risk and operational risk, and manages these risks within an overall capital limit agreed with the Treasurer from time to time. The effective level of risk exposure of the Corporation is required at all times to be kept within the capital limit. Capital is allocated to categories of risk in line with accepted industry practice.

(b) Credit risk

Credit risk arises from (i) the change in fair value of credit exposure to a counterparty or group of counterparties due to a change in the market perception of the credit quality of that exposure, and (ii) the potential for credit default, i.e. the possibility that the counterparty to a financial instrument will not adhere to the terms of the contract when payment is due. The Corporation is exposed to credit-related losses in the event of non-performance by counterparties to derivative financial instruments.

The Corporation enters into derivative transactions governed under International Swaps and Derivatives Association (ISDA) Master Agreements. When a credit default occurs, all outstanding transactions under an ISDA agreement are terminated. The termination value is determined and only a single net amount is payable to/ receivable from a counterparty in settlement of all transactions. The Corporation does not have any master netting arrangements where a default event has occurred, and has therefore presented all derivative financial instruments on a gross basis in the Statement of Financial Position. The Corporation also has Credit Support Annexes (CSAs) in place with the majority of its ISDA agreements. The CSA defines the terms or rules under which collateral is lodged with counterparties, subject to agreed market thresholds. The Corporation may be required to place cash with or receive cash from market counterparties to mitigate the credit risk arising from the derivative transactions.

There is no impairment for bad and doubtful debts. No bad debts have been recorded in the current year or previous year.

i) Changes in fair value attributable to credit risk

AASB 7: Financial Instruments: Disclosures requires the disclosure of the amount of change in the fair value of a loan or receivable (or group of loans or receivables) that is attributable to changes in the credit risk and the financial liability that is attributable to changes in credit risk.

The change in fair value attributable to changes in credit risk was calculated by determining the difference in the net present value of the relevant cash flows at the end of each period between using the Overnight Indexed Swap curve and the market yield curves used in the financial statements.

The cumulative change in fair value attributable to changes in credit risk as at the respective year ends are:

	2025 \$M	2024 \$M
Investments	43.8	22.8
Client advances	626.6	314.8
	670.4	337.6
Financial liabilities	(656.2)	(332.5)
Net cumulative gain/(loss)	14.2	5.1

ii) Credit default exposure

Investments

The Corporation's current credit risk policies require all investments to have a credit rating no less than Investment Grade (by Moody's or Standard and Poor's ratings). These limits are monitored by management with compliance reported to the Board. The carrying value of these investments represents the maximum exposure to credit default risk.

Client advances

Section 11 of the *Tasmanian Public Finance Corporation Act 1985*, states that one of the functions of the Corporation is to provide loans to participating authorities. The Corporation considers that the creditworthiness of its client advances, other than advances to local government, and the Tasmanian Water and Sewerage Corporation Pty Ltd (refer note 10), is derived from the credit rating of the State of Tasmania.

The carrying value of the client advances (refer note 10) together with the committed standby facilities to clients (refer note 15(b)) represents the maximum exposure to credit default risk.

Derivatives

The credit exposure of currency swaps, interest rate swaps and forward foreign exchange contracts is represented by the net fair value of all contracts with a positive replacement cost reduced by the effect of netting agreements.

NOTE 3: Financial instruments and risk management *(continued)*

iii) Concentration of credit risk by credit rating

The following table details the credit rating of the Corporation's primary financial assets excluding transactions with participating authorities. The amounts shown reflect their credit exposure.

	LONG-TERM CREDIT RATING				SHORT-TERM CREDIT RATING			
30 June 2025	AAA \$M	AA+/AA/AA- \$M	A+/A/A- \$M	BBB+/ BBB \$M	A-1+ \$M	A-1 \$M	A-2 \$M	Total \$M

Derivatives non CSA counterparties	1.7	-	-	-
	141.9	112.2	(114.0)	(1.8)

CSAs are in place for all active market counterparties.

(c) Interest rate risk

The Corporation enters into various types of interest rate contracts in managing its interest rate risk.

i) Interest rate swaps

Under interest rate swaps, the Corporation agrees with other parties to exchange, at specified intervals, the difference between fixed rate and floating rate interest amounts calculated by reference to agreed notional principal amounts. The Corporation’s operations are subject to the risk of interest rate fluctuations to the extent that there is a difference between the timing and amount of interest earning assets and the timing and amount of interest bearing liabilities that mature or re-price in specified periods. Interest rate swaps are held or issued for the purpose of managing this interest rate risk. The net fair value of interest rate swaps is presented in notes 11 and 14.

ii) Interest rate options

Interest rate options are contracts that allow the holder of the option the right but not the obligation to purchase or sell a financial instrument at a specified price and within a specified period. As a matter of policy, all options granted to clients are hedged by purchasing the same option in the financial markets. As at balance date, the Corporation did not have any outstanding interest rate options (30 June 2024: \$nil).

NOTE 3: Financial instruments and risk management *(continued)*

(iii) Interest rate exposure

Exposure to interest rate risk, the re-pricing profile of maturities and the effective interest rates by type of financial instrument at 30 June 2025 were:

	CONTRACTUAL MATURITIES								
	Weighted average effective interest rate %	Floating interest rate \$M	Less than 3 months \$M	3 to 6 months \$M	6 to 12 months \$M	1 to 2 years \$M	2 to 5 years \$M	Over 5 years \$M	Total \$M

Forward FX (> 12 months)	-	-
Net position (> 12 months)	-	-
Net position	-	-

(e) Liquidity risk

The Corporation has a liquidity policy requiring the holding of sufficient liquid investments, which are readily saleable and convertible into cash, to safeguard against a short-term inability to issue debt.

Historical experience has shown that while deposits from clients have short-term maturities, a percentage of the deposits are core investments by clients, which are continuously re-invested with the Corporation.

Daily, the Corporation monitors a number of prudential measures including:

Liquidity Coverage Ratio

The level of High Quality Liquid Assets should be adequate to meet the liquidity needs for a 30 day period under a severe stress scenario – monitored daily.

The Corporation's High Quality Liquid Assets comprise A-1+ Discount Securities and recognised high grade financial institution and government liquid assets. These liquid assets are discounted consistent with APRA Required Stable Funding Factors.

The table below shows the daily minimum, maximum and average High Quality Liquid Assets for 2024-25.

HQLA - High Quality Liquid Asset

Minimum	Maximum	Average
209%	501%	302%

Ratio of Long Dated Liabilities to Term Client Loans

The level of long dated liabilities must be no less than 95% of the level of client loans other than for working capital – monitored daily.

Minimum	Maximum	Average
106%	110%	108%

In addition to holding of liquid assets, the Corporation maintains an intra-day credit accommodation facility of \$100 million (2024: \$100 million) with a bank.

NOTE 3: Financial instruments and risk management *(continued)*

The maturity profile of the Corporation's financial assets, liabilities and derivatives based on contracted undiscounted payment obligations and receivables at 30 June 2025 was:

	Less than 3 months \$M	3 to 6 months \$M	6 to 12 months \$M	1 to 2 years \$M	2 to 5 years \$M	Over 5 years \$M	Total \$M

NOTE 3: Financial instruments and risk management *(continued)*

(f) Value at Risk (VaR) analysis

The Corporation uses a VaR model to measure the market risk exposures inherent in the balance sheet. VaR, calculated daily, is an estimate of the potential loss from the Corporation's risk positions over a given holding period with a certain confidence level.

The Corporation requires that it maintains sufficient capital to cover its exposure to market risk, credit risk and operational risk. Market risk capital exposure is measured by VaR and calculated on the following basis: historical simulation, rates and margins data back 5 years, a 10-day holding period (extended to 30 days for investment credit margin risk, excluding semi government securities) and a 99% percentile one tailed confidence level is used.

The VaR model's reliability is verified by back-testing the results of the model to actual results.

Stress testing is used to add insight to the possible outcomes under abnormal market conditions. The stress testing methodology assumes that all market factors move adversely at the same time and that no actions are taken during the stress events to mitigate risk, and consequently reflects the decline in liquidity that frequently accompanies market shocks.

The Corporation's VaR over the year is disclosed in the following table:

	2024-25 \$M	2023-24 \$M
Year End	5.1	5.1
Average	5.0	4.6
Maximum	5.9	6.1
Minimum	4.2	3.6

The table reflects the Corporation's balance sheet position as at 30 June 2025: the maximum potential loss expected over a 10 day period is \$5.1 million, with a 1% probability that this maximum may be exceeded. The average VaR over the year was \$5.0 million.

Note 4: Operating segments

The Corporation has two operating segments:

Treasury

The principal purpose of the Treasury segment is to develop, implement and manage borrowing and investment programs for the benefit of the State.

Mersey Community Hospital Fund

The MCH Fund was created on 29 June 2017 as equity in TASCORP. TASCORP manages the investments from these funds separately to its Treasury business.

2024-25	Treasury \$M	MCH Fund \$M	Eliminations \$M	Total \$M
Net revenue from operations	43.3	11.1	(0.1)	54.3
Operational expenses	(10.3)	(0.1)	0.1	(10.3)

Commercial paper	(1.7)	(2.0)
Euro Commercial paper	(15.1)	(3.2)
Other bonds	(0.1)	-
Derivative financial instruments at fair value through profit or loss	31.7	18.9
Total net gains/(losses) arising from financial instruments	19.0	7.8
Credit loss allowance	0.1	0.1

(c) Other revenue

	2024-25 \$M	2023-24 \$M
Advisory and commitment fees	1.1	1.0
Other revenue	1.1	1.0

Note 6: Operational expenses

	2024-25 \$M	2023-24 \$M
BORROWING COSTS		
Program and debt issuance fees	2.0	2.2
Rating agency fees	0.6	0.6
Bank and facility fees	0.2	0.2
	2.8	3.0
ADMINISTRATION EXPENSES		
Salaries and related employee expenses	4.6	4.4
Information technology and communication ¹	2.0	1.3
Legal, audit and professional services	0.4	0.4
Premises ¹	0.4	0.4
International travel ²	0.0	0.0
Other expenses	0.1	0.1
	7.5	6.6
Operational expenses	10.3	9.6

¹ Information technology and communication and Premises includes amortisation of \$173,000 (2023-24: \$140,000), depreciation of \$118,000 (2023-24: \$121,000) and a loss on disposal of fixed assets of \$45,000 (2023-24: \$nil).

² The CEO and Senior Manager Financial Markets and Client Services undertook one international trip to promote and market TASCORP bonds and commercial paper to international investors in 2024-25 at the cost of \$23,000. (2023-24: \$25,000).

Note 7: Income tax equivalent expense

The Corporation's tax equivalent liability is calculated in accordance with the Treasurer's Instructions issued under the *Government Business Enterprises Act 1995*, which requires the Corporation to account for income tax based on the accounting profit on its treasury activities, but excludes the profit from the MCH Fund.

	2024-25 \$M	2023-24 \$M
MCH Fund profit before income tax (exempt from taxation)	11.0	13.1
Treasury profit before income tax equivalent expense	33.0	27.0
Prima facie tax at 30% of Treasury profit	9.9	8.1
Income tax equivalent expense	9.9	8.1
Current tax liability	9.9	8.1

Note 8: Cash and cash equivalents

All Treasury investments are designated as financial assets at fair value through profit or loss and MCH Fund investments at amortised cost. The majority of deposits from participating authorities and unallocated borrowings were invested in the following range of instruments as at balance date, all with original maturities of three months or less:

	2025 \$M	2024 \$M
INVESTMENTS AT FAIR VALUE THROUGH PROFIT OR LOSS		
Cash at bank and at hand	115.6	31.7
Deposits with financial institutions ¹	125.5	122.1
Short-term discount securities	45.0	-
Reverse repurchase agreements	108.1	30.1
	394.2	183.9

¹ Includes cash collateral of \$89.2 million (2024: \$114.0 million).

Note 9: Investments

Investments include liquid securities and deposits with financial institutions as at balance date with original maturities longer than three months.

	2025 \$M	2024 \$M
INVESTMENTS AT FAIR VALUE THROUGH PROFIT OR LOSS		
Floating rate securities	959.0	998.4
Discount securities	1,585.6	1,034.8
Fixed interest securities ¹	613.8	505.9
Deposits with financial institutions	434.2	443.1
	3,592.6	2,982.2
INVESTMENTS AT AMORTISED COST (MCH FUND)		
Floating rate securities	55.2	99.5
Fixed interest securities	31.4	105.8
Deposits with financial institutions	41.2	16.1
Credit loss allowance	(0.1)	(0.2)
	127.7	221.2
	3,720.3	3,203.4

The fair value of the MCH Fund assets is \$127.7 million.

¹ Includes securities sold under agreements to repurchases, \$75.1 million (2024: \$nil).

CREDIT LOSS ALLOWANCE FOR INVESTMENTS AT AMORTISED COST

	Floating	Fixed	Total
12-month expected credit losses	0.0	0.1	0.1
Lifetime expected credit loss	-	-	-
	0.0	0.1	0.1

The lifetime expected credit loss provision reflects instruments where credit risk has increased significantly since initial recognition but are not credit impaired financial assets. There was no brought forward allowance.

Note 10: Client advances

Section 11 of the *Tasmanian Public Finance Corporation Act 1985*, states that one of the functions of the Corporation is to provide loans to participating authorities in the State of Tasmania. Normally, most advances are refinanced. 90.2% of total advances are guaranteed by the State (2024, 89.5%), with 41.2% of these now covered under Section 15A of the Act, which commenced on 1 July 2023 (2024, 44.8%), enabling the Government to guarantee advances to 'relevant organisations' as defined in Schedule 1 of the Act, with the residual 49.0% being loans advanced directly to the State Government itself, (2024, 44.7%).

	2025 \$M	2024 \$M
CLIENT ADVANCES AT FAIR VALUE THROUGH PROFIT OR LOSS		
Aurora Energy	-	0.0
Department of Treasury and Finance	5,880.9	4,037.0
Homes Tasmania	488.4	266.9
Hydro Electric Corporation	1,011.6	746.4
Local Government	97.3	112.6
Tasmania Development and Resources	94.2	78.3
Tasmanian Irrigation Pty Ltd	31.3	18.9
Tasmanian Networks Pty Ltd	2,153.2	2,094.5
Tasmanian Ports Corporation	129.7	131.6
Tasmanian Railway Pty Ltd	19.1	11.0
Tasmanian Water and Sewerage Corporation Pty Ltd	1,084.5	832.8
TT-Line Company Pty Ltd	916.2	580.8
Other Participating Authorities	8.0	8.7
	11,914.4	8,919.5
CLIENT ADVANCES AT AMORTISED COST		
Tasmanian Networks Pty Ltd	100.8	100.8
	100.8	100.8
Client advances	12,015.2	9,020.3

NOTE 10: Client advances *(continued)*

The fair value of the amortised client advances is \$84.5 million comprising Tasmanian Networks Pty Ltd. The client advances (Tasmanian Networks Pty Ltd) maturing in 2046 were valued using the longest observable TASCORP and Semi-government security market rates, extrapolated over time and allowed for change in credit margin. It is considered a level 2 valuation.

Note 11: Asset derivative financial instruments

	FINANCIAL STATEMENTS	
	2025 \$M	2024 \$M
DERIVATIVE FINANCIAL INSTRUMENTS RECEIVABLE AT FAIR VALUE THROUGH PROFIT OR LOSS		
Foreign exchange contracts	0.2	1.8
Interest rate swaps	88.6	109.3
	88.8	111.1

Note 12: Deposits

Section 11 of the *Tasmanian Public Finance Corporation Act 1985*, states that one of the functions of the Corporation is to accept money on deposit or on loan from the Treasurer or from a participating authority. All outstanding deposits at balance date are designated as financial liabilities at fair value through profit or loss:

	2025 \$M	2024 \$M
DEPOSITS		
State of Tasmania	615.6	599.7
Public trading entities	52.6	74.1
Local Government	13.4	9.7
Banks and other financial institutions ¹	1.1	-
	682.7	683.5

¹Includes cash collateral of \$1.1m (2024: \$nil).

Note 13: Borrowings

All borrowings are unconditionally guaranteed by the State of Tasmania under Section 15 of the *Tasmanian Public Finance Corporation Act 1985* and are designated as financial liabilities at fair value through the profit or loss.

	2025 \$M	2024 \$M
BORROWINGS AT FAIR VALUE THROUGH PROFIT OR LOSS		
Fixed Rate bonds	12,340.1	8,843.6
Floating Rate notes	501.2	503.0
Commercial paper	1,951.8	1,948.5
Euro commercial paper	241.6	-
Other bonds	3.3	3.2
	15,038.0	11,298.3
BORROWINGS AT AMORTISED COST		
Fixed Rate bonds	100.8	100.8
Borrowings	15,138.8	11,399.1

The fair value of the amortised borrowings is \$84.2 million (see Note 9 and Note 10 for valuation of amortised investments and client advances). The methodology used is consistent with that used when executing the transactions. Those funding the investments are a Level 1 valuation whilst those funding the long-dated client advances are a Level 2 valuation.

The Corporation issues bonds that pay a fixed interest semi-annual coupon with varying maturities:

- 3.25% with a maturity of 19 February 2026
- 3.25% with a maturity of 24 January 2028
- 2.00% with a maturity of 24 January 2030
- 4.75% with a maturity of 21 January 2031
- 2.25% with a maturity of 22 January 2032
- 2.50% with a maturity of 21 January 2033
- 4.00% with a maturity of 20 January 2034
- 4.75% with a maturity of 25 January 2035
- 1.75% with a maturity of 22 January 2036
- 5.25% with a maturity of 23 January 2036
- 2.35% with a maturity of 23 August 2041
- 4.35% with a maturity of 2 May 2046

NOTE 13: Borrowings *(continued)*

The Corporation also issues a bond that pays a floating interest quarterly coupon with a maturity of 10 January 2029.

Domestic commercial paper is issued under a \$2,500 million program with maturities of up to 364 days. Overseas commercial paper is issued under a US\$2,500 million program with maturities of up to 364 days.

Note 14: Liability derivative financial instruments

	FINANCIAL STATEMENTS	
	2025 \$M	2024 \$M
DERIVATIVE FINANCIAL INSTRUMENTS PAYABLE AT FAIR VALUE THROUGH PROFIT OR LOSS		
Foreign exchange contracts	10.0	1.8
Interest rate swaps	99.3	140.1
	109.3	141.9

Note 15: Contingent liabilities and commitments

The Corporation incurs contingent liabilities as part of its general function to engage in activities relating to the finances of the Tasmanian public sector as is prescribed by its enabling legislation and approved by the Treasurer. The contingent liabilities incurred take the form of the provision of guarantees, indemnities, forward contracts and commitments to extend credit.

Indemnities have been provided by the Corporation to third parties involved either directly or indirectly in financing arrangements with the Corporation or participating authorities and relate to financial advantages which are expected to be available to those parties or to the preservation of existing financial advantages.

The Corporation has commitments to extend standby credit facilities (including undrawn facilities) and has provided contract performance guarantees at balance date, details of which are as follows:

(a) Client advances not yet drawn

Client advances not yet drawn totalled \$nil as at 30 June 2025 (2024: \$nil).

(b) Committed standby facilities

The Corporation enters into standby facilities with its clients. As at 30 June 2025 committed standby facilities totalled \$125 million. (2024: \$125 million).

(c) Client guarantee accounts

The Corporation has provided contract performance guarantees. As at the balance date, the face value exposure of the guarantees is \$287.7 million (2024: \$295.7 million).

(d) Client committed loan redraw facilities

The Corporation enters into redraw facilities with its clients. As at 30 June 2025 committed loan redraw facilities totalled \$250 million (2024: \$250 million).

Board remuneration notes and statements

- Amounts are all forms of consideration paid, payable or provided by the entity, i.e. disclosure is made on an accruals basis as at 30 June.
- Directors do not receive any other monetary benefits, but they are entitled to reimbursement of expenses incurred whilst attending to the Corporation's business.
- Superannuation means the contribution to the superannuation fund of the individual.
- Mr A Ferrall was a Crown Servant until 25/08/23 and was not directly remunerated for his role on the Board prior to this date. This remuneration was instead paid to the Department of Treasury and Finance (2024-25: \$nil, 2023-24: \$20,564). Post this date Mr A Ferrall was compensated directly in his role as a Non-Executive Director and Chair of the Board, independent of the Department of Treasury and Finance.
- As a Crown Servant, Mr G Swain is not directly remunerated for his role on the Board. The remuneration is instead paid to the Department of Treasury and Finance (2024-25: \$66,543, 2023-24: \$nil).

NOTE 22: Key management personnel compensation (continued)

Non-Executive Directors

Non-Executive Directors are appointed by the Governor-in-Council on the recommendation of the Treasurer. Each instrument of appointment is for a maximum period of three years and prescribes the relevant remuneration provisions. Directors can be re-appointed in accordance with the relevant Guidelines for Tasmanian Government Businesses – Board Appointments. The level of fees paid to Non-Executive Directors is administered by the Department of Premier and Cabinet, as is additional fees paid in respect of their work on Board committees. Non-Executive Directors do not receive any other benefits.

Superannuation is paid at the appropriate rate as prescribed by superannuation guarantee legislation.

No other leave, termination or retirement benefits are accrued or paid to Directors. Directors are entitled to reimbursement of reasonable expenses incurred while attending to Board business. Non-Executive Directors' remuneration is reviewed periodically with increases subject to approval by the Treasurer.

Executive Remuneration

The following tables disclose the remuneration details for each person that acted as a senior executive during the current and previous financial year:

2024-25 Executive Remuneration

Total		1,344	n/a	16	n/a	-	133	1,493	(112)	164	1,545

Executive remuneration notes and statements

Amounts are all forms of consideration paid, payable or provided by the entity, i.e. disclosure is made on an accruals basis and includes all accrued benefits at 30 June.

- Salary includes all forms of consideration paid and payable for services rendered, compensated absences during the period and salary sacrifice amounts.
- The Corporation does not make any short-term incentive payments.
- Other monetary benefits include contributions towards professional membership fees with a total value of less than \$1,000, as well as salary sacrifice amounts used for novated lease payments (reportable but exempt fringe benefit relating to electronic vehicle leasing arrangements).
- No vehicles were provided as part of remuneration.
- No Other non-monetary benefits were provided as part of remuneration (noting that novated lease fringe benefits relating to electric vehicles are exempt from fringe benefits tax).
- Superannuation means the contribution paid or payable to the superannuation fund of the individual.
- Reported Remuneration includes the individual's salary, short-term incentive payments, other monetary benefits, vehicle benefits, other non-monetary benefits and superannuation. For the purposes of assessing compliance with the Guidelines, Other long-term employee benefits and termination benefits are not included in the Reported Remuneration amount.

NOTE 22: Key management personnel compensation *(continued)*

- Other long-term benefits include movements in annual leave accruals and long service leave provisions.
- Termination benefits include all forms of benefit paid or accrued as a consequence of termination, including leave entitlements paid out on termination.

Executive Remuneration

Remuneration levels for key management personnel are set in accordance with the Director and Executive Remuneration Guidelines, dated October 2015. Under these Guidelines, remuneration bands for Chief Executive Officers (CEOs) are determined by the Government Business Executive Remuneration Panel, reflect the principles outlined in the Guidelines, and broadly align with State Service Heads of Agency. Positioning within the bands depends on the complexity and size of the business and the environment in which the business operates. Remuneration for other senior executives is set with reference to the CEO’s salary.

The CEO is appointed by the Premier and Treasurer following selection and recommendation by the Board, including the consideration of the CEO’s remuneration package.

The employment terms and conditions of senior executives are contained in individual employment contracts, which prescribe total remuneration, superannuation, annual and long service leave, vehicle and salary sacrifice provisions. In addition to their salaries, TASCORP also provides non-monetary benefits and contributes to post-employment superannuation plans on their behalf.

The performance of each senior executive, including the CEO, is reviewed annually which includes a review of their remuneration package. The terms of employment of the CEO and the Board contain a termination clause that requires the CEO or the Board to provide a minimum notice period of up to 6 months prior to termination of the contract. The remaining senior executives are required to provide 1 month’s minimum notice. CEO contracts for GBEs include a set term consistent with the requirements of the *Government Business Enterprises Act 1995*. Whilst not automatic, contracts can be extended. No key management personnel appointed during the period received a payment as part of his or her consideration for agreeing to hold the position.

We have complied with the Guidelines for the Tasmanian Government Business – Director and Executive Remuneration.

Short-term incentive payments

TASCORP does not make any short-term incentive payments.

Termination benefits

Termination payments in the year reflect the payment of accrued annual leave and long service leave.

Acting Arrangements

When members of key management personnel are unable to fulfill their duties, consideration is given to appointing other members of senior staff to their position during their period of absence.

Individuals are considered members of key management personnel when acting arrangements are for more than a period of one month.

Related Party Transactions

There were no related party transactions.

For all Tasmanian Government businesses, related parties are considered to include:

- a subsidiary or joint venture;
- key management personnel or close family members of key management personnel;
- Ministers or close family members of Ministers;
- any entities controlled or jointly controlled by key management personnel or their close family members; and
- any entities controlled or jointly controlled by Ministers or their close family members.

Note 23: Related party information

The Corporation, as the central financing authority for the State of Tasmania, provides loans to and receives deposits from participating authorities. Details as at 30 June 2025 are set out in notes 10 and 12. All transactions are priced in accordance with the Corporation’s lending policy and deposit arrangements.

Note 24: Events occurring after balance date

The Corporation had no material or significant events occurring after the balance date.

Certification statement

In the opinion of the Directors of the Tasmanian Public Finance Corporation:

- (a) the financial statements and notes of the Tasmanian Public Finance Corporation are in accordance with the *Government Business Enterprises Act 1995*, including:
 - i) giving a true and fair view of the results and cash flows for the financial year ended 30 June 2025 and the financial position as at 30 June 2025, of the Tasmanian Public Finance Corporation; and
 - ii) subject to the Treasurer's Instructions, complying with the Australian Accounting Standards and Interpretations.
- (b) there are reasonable grounds to believe that the Tasmanian Public Finance Corporation will be able to pay its debts as and when they fall due.

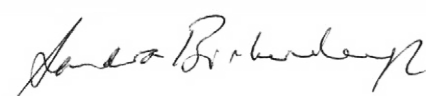

This declaration has been made after receiving the following declaration from the Chief Executive Officer and Chief Financial Officer of the Tasmanian Public Finance Corporation:

- (a) the financial records of the Tasmanian Public Finance Corporation for the financial year ended 30 June 2025 have been properly maintained in accordance with Section 51 of the *Government Business Enterprises Act 1995*;
- (b) the financial statements and notes for the financial year ended 30 June 2025 have been prepared in accordance with Section 52 of the *Government Business Enterprises Act 1995*; and
- (c) the financial statements and notes for the financial year ended 30 June 2025 give a true and fair view.

Signed in accordance with a resolution of the Directors:

G Swain
Chair

S Birkenleigh
Director

Independent Auditor's Report

To the Members of Parliament

Tasmanian Public Finance Corporation

Report on the Audit of the Financial Report

Opinion

I have audited the financial report of the Tasmanian Public Finance Corporation (the Corporation), which comprises the statement of financial position as at 30 June 2025 and statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, notes to the financial statements, including a summary of significant accounting policies and the statement of certification signed by the directors.

In my opinion, the accompanying financial report is in accordance with the *Government Business Enterprises Act 1995*, including:

- (a) giving a true and fair view of the Corporation's financial position as at 30 June 2025 and of its financial performance and its cash flows for the year then ended
- (b) complying with Australian Accounting Standards.

Basis for Opinion

I conducted the audit in accordance with Australian Auditing Standards. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of my report. I am independent of the Corporation in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to my audit of the financial report in Australia. I have also fulfilled my other ethical responsibilities in accordance with the Code.

The *Audit Act 2008* further promotes the independence of the Auditor-General. The Auditor-General is the auditor of all Tasmanian public sector entities and can only be removed by Parliament. The Auditor-General may conduct an audit in any way considered appropriate and is not subject to direction by any person about the way in which audit powers are to be exercised. The Auditor-General has for the purposes of conducting an audit, access to all documents and property and can report to Parliament matters which in the Auditor-General's opinion are significant.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Emphasis of Matter

I draw attention to Note 1 (d) of the financial report, which describes the Corporation’s application of Treasurer’s Instruction GBE-08-52-09P in respect of the Mersey Community Hospital Fund. My opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in my professional judgement, were of most significance in my audit of the financial report of the current period. These matters were addressed in the context of my audit of the financial report as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

Why this matter is considered to be one of the most significant matters in the audit	Audit procedures to address the matter included
Fair value of financial instruments not quoted in an active market <i>Refer to note 1(f), 1(h), 2, 3, 9, 10, 11, 13 and 14</i>	
<p>The Corporation adopted fair value accounting for the majority of its financial instruments with certain limited exceptions carried at amortised cost.</p> <p>As at 30 June 2025, the Corporation recognised:</p> <ul style="list-style-type: none"> Investments of \$3.72 billion. Of this, \$3.59 billion were valued using a yield curve derived indirectly from observable market inputs. Client advances of \$12.01 billion. Of this, \$11.91 billion was fair valued using discount rates which were derived indirectly from observable market inputs. Derivative financial assets of \$88.80 million and derivative financial liabilities of \$109.3 million, were not quoted in an active market and were fair valued using the Overnight Index Swap curve, which was derived from observable market inputs. Borrowings of \$15.14 billion. Of this, \$15.04 billion included borrowings not quoted in an active market and valued using a yield curve derived indirectly from observable market inputs. <p>In certain cases, mark-to-market valuation for financial instruments required significant judgement in the absence of prices quoted in an active market for identical financial instruments.</p>	<ul style="list-style-type: none"> Obtaining an understanding of the key processes and controls in place associated with management’s valuation of financial instruments. Using an auditor valuation expert to test, on a sample basis, management’s valuation of the selected instruments. This process included assessing the valuation methodology, and testing the inputs used by management in the valuation for the different types of financial instruments as follows: <ul style="list-style-type: none"> for level 1 financial instruments, agree the fair value to quoted market prices for level 2 financial instruments, testing the fair value by agreeing the inputs used by management to independent sources and independently re-performing the valuation calculation. Assessing the appropriateness of the related disclosures within the financial report.

Responsibilities of the Directors for the Financial Report

The directors of the Corporation are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards, and the *Government Business Enterprises Act 1995* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Corporation’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Corporation or to cease operations, or have no realistic alternative but to do so.

Auditor’s Responsibilities for the Audit of the Financial Report

My objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Corporation’s internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors’ use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Corporation’s ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor’s report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify my opinion. My conclusion is based on the audit evidence obtained up to the

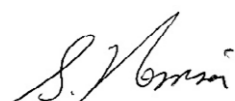

date of my auditor’s report. However, future events or conditions may cause the Corporation to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

I communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide the directors with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, I determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. I describe these matters in my auditor’s report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.
