Delta Apecialty Signs & Supply, LLC

A sign of Success

Was established in 1985 as a family business.

Before Delta Specialty Signs & Supply, LLC became a name known across the Rio Grande Valley and across the state, it was just an idea - and a leap of faith.

What started small, didn't stay small. From a small shop behind our home and a modest office in Elsa, Texas. In the past 40 years, Delta Specialty Signs & Supply, LLC has grown alongside the Rio Grande Valley, serving cities, counties, school districts, contrators, and law enforcement agencies across the entire region. The signs they created didn't just mark roads, They became part of the Valley's growth, it's infrastructure's safety, and it's progress.

But the real story isn't just about signs.

It's about the safety of our families on the road, our customers needs to complete their projects, and the kind of legacy that can't be measured in square footage or sales, but in impact, consistency, and the lives we touched along the way. Every day.

Delta Specialty Signs and Supply isn't just a business. It's 40 years of sacrifice, faith, and the belief that doing things the right way still matters.

Regulatory Signs

Correctional Industries' traffic signs comply with Federal and State guidelines, and are available in a wide variety of reflective sheeting. We make hundreds of signs that aren't pictured in this catalog, so if you don't see what you need please give us a call today.

Emergency Address Signs

Reflective address signs can save lives in the event of an emergency, by helping responders quickly locate homes in rural areas. Buy only what you need, or buy sign blanks along with reflective numbers and create them as you go. A variety of sizes and styles are available, so give us a call today and have us provide address signs for your residents and emergency personnel.

Sign Faces

Sign faces are available in a variety of materials to suit your specific needs. You can apply sign faces to aluminum sign blanks as well as other substrates, or use them as a decal. If you don't have artwork, we can custom design a sign to fit your needs.

Cut Letters and Numbers

Make your agency, product or service larger than life. Order only the characters or words you need. Our precision die-cut letters and numbers are available for application directly to sign blanks, buildings, doors, and more.

Decals, Stickers, Magnets & Window Clings

Full-color graphics can be applied to glass, vehicles, boats, helmets, or any other surface. Check out our easy-to-apply static window clings which can be removed and repositioned without damaging the surface.

SIGNS PRODUCTION

Custom Signs

From buildings to ballfields, entrances to events, and windows to walls, Correctional Industries creates beautiful graphics, signs and displays. Contact our full service graphics department for all of your visual communications needs!setup or design.

Block Watch Signs

Neighborhood block watch programs are very popular across the state, providing assistance to local law enforcement agencies and decreasing the crime rate in our communities. Call Correctional Industries with your neighborhood block specifications and order your customized signs today.

Banners

Draw attention and awareness to an event or organization — or promote your business, product or service. Our banners deliver stunning graphic quality everywhere you go and we never charge for setup or design.

Digital Printing

We have the ability to turn any artwork or photo into a digitally printed sign, display, or banner that will stand out with brilliance and sharpness. Whether you need one, or a hundred, we'll print any size, shape or quantity to bring your message to life.

Engraved Signs

Designed to be functional as well as tailor–made, Correctional Industries' engraved signs come easy to install. They are made of a durable plastic laminate that is easy to clean and will not crack, chip or peel. Standard materials, shapes, sizes, messages, symbols and ADA compliant Braille signs are available. Call today to discuss your project, price, and engraving requirements!

SIGN MAKING COMPONENTS

Aluminum — From 5052-H36 or H38 stable flat sheets, alodine 1200 conversion coated per TXDOT specifications. Available in thicknesses of .080, .100, and .125. All aluminum is cut to requested size, radius cut, and hole punched for mounting purposes.

3M™ Sheeting — Durable highly reflective sheeting used to cover signs. *(See Standard Retroreflective Sheeting Guide next page.)*

Electro Cut Film — A translucent colored film used for applications over High Intensity and Diamond Grade Sheeting.

Protective Overlay Film — Durable transparent film used to cover and protect signs.

Solvent Inks — Designed specifically for vinyl sheeting to ensure longevity.

SIGN RETROREFLECTIVITY REQUIREMENTS

One of the Federal Highway Administration's (FHWA) primary missions is to improve safety on the nation's roadways. To improve traffic sign visibility at night, the FHWA has adopted new retroreflectivity requirements. The latest revision of the Manual on Uniform Traffic Control Devices (MUTCD) introduces the new language for minimum retroreflectivity levels that must be maintained for traffic signs. The new MUTCD requirements are highlighted on the MUTCD web page: http://mutcd.fhwa.dot.gov/.

As part of the new requirements, agencies must establish and implement a sign assessment or management method to maintain minimum levels of sign retroreflectivity. The compliance date for meeting the minimum retroreflectivity requirements on regulatory, warning, and ground-mounted guide signs is January 2015. For overhead guide signs and street name signs, the compliance date is January 2018.

The new MUTCD requirements are defined in ASTM D4956. Sheeting types that can be used according to the new requirements are as follows:

- All prismatic sheeting materials may be used for all signs.
- High Intensity Beaded (Type III) and Super Engineer Grade (Type II) may be used for all signs except for the white legend on overhead guide signs.
- Engineer Grade (Type I) may be used for all signs except for:
  - the white legend on guide signs,
  - the white legend on street name signs, and
  - all yellow and orange warning signs.

Even though a particular type of sheeting might initially meet the minimum retroreflectivity levels when new, it may degrade below minimum retroreflectivity levels over time. The use of higher performance sheeting, even though it has a higher initial cost, might provide a better life-cycle cost for the agency.

CUSTOMERS WE SERVE

- State and local agencies, Federal Agencies

- Private contractors, Churches

- Institutions of education (Schools, Universities, Community and Technical Colleges)

- Tribal/Indian Nations

- Small Businesses

INTRODUCTION

Delta Specialty Signs & Supplies is proud to say we have been in business since 1985. Our up-todate equipment enables us to manufacture signs quickly and meet your schedule at a savings to you.

We manufacture and distribute Traffic Control Signs and Devices as well as Safety Cones, Barricades, Barrels with Tire Rings, Construction Signs, Cast Metal and Plastic letters, Banners, Decals, ADA Signs, Window and Vehicle Graphics and much more.

All signs meet specifications of the Texas Department of Transportation (TXDOT) and Manual of Uniform Traffic Control Devices (MUTCD) published by the Federal Highway Administration (FHA). MUTCD is the national standard for all traffic control devices on any street or highway open to public travel.

We also have the ability to work with our customers to create a variety of custom signs. If you don't find what you are looking for, please contact us by phone or email and we will gladly assist you with all your sign needs.

MISSION STATEMENT

We at Delta Specialty Signs & Supplies pride ourselves in our product Quality and our Turn Around time. Our Goal is to manufacture and/or deliver in house orders within a 3 to 7 days period.

We are committed in our vision of working together for a safer community. We continue to expand our training program and instill positive work ethics and reduce the burden of corrections.

Delta Specialty Signs & Supplies
Guiding you for over 35 years

MISSION STATEMENT

We at Delta Specialty Signs & Supplies pride ourselves in our product Quality and our Turn Around time. Our Goal is to manufacture and/or deliver in house orders within a 3 to 10 days period.
(Specialty orders may take longer)

We are committed in our vision of working together for a safer community. We continue to expand our training program and instill positive work ethics and reduce the burden of corrections.

SIGN MAKING COMPONENTS

Aluminum — From 5052-H36 or H38 stable flat sheets, alodine 1200 conversion coated per TXDOT specifications. Available in thicknesses of .080, .100, and .125. All aluminum is cut to requested size, radius cut, and hole punched for mounting purposes.

3M™ Sheeting — Durable highly reflective sheeting used to cover signs. *(See Standard Retroreflective Sheeting Guide next page.)*

Electro Cut Film — A translucent colored film used for applications over High Intensity and Diamond Grade Sheeting.

Protective Overlay Film — Durable transparent film used to cover and protect signs.

Solvent Inks — Designed specifically for vinyl sheeting to ensure longevity.

INTRODUCTION

Delta Specialty Signs & Supplies is proud to say we have been in business since 1985. Our up-todate equipment enables us to manufacture signs quickly and meet your schedule at a savings to you.

We manufacture and distribute Traffic Control Signs and Devices as well as Safety Cones, Barricades, Barrels with Tire Rings, Construction Signs, Cast Metal and Plastic letters, Banners, Decals, ADA Signs, Window and Vehicle Graphics and much more.

All signs meet specifications of the Texas Department of Transportation (TXDOT) and Manual of Uniform Traffic Control Devices (MUTCD) published by the Federal Highway Administration (FHA). MUTCD is the national standard for all traffic control devices on any street or highway open to public travel.

We also have the ability to work with our customers to create a variety of custom signs. If you don't find what you are looking for, please contact us by phone or email and we will gladly assist you with all your sign needs.

Thank you for allowing us to help you achive your goals.

MAGNETIC SIGNS

In 1977 Martin Peña started working as an installer for a company that sold school furniture. During the time that there was no installations, he would sell school furniture to the different school districts.

In the early part of 1985 Martin went to visit a customer to offer school furniture, the assistant principal that he visited that day told him they didn't need furniture but they were in need of signs for their parking lot. He said " If you can get me these signs, I'll buy them from you".

And that's exactly what he did. Martin had worked for a metal company in the l ate 1960's to mid 1970's so he had experience in that field. Not necessarily signs but metal is metal.

Martin did research about signage, ordered materials and with the help of his wife and kids, started producing signs by hand at home. As time and resources allowed we rented a small office in Elsa, TX. The name Delta came to be because Martin is originally from the Delta area and very proud of his heritage. We build a small shop behind our house and bought equipment as we could. In 1995 we bought our current location in Edinburg, TX.

We have continued to grow and updated our equipment and our knowledge in the sign industry, MUTCD and TXDOT requirements. Everyday we learn something knew and everyday we educate our staff in any changes or updates that are required. We instill responsibility and pride in our staff of a job well done and the importance of keeping our customers and the public safe. After all, it's our loved ones traveling those roads, your kids, my kids, grandkids, parents, our loved ones. Your safety is our number one priority.

Thank you for your business and we look forward to hearing from you.
