

Why choose Alternative Home Health Care?

Alternative Home Health Care is a home health agency owned and operated by nurses with 20 years experience in healthcare with the last 10 years specializing in home care management. We provide in-home nursing and rehabilitation care for those with medical and or mental illness. We seek to be an alternative to more structured health care settings for those who wish to remain in their home and the community.

It is our experience that a company is not successful without strong leadership and a great team of employees. We pride ourselves on carefully selecting and training qualified health care professionals to be a part of our dedicated team. Our team is made up of Registered and Licensed Nurses, Physical and Occupational Therapist, Social Worker, and Home Health Aides. We employ bilingual staff to meet the needs of the communities we serve.

We have permanent staff on weekends and evenings and have an RN on call 24/7 to provide that added support to our patients, families, and referrals sources. We believe strongly in keeping things as consistent as possible for our patients.

A referral can be made by anyone: a provider, a family member, even the patient him/herself.

For more information or to make a referral contact us at **978.657.7444**

We are Medicare/Medicaid certified and insured. We welcome any and all feedback to improve ourselves as professionals and as a company.

Communities We Serve

Entire state of Massachusetts.
New Hampshire: Salem, Plaistow, Atkinson,
Newton, Seabrook, Nashua, Hudson and Pelham.

Alternative Home Health Care accepts clients for services based on a reasonable expectation that the client's medical, nursing, and social needs can adequately be met in the client's place of residence.

Our Values

- Respect and value one another as unique individuals and practice open and honest communication.
- To look beyond the obvious solutions and accept accountability for delivering positive outcomes for our patients.
- To always do the “right thing” and advocate for our patients.
- Care for our patients with compassion and openness while striving to exceed their expectations.

Our Goals

We strive to build strong relationships with our patients, staff, referral sources and to give back to our community whenever opportunity is there to do so. We seek to minimize inpatient hospitalizations and ease the transition from acute or rehab settings back to the patient's home and community. We strive to be recognized by the community for our passion and commitment to serve, help, and improve the quality of life and well being of others. Also, we will foster an empowering work environment for our staff that promotes professional growth, continuous learning, and a team atmosphere and approach. We seek to inspire, lift and provide the tools and skills to our patients and staff to reach their goals.
