

HEALTH & SAFETY POLICY

The GB POD Training Group is a voluntary Group, with no paid employees, that promotes carriage driving training in the UK. The club is affiliated to British Carriagedriving. The Club recognises that when organising and running training events, the safety of its members, supporters, and the general public is of great importance.

To this end the Group:

- Expects all its members to show consideration for matters of safety, relating to both themselves and others at all events, and, to comply with all reasonable requests relating to safety from Event Organisers.
- Health and Safety considerations are always given priority in planning, designing, organising, running and participating in the activities of the Group.
- Julie Camm is the Group safety officer who is responsible for coordinating safety within the club, acting as a point of contact within the group for external organisations, on matters of safety, and for promoting safety amongst the group members.
- A safety risk assessment is completed prior to using new facilities for each Pod Group location and it is expected that any resultant action-points are implemented prior or during the training as appropriate
- All new POD members have an Assessment for competency and safety prior to being allowed to join.
- The Group regularly reviews matters relating to Health and Safety.
- This policy will be displayed at all POD events

J Camm

Organiser & Group Health & Safety Officer
