

Securin

Adhesive Remover Spray

The smart choice for safe and effective removal of plasters, adhesive products, and dressings from the skin.

- ✓ **Precise application** – Directional nozzle ensures targeted, effective, and easy use
- ✓ **Improved environmental profile** – Mechanical pump, free from environmentally harmful propellants
- ✓ **Easy disposal** – Empty spray bottles can be disposed of as plastic waste – not as chemical waste like propellant-based sprays
- ✓ **Full use of contents** – Accurate dosing and application. The bottle can be fully and easily emptied
- ✓ **Cost-effective** – Available in multiple sizes, optimized content usage, and minimal waste

Introducing something completely new: 5 ml adhesive remover spray bottle:

Securin Adhesive Remover Spray - 5 ml

This solution minimizes waste, prevents cross-contamination, and ensures optimal hygiene – **one bottle per patient** for maximum safety and efficiency.

50 ml: Ref A011 / 5 ml: Ref A012
