- BG Workforce provided IT support for software deployment

- BG Workforce provided on-site support of Gemini™ shop-floor rollout

- BG Workforce provided on-site training of users & content creators

- Customer sign-off prior to delivery indicating satisfaction with asset content & quality

Gemini™ Definitions & Specifications
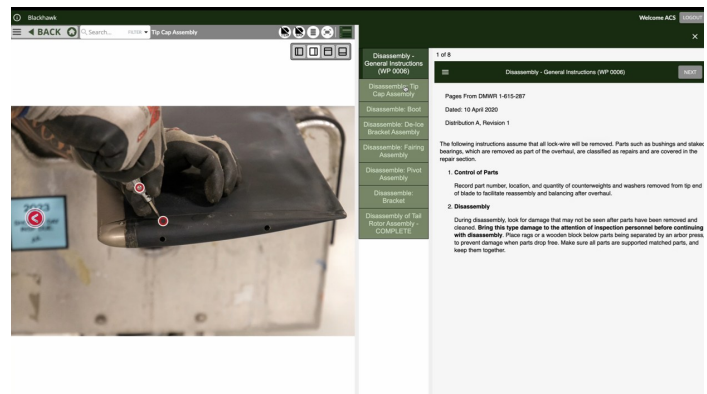

Gemini™ Asset Initial Delivery:

- Digital representation of a physical asset inside the Gemini™ software application

- Fully navigational (up to 50 zones)

- Items tagged & labeled with content association (up to 150 pieces of associated content)

- Integrated procedures with training & support content (up to 8 agreed-upon procedures/work packets)

  - The set of procedures must be agreed upon between the customer & BG Workforce prior to project start. Reasons for this include: availability of physical assets, technical documentation access, logistics, scope creep.

Figure 1 — Gemini™ Asset View
