

Significant Advances in Flexible Litters

1 FAST

- No assembly required
- Integrated Hoist System for quick lifting (pre-assembled)
- Requires minimum deployment training

2 LIGHTWEIGHT

- Weighs less than 17 lbs.
- Fewer components enabling immediate deployment

3 STRONG

- Utilizes High Density Polyethylene, a more durable material
- 9,000 lb. rated perimeter tether secures the warfighter expediting the evac process
- Utilizes 4,000 lb. rated cross straps with side release buckles for ease of use
- Decon Capable

4 INTEGRATED HOIST SYSTEM

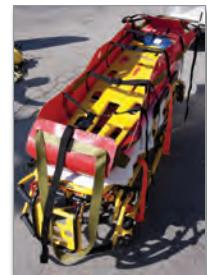

- Vertical - Horizontal Lift capability
- Hoist system rated to 9,000 lbs.
- Helicopter hoist straps included with every sled
- No assembly required at time of extraction

Introducing Med Sled.® "Vertical Lift" Rescue Sled, an innovative, cost effective device designed specifically for rescue with vertical or horizontal lift operations. Med Sled.® Vertical Lift Rescue Sled gives you all the functionality of conventional rescue sleds with a less complicated, more durable system, all for a better price.
