

Versal System

The Versal System, designed by Diane Hindson of County Durham & Darlington NHS Foundation Trust & developed by GBUK Banana, is a moving & handling slide sheet with a difference.

Versal replaces the need for multiple flat or tubular slide sheets. The patented design facilitates a full range of patient movement with the versatility of both flat and tubular sheets.

Versal is a single sized sheet, placed under the patient in the same position, for every procedure.

Patient Repositioning

Repositioning Devices From GBUK Banana Offers

- ✓ Innovative products that have been developed by expert clinicians
- ✓ Advanced materials & design technology
- ✓ Scope for full compliance with manual handling techniques
- ✓ Potential to reduce the risk of injury and increase efficiency & standards in practice

Product Features

- ✓ Simplifies and helps reduce confusion of slide sheet selection by having one sheet for all repositions medially and laterally
- ✓ Improve patient safety by ensuring all bony prominences of the patient are protected by two layers of slide sheet
- ✓ Can improve patient comfort, reduce nursing time and improve efficiency of care
- ✓ Can help reduce the hidden costs of pressure ulcers or an MSK injury

Banana Versal

Helps reduce the risk of injury

Helps avoid hazardous manual handling operations

Helps make proper use of equipment provided for safety

Helps ensure that activities do not put others at risk
