

Grafton Primary Assessment Outcomes 2025- 2026

The outcomes shown here track data for the last 3 years.

Key Stage Two (KS2)

The KS2 tests are designed to test pupils' knowledge and understanding of the KS2 programmes of study. Children in Year 6 undertake these tests and each test is administered on a specified national date. The tests are marked externally and the results are reported to schools. **Writing results** are based on **Teacher Assessment (TA)**, which is based on a variety of work that the children have produced throughout the academic year. The KS2 Tests consist of one **English Reading** paper, two **English Grammar, Punctuation and Spelling (GPS)** papers and three **Mathematics** papers (one on Arithmetic, two on Reasoning). Children are reported as working below, at or above (greater depth) the expected standard for the end of Year 6. We calculate the % of children who achieved the expected standard or above in all areas (including GPS). Children's results are reported using a '**Scaled score**'- this reflects their 'raw' score achieved on a test. For KS2 tests, a scaled score of 100 represents achieving the '**expected standard**'. Below you will also see the school's '**average progress score**' – this reflects the cohort's average progress made when comparing to other children with similar starting points nationally:

- A **score of 0** means pupils in this school on average do about **as well** at KS2 as those with similar prior attainment nationally.
 - A **positive score** means pupils in this school on average do **better** at KS2 as those with similar prior attainment nationally.
 - A **negative score** means pupils in this school on average do **worse** at KS2 as those with similar prior attainment nationally.
- A negative score does not mean that pupils did not make any progress, rather it means they made less progress than other pupils nationally with similar starting points. (Primary Progress Measure, DFE 2016)

For example, a score of - 4 would mean that on average, pupils achieved 4 scaled points less than other pupils nationally with similar starting points.

Phonics Screening

*This is a test which is taken by children in Year 1. The test is made up of 40 words (20 real words/20 Pseudo words). It is a short assessment which is administered every June to ensure that children have learned phonic decoding to an appropriate level (this is the ability to use letter-sound knowledge to correctly pronounce written words). The children had to achieve a score of 32 to pass the Phonics Screening. For those that do not achieve this mark, they will **re-take** the Phonics Screening in Year 2, with the expectation of passing.*

EYFS

*Children are defined as having reached a **Good Level of Development (GLD)** at the end of the EYFS (Reception year) if they have achieved the expected standard - **Early Learning Goals (ELGs)** in Communication and Language, Personal, Social and Emotional Development, Physical Development, Literacy and Mathematics (12 ELGS in total). For each ELG, a practitioner must make their judgement based on a variety of sources of evidence.*
