Service Consulting

Energy Solutions

We offer expert consulting and product selection for energy-related applications, ensuring efficiency, safety, and optimal performance.

Our solutions include:

- **Equipment Supply & Technical Specifications**
- **Product Selection Guidance**
- **Gas Filtration Systems**
 - Gas Filters
 - Gas Purifiers
 - Gas Dryers
 - Gas Separators
 - Gas Exchangers
- **Fuel Treatment**
 - Fuel Filters
- **Lubrication Management**
 - Lubricant Filters
- **Liquid Treatment Systems**
 - Liquid Exchangers
 - Liquid Dryers
 - Liquid Separators
- **Dehydration Systems**
- **Gas Generation & Purification Units**
- **Process Control Components**
 - Valves and Process Valves
 - Pumps and Compressors
- **Primary Measurement Elements**

Service Consulting

Bioscience Solutions

Specialized support and equipment for biotechnological, pharmaceutical, and laboratory applications. We help ensure purity, safety, and compliance with high standards.

Our solutions include:

- **Filtration & Separation Technologies**
 - Filters and Separators for Molecules and Microorganisms
 - Centrifugal Separators
- **Fluid Handling Components**
 - Valves and Solenoid Valves
 - Pumps
 - Vacuum Generators
- **Mixing & Processing Systems**
 - Mixing, Agitation, Dispersion, and Homogenization Equipment
- **Thermal Exchange**
 - Heat Exchangers
- **High-Purity Gas Systems**
 - Pharmaceutical-grade Gas Generators
- **Cleaning Solutions**
 - CIP (Clean-In-Place) Systems
