

**Upright Monuments** are placed above ground with a foundation underneath. The granite can come in a variety of shapes, designs and sizes and made to be a single or companion memorial.

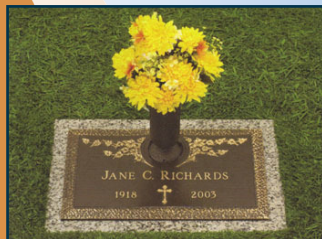

**Bench Memorials** are a beautiful statement in any location and come in many sizes and shapes

Ask about a **Columbarium** specifically for Cremations. We have many cremation options available.

**Bronze Markers** are timeless and can be a flush marker or a plaque added to any shape granite memorial.

Step 2: Choose a design and personalize your memorial

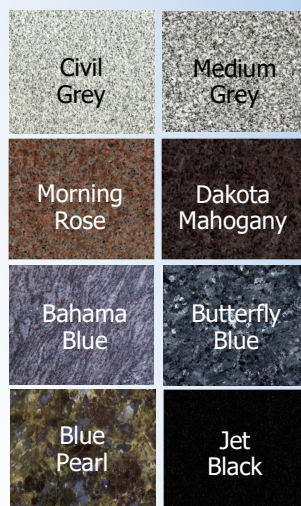

Step 4: Discuss payment

Step 5: Proof approval

Step 6: Submit order

## Granite Colors

There are many color to choose from. Below are just a few.

## Types of Memorials

We offer a wide range of options to create a story that will last forever. Each memorial is a unique, family treasure that will last for generations to come.

**Flush Markers** are placed in the ground.

The face of the marker is flush with the ground.

**Slant and Bevel Markers** are midway in height between flush grave markers and uprights. They are placed above ground with a foundation underneath. Standard bevels measure 2 inches higher in the back and the face has a slight slant. The standard Slant marker is 16 inches higher in the back.
