

RENEWABLE RESOURCES TRANSFER STATION

ARCHITECTURE, ENGINEERING AND CONSTRUCTION MANAGEMENT

RENEWABLE RESOURCES LLC

Jerry Aigner Construction, Inc. designed and managed the construction of a new waste transfer station for Renewable Resources LLC. In addition to the transfer facility, Jerry Aigner Construction also designed and built an additional covered truck parking, along with a mechanic shop, wash bay and additional offices. All architectural and engineering was performed in house as well as the construction and management of all sub contractors.
