

HARD LIDS

MAXIM

Strong and durable, MAXIM Hard Lids are all about making life easy.

Each lid design is **model specific to fit your ute**, so they're weather resistant and secure.

The unique **quick release system** on the standard lid means removing it is fast and easy. There's **central locking** as an upgrade if you want it too.

You can customise your lid with **tie down rails**, **ladder racks**, **storage boxes**, **lashing rings** or **dog latches**, so your best mate gets a good view too.

Our lids are an attractive addition to any vehicle and you can even get **your company name added to the tie rails**.

MAXIM Hard Lids are easy to order and fast to dispatch, so you'll **have your gear dry and secure in no time**.

“It’s awesome, I give it absolute
sh*t and it handles it, no worries.
It’s bloody easy to take off too.”
