

# Sweet 'n' Loam

4-0-3 with 1% Sulfur • 35% Cane Molasses

Sugar Creek Ag Sweet 'n' Loam has a 4-0-3 analysis with 1% Sulfur and can be used on all crops. It can be applied by itself or in combination with other liquid fertilizers. Cane Molasses provides carbohydrates to both the plant and microbes present in the soil.

**DIRECTIONS FOR USE ON ALL CROPS:**

**WITH STARTERS:** In furrow or 2x2 apply 1 to 4 quarts per acre.

**WITH LIQUID NITROGEN:** Apply 2 to 8 quarts per acre.

**FOLIAR:** Apply 1 to 4 quarts when added to other foliar nutrient products, and 2 to 8 quarts per acre when it is applied as the only nutrient product. Foliar apply during vegetative stages on all crops and after each cutting on hay and alfalfa. Apply every 30 to 45 days on pastures.

**TURF AND ORNAMENTALS:** Apply 1-2 oz/1000ft<sup>2</sup>. Apply .5 to 1 oz/gal of water in drip or drench applications. Applications can be made as often as needed, depending on the amount of growth desired.

**NOTES:** Conduct a jar test prior to mixing in the tank with any other products. Apply with 10 to 20 gallons of water. Can be applied with other Sugar Creek Ag products and most herbicides, pesticides, and fungicides. Can be applied through drip or overhead irrigation. Settling may occur in the container; agitate before use. Do not allow to freeze. If diluted with water, use within 72 hours of mixing. **May increase brix levels in pastures, do not apply where horses are grazing. For more information, consult your dealer or Sugar Creek Ag representative.**

**GUARANTEED ANALYSIS:**

Total Nitrogen (N).....	4%
4% Urea Nitrogen	
Soluble Potash (K <sub>2</sub> O).....	3%
Sulfur (S) .....	1%

Derived from: Cane Molasses, Urea, Sulfuric Acid

**BULK WEIGHT/GAL: 11.3 LBS AT 68°F**

**GENERAL INFORMATION:** Sugar Creek Ag suggests growers conduct soil tests and amend the soil accordingly. This product should be applied as a supplement to your overall fertility program. We suggest conducting a jar test prior to mixing with other ingredients to establish compatibility. If the solution is left in the spray tank overnight, agitate thoroughly before spraying. To avoid crop damage due to high temperatures, it is suggested to apply early morning or early evening. Product should not be stored where freezing is possible. Product may settle in storage and should be agitated before use.

**WARRANTY AND CONDITION OF SALE:** Manufacturer warrants that this material conforms to the chemical description on the label, and this product is reasonably fit for use as directed. No other warranty is made, either expressed or implied. Buyer acknowledges and assumes all risk and liability resulting from handling, storage, and use of this material. Manufacturer shall not be liable for claims resulting from use of this product not in accordance with the general information, application directions, and warnings on the label.

**WARNING: KEEP OUT OF REACH OF CHILDREN.** In case of contact with eyes, flush with water. Contact physician if irritation persists. Dispose of container in accordance with local, state, and federal regulations.
