

## CAL MAGIC | IN SEASON GUEST TRAINING POLICY

Our **in-season guest training policy** prioritizes Magic and non-Magic players and teams who are actively in season.

For this reason, we do not accept affiliated guest players into our training environment or provide permits for players to guest train during the season.

If players or families from outside the club reach out, we guide them to visit and observe training sessions from outside the field. However, we do not allow guest participation in training. We recommend the same approach for our own players who may be exploring other programs.

If a player is considering a move beyond observation, a formal release must be requested through club administration. Please submit your request at

 [info@calmagicsc.com](mailto:info@calmagicsc.com)

Once the process is completed, the player is free to register with another organization.

These procedures are in place to maintain clarity, professionalism, and to support the best interests of all players. Parents always retain the right to withdraw their child from the program at any time.
