RV Condominium Association

Fall 2024

It is time to prepare for a change in climate, family and friends. On behalf of your Board of Directors I send best wishes for safe travels and good health.

Many reminders have been posted on social media and printed signs to make our season in Willow Run fun and safe. We will continue to work to make the park as welcoming to all who come through our entrance way.

With the road work completed we will be able to concentrate on our entrance from Highway ES. Our streetlights will be up and running in addition to beautification of the area with the seasonal plantings and trimmings.

As we have learned this year, we are bound by the weather therefore we will have activities that are basically in the clubhouse on the activity page and share the month only for others that are in the planning stages. Some surprises and some favorite activities for adults and children. So, keep that calendar open for weekends of fun with your neighbors in Willow Run.

Our time is so precious, and we appreciate all the time you give to us for meetings, volunteer projects, and your participation in all our activities. Thank you to all who have shared the special camping season with all of us to make Willow Run a great place to bring family, friends and neighbors together.

The Declaration Committee will be working on policies that were recommended by the lawyers and Rules to create a better fit with the approved revised Declaration and By laws through the cold months ahead. Hopefully a presentation will be ready for the Informational Meeting Saturday, May 24, 2025 in addition to the nominations for 2 positions on the Board.

Respectfully yours,
Connie F. Dymek
