

To all our Neighbors,

Happy Fall. SAFE TRAVELS to all as you leave Willow Run for your Off-SEASON HOMES. It is always sad to say Good-Bye so we will say, "See you in the Spring."

We have tried to complete the awesome task of updating our Declaration. You can still help us. If you need clarification on specific items please contact any Board Member for an explanation. This document is necessary for our Condominium to be current and registered in the county. This is not a political statement it is a business document. It protects the owners and our land. It makes us current with Wisconsin statutes. It will allow for Land Contracts, which are not allowed in the 1982 version. It will allow us to use the most current methods of communication available, also not included in the 1982 version. Even the corporation's name is not included in the 1982 version. Many restrictions have not been followed and without the suggested adjustments we proposed, voted, and explained with Legal representative, Lydia, the Association is vulnerable to claims of arbitrary enforcement. So please help us complete this task so we can move on to the next projects necessary for our continued success.

This has been the year of the VOLUNTEERS. We would need additional pages to list all who spent more of their free time helping to make the park beautiful, successful, safe and fun. Volunteers sent many suggestions to us for new activities for the 2026 season and the Activity Committee worked to put together the tentative schedule of events we would like to enjoy in the season. If you are interested in running with one of the new ideas or working with any committee now is the time to contact us with your input. Hopefully the weather will be more kind to us in 2026. If we all work together everything is possible.

On behalf of your Board of directors I remain respectfully yours,

Connie Dymek
