DYSTROPHIC NAIL DNA TESTS

>250,000,000
IN-NETWORK LIVES COVERED

**Since our founding in 2008*

- ✓ We are the pathology leader in nail, nerve, skin, soft tissue and bone of the lower extremity, contracted with all five national health plans.
- ✓ Our team analyzes more nail specimens than any other laboratory in the nation.
- ✓ Led by a highly-trained team of board-certified dermatopathologists and pathologists, who are accessible and eager to help.
- ✓ Unparalleled research and development for podiatric diagnostics, driving innovation and testing excellence.

BakoDx's Full-service Diagnostic Testing Includes:

Anatomic Pathology

Board certified dermatopathologists and pathologists provide expert interpretation and consultation, including full-service histochemical and immunohistochemical stains.

DNA

A streamlined workflow that is rapid and cost-effective, enabling targeted therapy to the etiologic organism, with 2-day turnaround time.

Microbiology

In-house mycology and bacteriology testing is offered with industry leading turnaround times and unparalleled accuracy.

Epidermal Nerve Fiber Density

Pioneers in the development and use of ENFD testing for the diagnosis of Small Fiber Peripheral Neuropathy.

BakoDx is Dedicated to Podiatric Education

BakoDx gives back generously to the podiatric profession, at a level far greater than any other diagnostic testing laboratory.

Our support is provided through educational grants to the Bako Medical Educational Foundation, sponsorship of numerous podiatric medical conferences, educational support at the nine schools of podiatric medicine, and our podiatric dermatology-dermatopathology fellowship program.
