We Enhance Your Web Presence to Attract More “Ideal Patients”

Fresh, Valuable, and Consistent Content is at the Heart of Our Business.

The most important SEO (Search Engine Optimization) strategy Podiatrists can employ is to continually offer relevant, searchable content -- blogs, articles, photos, infographics, and videos.

We provide weekly fresh content for your website, an educational blog, and an article. We'll also push that content out to Facebook and Twitter for you, boosting your reputation as a trusted and knowledgeable doctor.

Having a Great Podiatry Website is Vital to Your Bottom Line.

At Podiatry Content Connection, we know how to create sites that attract ideal new patients, enhance your reputation and keep your patient pipeline flowing. We only serve Podiatrists.

Our sites are:

- Welcoming and Modern
- With continuously added quality content
- Search Engine Optimized
- Mobile Responsive & SSL Secure

Directory Optimization Increases Your Visibility

We optimize your business listing on 70+ Directory Sites from MapQuest to Google My Business! We claim your existing listings, add new ones, eliminate duplicates, and create a consistent, accurate portrait to present to patients across the web. Use our scanner to compare before and after results! Directory optimization is an important path to online visibility and access.

Google Ads Designed to Quickly Deliver New Patient Appointments and Leads

Dominate Page 1 of Google by jumping to the top of the page! Add our ads, which laser target a specific type of patient within a specific geographical area, to your organic results for profitable clicks!

Effective Reputation Management - Build Confidence Online

Take charge of your reputation now and promote your practice with our two algorithmically-driven patient review request systems that drive 4+ stars reviews and targeted comments to where you need them most online. Don't allow years of hard work to be discredited because of negative Google reviews. Receiving more 5 Star ratings and legitimate positive reviews can help you regain control of your own story.
