Work done: Removed old shingle roof and replaced with standing seam metal roof. Replaced gutters with seamless gutters. Replaced skylight. Replaced fascia.

The representative from Martin Contracting was easy to get in contact with and fielded any concerns I had. The work crews were professional and punctual. The work looks great. No noticeable problems with the roof after several severe rain storms.

We had three leaking sky Lites replaced in July off this year.. Every aspect of the job was performed with expertise. Professional workers all the way. In and out in one day all was cleaned up and workers were very nice. Thanks for a job well done. Milt Rodgers

We had Wayne build us a 40 x 48 garage. The whole process from start to finish went smoothly. The garage is beautiful. Wayne addressed any concerns we had and made sure we got exactly what we wanted. highly recommend and look forward to working with him again.
