WE WILL BE LEARNING ABOUT:

We have just wrapped up an amazing academic year and are excited to begin our first summer session!

This summer, children will learn about farm animals while continuing their Montessori work time. Through hands-on activities, creative crafts, and engaging lessons, children will explore the world of farm animals and bring the theme to life.

We also have many fun and enriching activities planned throughout the summer, creating opportunities for learning, discovery, and enjoyment. We look forward to a wonderful summer filled with growth, creativity, and adventure!
