

MSSC JUNE

newsletter

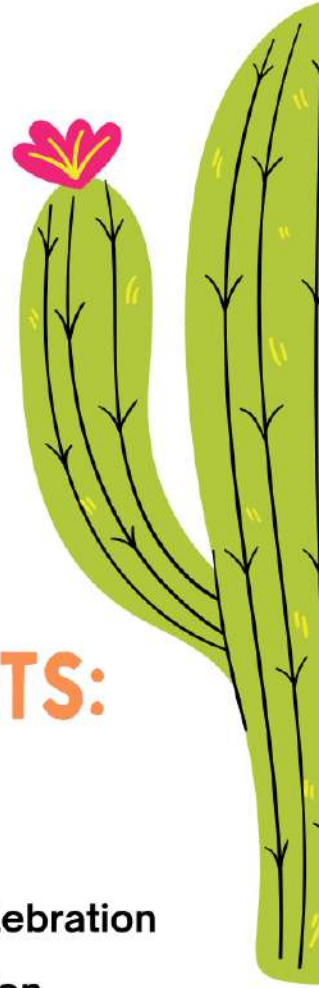

WE WILL BE LEARNING ABOUT:

As we wrap up our academic school year, in the month of June, the children will be learning about ocean life. They will explore the different ocean zones and discover what types of animals live in each zone.

The children will also review the continents and, throughout the month, learn more in-depth about important landmarks around the world.

In addition, they will have the opportunity to create their own artwork inspired by Henri Matisse, exploring his bold colors and creative style. As the end of the month approaches, please keep in mind our End of the Year Party. More details will be shared soon—we look forward to celebrating together!

UPCOMING EVENTS:

- 5/26-6/1 - Parent Teacher Conference
- 6/11 - 6/12 - Father's Day Celebration
- 6/19 - Kindergarten Graduation
- 6/26 - End of the Year Party
