

SEPTEMBER

newsletter

IMPORTANT INFO:

Welcome Back!

We had an amazing summer session, and we are so excited to begin a wonderful new academic year! September is a time for new beginnings, building relationships, and getting to know one another.

To kick off the year, our teachers will be working on **“All About Me” projects**. These fun and meaningful activities will give each child an opportunity to share more about themselves, their families, their interests, and the things that make them special. It will also help our teachers learn more about each individual child as we begin the year together.

Our September Exploration: Apples!

This month, we will also be exploring **apples**! Through hands-on activities, stories, art, and classroom discussions, the children will discover all about apples and how they grow.

Some of the things we will explore include:

- The **life cycle of an apple**
- The different **parts of an apple**
- How apples grow from a seed into a tree
- Different types, colors, and tastes of apples
- Apple-themed science, sensory, art, and literacy activities

We look forward to a September filled with **learning, discovery, friendship, and lots of fun!** Thank you for partnering with us as we begin another exciting academic year. We can't wait to see all the wonderful things our children will learn and accomplish this year!
