WELCOME TO ANOTHER ISSUE OF STREET BAGGER MAGAZINE! WELCOME TO YOUR ADDITIONAL CUSTOM BAGGER FIX, WE DON'T WANT YOU GOING INTO WITHDRAWAL FROM URBAN RIDES MAGAZINE! SPEAKING OF, LET THIS ISSUE GET YOU WARMED UP BECAUSE WE HAVE SOME KILLER CONTENT COMING DOWN THE LINE FOR YOU GUYS SO STAY TUNED. OF COURSE I HAVE TO REMIND YOU THAT OUR LATEST & GREATEST SPECIAL PRINT EDITION IS CURRENTLY AVAILABLE AT:  
[URBANRIDESMAGAZINE.COM](http://URBANRIDESMAGAZINE.COM) - AND VERY SOON TO A NEW STREET BAGGER WEBSITE...

I'm not gonna lie, it was hard enough writing an Editor's column every month, now I have to do it twice! Shoot, sometimes I wonder if anyone even reads this part.

Let's face facts, half the time it's just me thanking all you guys and being appreciative for all the support we get. It never gets old being grateful for all the love you guys show us.

Speaking of that love, let me just give a big shout to all of you that checked in on me for the last two months. For those of you that don't know, I was in a bike accident that left me with a healthy recovery time. Fortunately I'll be OK and am healing fast...unfortunately you won't see me on two wheels for a while.

Thank god we have the man in constant movement, Dan Robey. I don't know what batteries this man has, but I'm pretty sure Limitless Lithium has some prototype stuff they installed in Mr Robey at one of the rallies. If you haven't seen him, you haven't been out, because he's damn near everywhere. Can't thank him enough for all he does to support & grow these magazines!

So, I'm not going to get too deep here, because I did a little of that in the last issue of Urban Rides. While I'm typing this I'm also messaging another industry guy going through a similar experience. Tim Heger from SMT Machining also went down and is also dealing with some serious and frustrating injuries. Why do I bring this up? As a reminder that an accident can happen to anyone, anytime. I'm not saying this to be negative,

## Grateful.

as a matter of fact it's the opposite. Always cherish you the ones you love because you never know what's going to happen when you walk out that door. Every day is a gift from the man upstairs so be grateful!

On that note, I better get moving and this new mag published! All you party people enjoying Thunder Beach are waiting on this sucker to go live!

-LL-

# GOT ENOUGH JUICE?

## LIMITLESS

LITHIUM

10+ YEAR LIFE SPAN  
3 YEAR WARRANTY  
TRUE 40 AMP HOUR  
IP66 CERTIFIED

Limitless Lithium is proud to introduce another great addition to the "Nano" powersports and motorcycle series line-up! The new Nano-HD XL is one of the first ever waterproof IP marine certified powersports battery that has a full battery management system (BMS) built into the battery. A BMS monitors all the important aspects of the battery like high/low voltage limits, high temperature and direct short issues. If at any time the battery is subjected to a condition that is unsafe it simply turns itself off. For full details and specification, please visit our website to learn more.

**NOTABLE APPEARANCES AND/OR AWARDS:**  
 Master Builder Award and Multiple Audio Trophies

**STORY OF THE BIKE/BUILD:** I've been building bikes for twelve years and each year it progresses bigger & bigger. I sold my last custom bike with the intention of building an audio monster. I had this bike delivered from Kentucky and immediately got to work. Kody from Voodoo and Troy at Audio Concepts were on the same page, big shout out to those guys! The total build was done after my full-time job and on weekends. Once I got the look right, it was off to Audio Concepts for Troy and his team to get the audio on the right level.

Huge thank you to my wife, Laura, for always having my back and being my biggest fan. Also a big thanks to everyone that played a part in making this bike what it is. -Ryan

**AUDIO SYSTEM:** Soundstream, Hertz

**STORY OF THE BIKE/BUILD:** It's actually a funny story, but also something we can't put in a magazine! My father has a custom Harley with an Irish Leprechaun theme and I knew I'd built my own custom bike one day. The build happened sooner than later due to the circumstances. I saw a bike on one of Bad Dad's sales brochures with an orange themed bike and decided I wanted to mirror that theme. From there it turned into viewing a variety of products from other builders and incorporating them into this build. I turned to John Daley from Execution Cycles to complete the vision because I know the level of passion he puts into his motorcycles. -Josh

STORY OF THE BIKE/BUILD: I've always loved the look of a stretched out Road King, but I've also been in the audio scene. This started out as a challenge to build a non-fairing audio competitor with no visible speakers. After a lot of work and tuning, I think we got it! -Nathan
