# HEAT.

Alright kids, I'm keeping this one short & sweet. Why? Because it's hot outside, and hotter in this issue! (see what i did there) Really though, we have some serious heat in this issue.

Beyond the rise on the thermometer, we have a sort of...unplanned theme: double time. We start with a double pack from PDR performance, then roll into a pair of serious badassery in the big wheel world from TSI Baggers and SSC, and finish with husband-and-wife features. So yep, we're seeing double this month.

So, we're overheated and seeing double, maybe it's time to call the doctor? Nope, the prescription is more custom goodness only the team at Street Bagger can bring you. Well, maybe Urban Rides too, there's a bit of a relation...

Moving on. Don't forget, just because we've rolled out of August doesn't mean the season is over! There's still a LOT of killer shows not to be missed before you blink and the snow is flying. I have a prediction, based on my extensive knowledge of nothing weather related, it's going to be an extended summer! You heard it here first, but don't quote me.

On that note, hope everyone is enjoying the last few months of good weather and we hope to see you out there before turkeys and Santas are falling off the store shelves. Stay safe folks, till next time.

LITHIUM

10+ YEAR LIFE SPAN  
3 YEAR WARRANTY  
TRUE 40 AMP HOUR  
IP66 CERTIFIED

Limitless Lithium is proud to introduce another great addition to the "Nano" powersports and motorcycle series line-up! The new Nano-HD XL is one of the first ever waterproof IP marine certified powersports battery that has a full battery management system (BMS) built into the battery. A BMS monitors all the important aspects of the battery like high/low voltage limits, high temperature and direct short issues. If at any time the battery is subjected to a condition that is unsafe it simply turns itself off. For full details and specification, please visit our website to learn more.

**NOTABLE APPEARANCES AND/OR AWARDS:**  
 Best Use of Color Award – Perewitz Paint Show  
 Sturgis

**STORY OF THE BIKE/BUILD:** The bike used to be  
 a Street Glide and we decided it was time to up-  
 grade the audio in a serious way during the covid  
 lock-downs. The decision was made then for a Road  
 Glide conversion and modify as much as possible  
 while keeping it looking like a bike. My painter said  
 the old paint job wasn't going to do, we agreed it  
 was all in, all new. I gave him some colors and idea  
 behind it, he did his thing. We added a pile of audio  
 and built the back end heavy duty to support it. I  
 was lucky to go back & forth with Scott Capalbo  
 at Cylent Cycles during the design stage and got  
 the second part off the mold! We then took some  
 of my ideas from the performance bagger side and  
 incorporated them into the build like the tunneled  
 fairing for the LP6 lights, bar risers, MX bars, and  
 big radial brakes...separating it from the tradition-  
 al big wheel bagger style.

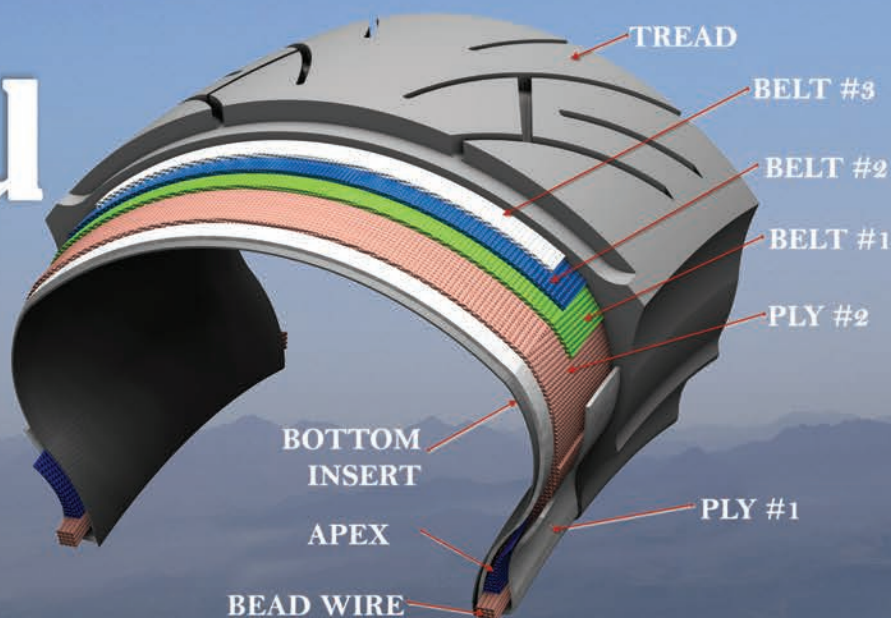

**Vee Rubber**  
PERFORMANCE TIRES

# Did You Know?

- That Metalsport is now the Exclusive Distributor of the 302 Tire Line in the USA?
- That in the agreement between Vee Rubber and Metalsport, Vee Rubber agreed to manufacture the 302 Line to the same quality standards that they use in their production of tires for two of the largest OEM automotive companies in the world?
- That the 302 line of tires would carry a newly established Lifetime warranty along with a one-year Road Hazard warranty? We believe this is one of the strongest warranties in the industry.
