

FARIZON

FARIZON H9E 6T

A REVOLUTION IN COMMERCIAL FLEET
ELECTRIFICATION

H9E-6T

INTRODUCING AN ALL ELECTRIC COMMERCIAL TRUCK FROM FARIZON

100% Electric

Safe & reliable LFP battery technology

Best in Class Performance

Category leading range of over 200km

Tested in Extreme Conditions

Proven performance in all weather conditions

Dual Charging Modes

Fast charging: Full charge in almost 40 minutes*

Slow charging: Provides a gentle, steady current to protect battery longevity

EU Certified

Fully certified in compliance with European Union Standards

*20-80% charge with battery power of 100.46kwh

SAFETY

Dual Airbags

Passenger and driver air bags

Liquid Cooled Battery Pack

Industry proven LFP battery technology offering stable and safe performance

Collision Power Off

Automatic power shutdown to avoid additional damage

TECHNOLOGY

Battery

Industry proven LFP battery technology offering stable and safe performance

Lane Departure Warning

Sensors alert deviation off the driving lane

Front Collision Warning

Alerts of an collision by detecting objects at an distance

360° Camera (Optional)

External cameras allowing for a 360° view

EXTERIOR FEATURES

Modern Design

Sleek and integrated design

Excellent Visibility

Low door line and large window

Dynamic High Beam LED Lights

LED headlamps that adapt the high beam to the traffic environment

High Grade Steel Chassis

Stronger, lighter, and safer

Remote Locking

Security at your fingertips

INTERIOR FEATURES

Luxury Cabin

Modern high quality interiors
Spacious cabin with three seating positions

Steering Wheel Controls

Keep your hands on the wheel and your eyes on the road

Dial Shift

Smooth dial drive mode for more comfortable driving experience

12" Display

High-definition central control screen provides entertainment at any time

Anti-Theft Alarm System

Equipped with smart sensors that detect unauthorized activity and keep the vehicle safe and secure
