Guinot Facials

With nearly 60 years' experience Guinot have developed the best in skincare treatments and products. With a range of facials to suit all ages and skin types your therapist will be able guide you to the right treatment for your needs and to deliver results. All facials can be tailored for men or women.

Hydradermie² Facial

The Guinot Hydradermie² facial is the most advanced beauty salon treatment for maintaining a balanced healthy complexion. It deep-cleanses, oxygenates and regenerates the skin. Regular Hydradermie² treatments offer immediate and lasting results: they improve hydration in dry skin, reduce sebum levels in oily skin, and reduce average wrinkle depth in lined skin. Hydradermie² now achieves double ionisation with double the results. The facial uses the Hydraderm machine (unique to Guinot), manual massage and bespoke plant-based extracts to restore the skin's natural beauty. The skin is cleansed and gently exfoliated, the beauty therapist applies the carefully selected gels and uses mild galvanic current to help the active ingredients penetrate deep into the skin to remove impurities and toxins. High frequency action is then used to oxygenate and boost cells before a massage and a customised mask. Moisturiser for the eye contour, face and neck concludes the treatment.

Microdermabrasion Facial

No chemicals are used in this procedure. It's appropriate for most skin types because it is non-invasive and can effectively reduce or eliminate wrinkles, acne and age spots. In this treatment, dead skin cells are exfoliated and vacuumed off the face with a machine that uses tips covered in tiny diamonds. The diamond tips—together with the strong suction—make it possible to exfoliate the skin more thoroughly than other procedures. With the flexibility of using different suction levels, it also increases blood flow to the skin, and that in turn helps to produce collagen. It will also aid uneven skin tone and help botchy pigmentation, dull skin tone and age spots. The facial will help with skin congestion and help post acne scarring, blackheads and enlarged pores. If you're looking for fast, reliable treatment for skin issues like wrinkles, fine lines, acne scars, or uneven skin tone, you might consider getting this procedure.

This includes a pleasant feeling of warmth and balances the pressure in the ears, forehead and sinuses. It is soothing and helpful for earache, headache, ear noise, stress and nervousness.

Eye Treatments

Please note that a patch test is required 24 hours prior to any eye treatment if it is longer than 6 months from the last eye treatment and first-time customers to The Retreat Beauty Salon. No mascara to be worn prior to eyelash treatment.

Tinting

Tinting enhances the appearance of your eyes or eyebrows and is particularly beneficial for people who have lighter lashes and eyebrows and want darker natural eyelashes and brows without the aid of applying mascara or eyebrow pencils daily. Unlike mascara the effect is very natural. Tinting adds definition to the face shape. Tinting involves carefully dyeing the lashes or brows with safe, natural tints, to give them a natural, luscious, darker appearance. Different eyelash and eyebrow tint colours are available so we can complement your skin and hair colouring perfectly.

Eyebrow tint	£7.00

Eyelash Lift

Eyelash lift = Bigger, Brighter Eyes. The eyelash lift completely transforms your own natural eyelashes by making your lashes lift up, without the hassle of using mascara or lash curlers. Enhancing the lashes will give the eyes definition and shape. Lasting for up to 3 months. This is a semi-permanent method of lifting your eyelashes. A great alternative to false lashes or eyelash extensions. Regardless of how sparse, short or long your eyelashes are, if they don't naturally sweep upwards then they're highly likely to look shorter than they really are. Lifting straight eyelashes to encourage a gentle curl will give them instant length and create the illusion of bigger, brighter eyes. Benefits of eyelash lift are no need for lash curlers, gives definition and opens up the eyes, no more messy mascaras. Ideal for allergy sufferers, great for contact wearers, spectacle wearers and those with active lifestyles.
