# ENAH AI USE AND DISCLOSURE STATEMENT
## Transparency regarding the use of Artificial Intelligence

The use of Artificial Intelligence (AI) tools in the preparation of competition entries is permitted.

In the interest of transparency and fairness, participants are required to disclose any substantial use of AI in their submission. Each participant must complete and submit our **AI Use and Disclosure Statement** together with their competition entry. The statement must indicate:

- whether AI tools were used in preparing the submission;
- which AI tool(s) were used;
- which parts or elements of the submission were generated, substantially modified or substantially assisted by AI;
- the type of content concerned (e.g. text, image, plan, diagram, visualisation); and
- briefly, how the AI tool(s) were used.

**The statement must be submitted as a separate document. AI use does not need to be indicated on the competition boards, drawings, illustrations, text or other presentation materials themselves. Minor uses of AI for routine tasks such as spelling or grammar correction, formatting, translation, or other non-substantive editing do not require disclosure. The disclosure of AI use is a transparency requirement and does not, in itself, constitute a disadvantage in the evaluation of a submission.**

Participants are responsible for ensuring that their use of AI complies with applicable laws and regulations, including the EU Artificial Intelligence Act (Regulation (EU) 2024/1689), where applicable.

**Submission**
Please complete the form on the following page and submit it as a separate PDF together with your competition entry. If no AI tools were used, please select "**No AI used**" and submit the completed form nevertheless.
By submitting this statement, participants confirm that the information provided is complete and accurate to the best of their knowledge.

*AI disclosure: AI tools were used to support the language editing of this document.*
*The content was reviewed and finalised by ENAH.*
