

Stronger businesses. Lasting local ownership.

KEEP OPPORTUNITY ROOTED HERE

A business closure can erase a family's livelihood, neighborhood jobs, and years of community trust. Owners need practical support and financing that fit their circumstances.

Upsurge Community is building pathways to business support and community finance that help underserved entrepreneurs grow, expand local ownership, and restore neighborhood spaces. Rooted in Solano County, our purpose is lasting benefit for existing residents and businesses.

THREE PRIORITIES FOR COMMUNITY INVESTMENT

Small Businesses and Microenterprises

Strengthen business stability, growth, and the livelihoods and local jobs that depend on them.

Commercial Real Estate

Expand local ownership and restore vacant or deteriorating properties to productive community use.

Community Facilities

Support the places that house essential services and sustain community connections.

These priorities guide the services and future financing capabilities we are developing.

BUILT WITH COMMUNITY. ACCOUNTABLE TO OUTCOMES.

Owner input shapes our services and measures of progress. As services develop, we will track business readiness and financing outcomes. We are building governance, risk management, and compliance practices to strengthen accountability, safeguard resources, and protect the people we serve.
