

2HYPEVOLLEYBALL – Individual Athlete Media Packages

Professional tournament media coverage designed for athletes who want focused, high-quality content without requiring full team participation. Individual packages allow athletes and families to receive premium photography and video coverage while maintaining the same professional standards offered in our team media experiences.

Individual coverage is ideal for athletes attending events without team media booking, or for players who want dedicated highlight content for recruiting, social media, or personal archives.

How Individual Coverage Works

Individual Athlete Packages provide focused coverage on a single athlete while still capturing authentic in-game action within the natural flow of tournament play.

Coverage is performance-based – we capture real gameplay moments, energy, and emotion as they happen on the court.

Individual bookings do not guarantee exclusive full-match coverage but prioritize capturing impactful moments whenever possible.
